Definitions of Notes

We use the following symbols and conventions throughout this User's Guide:

 WARNING	WARNING indicates a potentially hazardous situation which, if not avoided, could result in death or serious injuries.
 CAUTION	CAUTION indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injuries.
IMPORTANT	IMPORTANT indicates a potentially hazardous situation which, if not avoided, may result in damage to property or loss of product functionality.
NOTE	NOTE specifies the operating environment, conditions for installation, or special conditions of use.
	Tips icons indicate helpful hints and supplementary information.
	Electrical Hazard icons alert you to possible electrical shock.
	Fire Hazard icons alert you to the possibility of a fire.
	Hot Surface icons warn you not to touch hot machine parts.
	Prohibition icons indicate actions you must not perform.
Bold	Bold style identifies buttons on the machine's control panel or computer screen.
<i>Italics</i>	Italicized style emphasizes an important point or refers you to a related topic.
Courier New	Courier New font identifies messages shown on the machine's LCD.

Important Notes

- Check support.brother.com/downloads for Brother driver and software updates.
- To keep your machine performance up to date, check support.brother.com/downloads for the latest firmware upgrade. Otherwise, some of your machine's functions may not be available.
- Do not use this product outside the country of purchase as it may violate the wireless telecommunication and power regulations of that country.
- Not all models are available in all countries.
- Before giving your machine to anyone else, replacing it, or disposing of it, we strongly recommend resetting it to its factory settings to remove all personal information.
- Windows 10 in this document represents Windows 10 Home, Windows 10 Pro, Windows 10 Education, and Windows 10 Enterprise.
- Windows 11 in this document represents Windows 11 Home, Windows 11 Pro, Windows 11 Education, and Windows 11 Enterprise.
- In this User's Guide, the LCD messages of the DCP-L2640DW/MFC-L2760DW/MFC-L2820DW are used unless otherwise specified.
- In this User's Guide, the illustrations of the MFC-L2820DW are used unless otherwise specified.
- The screens or images in this User's Guide are for illustration purposes only and may differ from those of the actual products.
- Unless otherwise specified, the screens in this manual are from Windows 10. Screens on your computer may vary depending on your operating system.
- The contents of this document and the specifications of this product are subject to change without notice.
- This documentation is both for MFC and DCP models. In this User's Guide, DCP models includes HL- #### (where #### is the name of your model).
- Not all features are available in countries subject to applicable export restrictions.

Before Using Your Machine

Before attempting any printing operation, confirm the following:

- Make sure you have installed the correct software and drivers for your machine.
- For USB or network cable users: Make sure the interface cable is physically secure.

Firewall (Windows)

If your computer is protected by a firewall and you are unable to network print, network scan, or PC-FAX, you may need to configure the firewall settings. If you are using the Windows Firewall and you installed the drivers using the steps in the installer, the necessary firewall settings have been already set. If you are using any other personal firewall software, see the User's Guide for your software or contact the software manufacturer.

Control Panel Overview

The control panel may vary depending on your model.

>> MFC-L2760DW

>> HL-L2465DW/DCP-L2640DW

>> HL-L2480DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/
MFC-L2980DW

MFC-L2760DW

1. Liquid Crystal Display (LCD)

Displays messages to help you set up and use the machine.

If the machine is in Fax Mode, the LCD displays:

a. Date & Time

b. Receive Mode

When you press **Copy**, the LCD displays:

c. Type of copy

d. Number of copies

e. Quality

f. Contrast

g. Copy ratio

2. Menu Buttons

Clear

Press to delete entered data or cancel the current setting.

Menu

Press to access the Menu to program your machine settings.

OK

Press to store your machine's settings.

◀ or ▶

Press to scroll back or forward through menu selections.

▲ or ▼

- Press to scroll up or down through menus and options.
- Press to change the resolution in Fax Mode.

Press  to access speed dial numbers.

Options

Press to access temporary settings for faxing, scanning, or copying.

3. Dial Pad

- Use to dial fax and telephone numbers.
- Use as a keyboard to enter text or characters.

