

Software Security Updates Guarantee

Plans for the Discontinuance of Software Support, for Select Products

For the Period 2026-2030

JAN2026

Planned End of Software Support on Select Products for the Period 2026-2030

Description

Brother is announcing End of Product Support plans for select products during the 2026-2030 timeframe.

We are providing a 5-year outlook to give our customers, partners, and representatives ample time to prepare for the transition.

This document covers all software related to the product, e.g. PC applications, smartphone applications, product firmware, etc

Software Support

Software Support will be discontinued on the machine types and models listed as of the Software effective date. Software Support includes Security Fixes, Bug Fixes and Call Support.