4. Mode Buttons

Fax

Press to switch the machine to Fax Mode.

Copy

Press to switch the machine to Copy Mode.

Scan

Press to switch the machine to Scan Mode.

5. Function Buttons

Redial/Pause

Press to dial the last number you called. This button also inserts a pause when programming quick dial numbers or when dialing a number manually.

Hook

Press **Hook** before dialing to ensure a fax machine answers, and then press **Start**.

If the machine is in Fax/Tel (F/T) Mode and you pick up the handset of an external telephone during the F/T ring (pseudo double-rings), press **Hook** to talk.

Wi-Fi (for wireless models)

Press and hold the **Wi-Fi** button and launch the wireless installer on your computer. Follow the on-screen instructions to set up a wireless connection between your machine and your network.

When the **Wi-Fi** light is on, your machine is connected to a wireless access point. When the **Wi-Fi** light blinks, the wireless connection is down, or your machine is in the process of connecting to a wireless access point.

Resolution (for certain models only)

Press to change the Fax resolution.

2 in 1 (ID) Copy

Press to copy both sides of an identification card onto a single page.

2-sided

Press to copy on both sides of a sheet of paper.

Shortcut Button

Store and recall up to ten fax and telephone numbers.

To access stored Shortcut fax and telephone numbers, hold down the **Shortcut** button and then press the Shortcut number you assigned to the fax or telephone number, using the dial pad.

6. Power On/Off

- Turn on the machine by pressing .
- Turn off the machine by pressing and holding . The LCD displays [Shutting Down] and stays on for a few seconds before turning off. If you have an external telephone or TAD connected, it is always available.

7. Stop/Exit

- Press to stop an operation.
- Press to exit from a menu.

8. Start

- Press to start sending faxes.
- Press to start copying.
- Press to start scanning documents.

HL-L2465DW/DCP-L2640DW

1. Liquid Crystal Display (LCD)

Displays messages to help you set up and use the machine.

If the machine is in Ready Mode or Copy Mode, the LCD displays:

- a. Type of copy
- b. Number of copies
- c. Quality
- d. Contrast
- e. Copy ratio

2. Menu Buttons

Menu

Press to access the menu for programming your machine's settings.

Clear

- Press to delete entered data.
- Press to cancel the current setting.

OK

Press to store your machine's settings.

▲ or ▼

Press to scroll up or down through menus and options.

3. Function Buttons

Copy/Scan Options

Press to access temporary settings for scanning or copying.

Wi-Fi (for wireless models)

Press and hold the **Wi-Fi** button and launch the wireless installer on your computer. Follow the on-screen instructions to set up a wireless connection between your machine and your network.

When the **Wi-Fi** light is on, your machine is connected to a wireless access point. When the **Wi-Fi** light blinks, the wireless connection is down, or your machine is in the process of connecting to a wireless access point.

Scan

Press to switch the machine to Scan Mode.

2 in 1 (ID) Copy

Press to copy both sides of an identification card onto a single page.

4. Stop/Exit

- Press to stop an operation.
- Press to exit from a menu.

5. Start

- Press to start copying.
- Press to start scanning documents.

6. Power On/Off

- Turn on the machine by pressing .
- Turn off the machine by pressing and holding . The LCD displays [Shutting Down] and stays on for a few seconds before turning off.

**HL-L2480DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/

Related Models: HL-L2480DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

When a Home screen is displayed, press ◀ or ▶ to display the other Home screens.

The Home screen displays the machine's status when the machine is idle. When displayed, this screen indicates that your machine is ready for the next command.

The available features will vary depending on your model.

1. Date & Time

Displays the date and time set on the machine.

2. Modes

-  **[Fax]**
Press to access Fax mode.
-  **[Copy]**
Press to access Copy mode.
-  **[Scan]**
Press to access Scan mode.
-  **[Secure Print]**
Press to access the Secure Print option.
-  **[Web]**
Press to connect the Brother machine to an Internet service.
-  **[Apps]**
Press to connect the Brother machine to the Brother Apps service.
-  **[2 in 1 ID Copy]**
Press to access 2in1(ID) Copy option.

3. Toner

Displays the remaining toner life. Press to access the Toner menu.

4.  [Settings]

Press to access the Settings menu.

If Setting Lock has been turned on, a lock  icon appears on the LCD. You must unlock the machine to use Settings.

5. 

(Wireless Status for wireless models)

Press to configure wireless settings.

If you are using a wireless connection, a four-level indicator in each of the Home screens displays the current wireless signal strength.

6.  [Shortcuts]

Press to create Shortcuts for frequently-used operations, such as sending a fax, making a copy, scanning, and using Web Connect.

Three Shortcuts tabs are available with six Shortcuts on each Shortcuts tab. A total of 18 Shortcuts are available.

Stored Fax(es)

The number of received faxes in memory appears at the top of the screen.

Press , and then press [Yes] to print the faxes.

Warning icon

The warning icon  appears when there is an error or maintenance message; press the message area to view it, and then press  to return to Ready Mode.

NOTE

This product adopts the font of ARPHIC TECHNOLOGY CO., LTD.

Access Brother Utilities (Windows)

Brother Utilities is an application launcher that offers convenient access to all Brother applications installed on your computer.

1. Do one of the following:
 - (Windows 11)
Click  > **All apps** > **Brother** > **Brother Utilities**.
 - (Windows 10)
Click  > **Brother** > **Brother Utilities**.
2. Select your machine.

3. Choose the option you want.

Related Information

- [Introduction to Your Machine](#)
 - [Uninstall the Software and Drivers \(Windows\)](#)

Uninstall the Software and Drivers (Windows)

1. Do one of the following:
 - Windows 11
Click  > **All apps** > **Brother** > **Brother Utilities**.
 - Windows 10
Click  > **Brother** > **Brother Utilities**.
2. Select your model from the drop-down list (if it is not already selected).
3. Click **Tools** in the left navigation bar.
 - If the **Software Update Notification** icon is visible, select it, and then click **Check now** > **Check for Software Updates** > **Update**. Follow the on-screen instructions.
 - If the **Software Update Notification** icon is not visible, go to the next step.
4. Click **Uninstall** in the **Tools** section of **Brother Utilities**.
Follow the instructions in the dialog box to uninstall the software and drivers.

- [Access Brother Utilities \(Windows\)](#)

Access Brother iPrint&Scan (Windows/Mac)

Use Brother iPrint&Scan for Windows and Mac to print and scan from your computer.

- This function is not available in countries subject to applicable export regulations.
 - **To download the latest version:**
 - For Windows:
Go to your model's **Downloads** page at support.brother.com/downloads, and then download and install Brother iPrint&Scan.
 - For Mac:
Download and install Brother iPrint&Scan from the Apple App Store.
- If prompted, install the driver and software necessary to use your machine. Download your machine's latest driver and software from your model's **Downloads** page at support.brother.com/downloads.

1. Start Brother iPrint&Scan.

- Windows

Double-click the  (Brother iPrint&Scan) icon

- Mac

In the **Finder** menu bar, click **Go > Applications**, and then double-click the iPrint&Scan icon.

The Brother iPrint&Scan screen appears.

The actual screen may differ depending on the version of the application.

- Load and Print on Envelopes in the Manual Feed Slot

Load Paper in the Paper Tray

- If, when the Check Paper setting is set to On and you pull the paper tray out of the machine, a message appears on the LCD asking if you want to change the paper size and paper type, change these settings, if needed, following the LCD instructions.
- When you load a different size and type of paper in the tray, you must also change the Paper Size and Paper Type settings on the machine, or on your computer.

1. Pull the paper tray completely out of the machine.

2. Press and slide the paper guides to fit the paper.
Press the green release levers to slide the paper guides.

 For Legal or Folio size paper, press the release button (1) in the bottom of the paper tray and then pull out the back of the paper tray. (Legal and Folio size paper are not available in some regions.)

3. Fan the stack of paper well.
4. Load paper in the paper tray with the printing surface *face down*.

-
5. Make sure the paper is below the maximum paper mark (▼▼▼).
Overfilling the paper tray will cause paper jams.

6. Slowly push the paper tray completely into the machine.
7. Lift the support flap to prevent paper from sliding off the output tray.

2. Press .

Related Information

- [Load Paper in the Paper Tray](#)

Load and Print Plain Paper, Thin Paper, Recycled Paper and Bond Paper in the Manual Feed Slot

When you load a different paper size in the tray, you must change the Paper Size setting in the machine or on your computer at the same time.

1. Lift the support flap to prevent paper from sliding off the face down output tray.

2. Open the manual feed slot cover.

3. Use both hands to slide the manual feed slot paper guides to fit the width of the paper you are using.

4. Using both hands, place one sheet of paper in the manual feed slot until the front edge touches the paper feed roller. When you feel the machine pull it in, let go.

- Load paper into the manual feed slot with the printing surface *facing up*.
- Make sure the paper is straight and in the correct position in the manual feed slot. If it is not, the paper may not be fed correctly, resulting in a skewed printout or a paper jam.
- To remove a small printout from the output tray, use both hands to lift up the scanner cover.

- You can still use the machine while the scanner cover is up. To close the scanner cover, gently push it down with both hands.

5. Send your print job to the machine.

Change your print preferences in the Print screen.

6. After the printed page comes out from the machine, load the next sheet of paper in the manual feed slot. Repeat for each page that you want to print.

Related Information

- [Load Paper](#)

Load and Print on Thick Paper and Labels Using the Manual Feed Slot

When you load a different paper size in the tray, you must change the Paper Size setting in the machine or on your computer at the same time.

1. Open the machine's back cover (the face up output tray).

 The machine automatically turns on Manual Feed mode when you load paper in the manual feed slot.

2. On the front of the machine, open the manual feed slot cover.

3. Use both hands to slide the manual feed slot paper guides to fit the width of the paper that you are using.

4. Using both hands, place one sheet of paper in the manual feed slot until the front edge touches the paper feed roller. When you feel the machine pull it in, let go.

- 
- Load paper into the manual feed slot with the printing surface *facing up*.
 - Pull the paper out completely if you must reload the paper into the manual feed slot.
 - Do not put more than one sheet of paper in the manual feed slot at one time, as it may cause a jam.
 - Make sure the paper is straight and in the correct position in the manual feed slot. If it is not, the paper may not be fed correctly, resulting in a skewed printout or a paper jam.

5. Send your print job to the machine.

Change your print preferences in the Print screen.

6. After the printed page comes out from the back of the machine, load the next sheet of paper in the manual feed slot. Repeat for each page that you want to print.
7. When finished, close the back cover (the face up output tray) until it locks in the closed position.

Load and Print on Envelopes in the Manual Feed Slot

Before loading, press the corners and sides of the envelopes to make them as flat as possible.

When you load a different paper size in the tray, you must change the Paper Size setting in the machine or on your computer at the same time.

1. Open the machine's back cover (the face up output tray).

 The machine automatically turns on Manual Feed mode when you load paper in the manual feed slot.

2. Pull down the two green levers as shown in the illustration (applicable to models with green levers).

3. On the front of the machine, open the manual feed slot cover.

4. Use both hands to slide the manual feed slot paper guides to fit the width of the paper that you are using.

- Using both hands, put one envelope in the manual feed slot until the front edge touches the paper feed roller. When you feel the machine pull it in, let go.

- Load the envelope into the manual feed slot with the printing surface *facing up*.
- Pull the envelope out completely when you reload the envelope into the manual feed slot.
- Do not put more than one envelope in the manual feed slot at one time, as it may cause a jam.
- Make sure the envelope is straight and in the correct position on the manual feed slot. If it is not, the envelope may not be fed correctly, resulting in a skewed printout or a paper jam.

- Send your print job to the machine.

Change your print preferences in the Print dialog box.

Settings	Options for Envelopes
Paper Size	Com-10 DL C5 Monarch
Media Type	Envelopes Env. Thick Env. Thin

- After the printed envelope comes out of the machine, put in the next envelope. Repeat for each envelope that you want to print.
- When you finish printing, return the two green levers to their original position.
- When finished, close the back cover (the face up output tray) until it locks in the closed position.

Load Documents in the Automatic Document Feeder (ADF)

Related Models: DCP-L2640DW/MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

Use the ADF when copying or scanning multi page, standard-sized documents.

- The ADF can hold the following sheets and feed each sheet individually:
 - Up to 50 sheets
- Use standard 20 lb (80 g/m²) paper.
- Make sure documents with correction fluid or written in ink are completely dry.

IMPORTANT

- DO NOT leave thick documents on the scanner glass. If you do this, the ADF may jam.
- DO NOT use paper that is curled, wrinkled, folded, ripped, stapled, paper-clipped, glued together, or taped.
- DO NOT use cardboard, newspaper, or fabric.
- To avoid damaging your machine while using the ADF, DO NOT pull on the document while it is feeding.

Supported Document Sizes

Length:	5.8 to 14.0 in. (147.3 to 355.6 mm)
Width:	4.1 to 8.5 in. (105 to 215.9 mm)
Weight:	60 to 105 g/m ² (16 to 28 lb)

1. Unfold the ADF document output support flap.

2. Fan the pages well.
3. Stagger the pages of your document and load it into the ADF *face up* and *top edge first*, as shown in the illustration.

4. Adjust the paper guides to fit the width of your document.

✓ Related Information

- [Load Documents](#)

Load Documents on the Scanner Glass

Use the scanner glass to fax, copy, or scan one page at a time.

Supported Document Sizes

Length:	Up to 11.8 in. (300 mm)
Width:	Up to 8.5 in. (215.9 mm)
Weight:	Up to 4.4 lb (2kg)

NOTE

(For ADF models) To use the scanner glass, the ADF must be empty.

1. Lift the document cover.
2. Place the document on the scanner glass *face down*.

3. Place the corner of the page in the upper left corner of the scanner glass.

4. Close the document cover.
If the document is a book or is thick, gently press on the document cover.

Scan	Letter	0.12 in. (3.0 mm)	0.12 in. (3.0 mm)
	A4	0.12 in. (3.0 mm)	0.12 in. (3.0 mm)
	Legal	0.12 in. (3.0 mm)	0.12 in. (3.0 mm)
Print	Letter, Legal	0.16 in. (4.2 mm)	0.16 in. (4.2 mm)
	A4	0.16 in. (4.2 mm)	0.16 in. (4.2 mm)

¹ A 1 in 1 copy and 100% document size copy

Related Information

- [Paper Handling](#)

Using Special Paper

Always test paper samples before purchasing them to ensure desirable performance.

- DO NOT use inkjet paper; it may cause a paper jam or damage your machine.
- If you use bond paper, paper with a rough surface, or paper that is wrinkled or creased, the paper may exhibit degraded performance.

Store paper in its original packaging and keep it sealed. Keep the paper flat and away from moisture, direct sunlight, and heat.

IMPORTANT

Some types of paper may not perform well or may cause damage to your machine.

DO NOT use paper:

- that is highly textured
- that is extremely smooth or shiny
- that is curled or warped
- that is coated or has a chemical finish
- that is damaged, creased, or folded
- that exceeds the recommended weight specification in this guide
- with tabs and staples
- that is multipart or carbonless
- that is designed for inkjet printing

If you use any of the types of paper listed above, they may damage your machine. This damage is not covered under any Brother warranty or service agreement.

When you change an application's print settings, the changes apply only to documents printed with that application.

- 2-sided printing may be the default depending on your model. For 1-sided printing, turn off the 2-sided printing settings in the printer driver.
- To change print settings for all Windows applications, you must configure the printer driver properties. For more information, see *Related Information: Change the Default Print Settings (Windows)*.

1. Load paper in the paper tray.
2. Select the print command in your application.
3. Select your model's name, and then click the printer's properties or preferences button.

The printer driver window appears.

4. Make sure you have loaded the correct size paper in the paper tray.
5. Click the **Paper Size** drop-down list, and then select your paper size.
6. In the **Orientation** field, select the **Portrait** or **Landscape** option to set the orientation of your printout.

If your application contains a similar setting, we recommend that you set the orientation using the application.

-
7. Type the number of copies (1-999) you want in the **Copies** field.
 8. Click the **Media Type** drop-down list, and then select the type of paper you are using.
 9. To print multiple pages on a single sheet of paper or print one page of your document on multiple sheets, click the **Multiple Page** drop-down list, and then select your options.
 10. Click the **2-sided / Booklet** drop-down list, and then select the option you want.
 11. Change other printer settings, if needed.
 12. Click **OK**.
 13. Complete your print operation.

Print on Both Sides of the Paper (Windows)

Select Letter, Legal, Mexico Legal, India Legal or Folio sized paper when using the automatic 2-sided printing function.

- Make sure the back cover is closed.
- If paper is curled, straighten it and put it back in the paper tray.
- Use regular paper or thin paper. DO NOT use bond paper.
- If the paper is too thin, it may wrinkle.
- When you use the manual 2-sided printing function, it is possible there may be paper jams or poor print quality.

1. Select the print command in your application.
2. Select your model's name, and then click the printer's properties or preferences button.
The printer driver window appears.
3. In the **Orientation** field, select the **Portrait** or **Landscape** option to set the orientation of your printout.

If your application contains a similar setting, we recommend that you set the orientation using the application.

4. Click the **2-sided / Booklet** drop-down list, and then select the **2-sided** or **2-sided (Manual)** option.

Option	Description
2-sided (available for certain models)	Automatically prints on both sides of the paper.
2-sided (Manual)	The machine prints all the even-numbered pages on one side of the paper first. Then, the printer driver instructs you (with a pop-up message) to reinsert the paper.

5. Click the **2-sided Settings** button.
6. Select one of the options from the **2-sided Type** menu.
When 2-sided is selected, four types of 2-sided binding are available for each orientation:

Option for Portrait	Description
---------------------	-------------

Long Edge (Left)

Long Edge (Right)

Short Edge (Top)

Short Edge (Bottom)

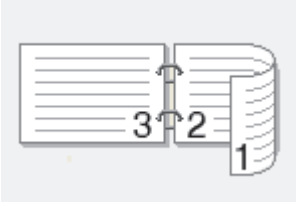

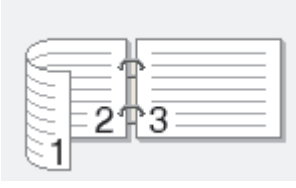

Option for Landscape	Description
----------------------	-------------

Long Edge (Top)

Long Edge (Bottom)

Option for Landscape	Description
Short Edge (Right)	
Short Edge (Left)	

7. Select the **Binding Offset** checkbox to specify the offset for binding in inches or millimeters.
8. Click **OK**.
9. Change other printer settings, if needed.
10. Do one of the following:
 - For automatic 2-sided printing, click **OK** again, and then complete your print operation.
 - For manual 2-sided printing, click **OK** again and follow the on-screen instructions.

If the paper is not feeding correctly, it may be curled. Remove the paper, straighten it, and put it back in the paper tray.

Secure Print (Windows)

Related Models: MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

Use Secure Print to ensure that confidential or sensitive documents do not print until you enter a password on the machine's control panel.

The secure data is deleted from the machine when you turn off the machine.

1. Select the print command in your application.
2. Select your model's name, and then click the printer's properties or preferences button.
The printer driver window appears.
3. Click the **Advanced** tab.
4. Click the **Settings** button in the **Secure Print** field.
5. Select the **Secure Print** checkbox.
6. Type your four-digit password in the **Password** field.
7. Type the user name and job name in the **User Name** and **Job Name** fields, if needed.
8. Click **OK** to close the **Secure Print Settings** window.
9. Click **OK**.
10. Complete your print operation.
11. On the machine's control panel, press ◀ or ▶ to display the [Secure Print] option, and then press [Secure Print].
12. Press ▲ or ▼ to display user names, and then press your user name.
13. Enter your four-digit password, and then press [OK].
The LCD displays the list of secured jobs for your name.
14. Press ▲ or ▼ to display the print job, and then press it.
15. Enter the number of copies you want, and then press [OK].
16. Press [Start].
The machine prints the data.

The secured data will be cleared from the machine's memory after printing.

Change the Default Print Settings (Windows)

When you change an application's print settings, the changes apply only to documents printed with that application. To change print settings for all Windows applications, you must configure the printer driver properties.

1. Hold down the  key and press the  key on the computer's keyboard to launch **Run**.
2. Type "**control printers**" in the **Open:** field and click **OK**.

3. Right-click your model's icon, and then select **Printer properties**. (If the printer driver options appear, select your printer driver.)
The printer properties dialog box appears.
4. Click the **General** tab, and then click the **Printing Preferences...** or **Preferences...** button.
The printer driver dialog box appears.

- To configure the tray settings, click the **Device Settings** tab (available for certain models).
- To change the printer port, click the **Ports** tab.

5. Select the print settings you want to use as default for all of your Windows programs.
6. Click **OK**.
7. Close the printer properties dialog box.

>> [Basic Tab](#)

>> [Advanced Tab](#)

Basic Tab

The screenshot shows the 'Brother Properties' dialog box with the 'Basic' tab selected. The left pane displays a preview of a document and a list of current settings: Paper Size: Letter (8 1/2 x 11 in / 215.9 x 279.4 mm), Media Type: Plain Paper, Copies: 1, Resolution: 600 dpi, 2-sided / Booklet: 2-sided, Scaling: Off, Watermark: Off, and Secure Print: Off. There are buttons for 'Print Preview', 'Add Profile(J)...', and 'Support...'. The right pane has three tabs: 'Basic', 'Advanced', and 'Print Profiles'. Under 'Basic', settings include Paper Size (Letter), Orientation (Portrait selected, Landscape unselected), Copies (1, Collate unselected), Media Type (Plain Paper), Resolution (600 dpi), and Print Settings (Graphics). There is a 'Manual Settings...' button. Under 'Multiple Page', settings include Multiple Page (Normal), Page Order (Right, then Down), Border Line, and 2-sided / Booklet (2-sided). There is a '2-sided Settings(X)...' button. Under 'Paper Source', settings include First Page (Auto Select) and Other Pages (Same as First Page). There is a 'Default' button. At the bottom are 'OK', 'Cancel', and 'Help' buttons.

1. Paper Size

Select the paper size you want to use. You can either choose from standard paper sizes or create a custom paper size.

2. Orientation

Select the orientation (portrait or landscape) of your printout.

If your application contains a similar setting, we recommend that you set the orientation using the application.

3. Copies

Type the number of copies (1-999) that you want to print in this field.

Collate

Select this option to print sets of multi-page documents in the original page order. When this option is selected, one complete copy of your document will print, and then reprint according to the number of copies you choose. If this option is not selected, then each page will print according to the number of copies chosen before the next page of the document is printed.

4. Media Type

Select the media type you want to use. To achieve the best print results, the machine automatically adjusts its print settings according to the selected media type.

5. Resolution

Select the print resolution. As print resolution and speed are related, the higher the resolution, the longer it will take to print the document.

6. Print Settings

Select the type of document you want to print.

Manual Settings...

Specify additional settings such as brightness, contrast, and other settings.

Graphics

Use Printer Halftone

Select this option to use the printer driver to express halftones.

Brightness

Adjust the brightness.

Contrast

Adjust the contrast.

Graphics Quality

Select either Graphics or Text for the best print quality, based on the type of document you are printing.

Improve Gray Printing

Select this option to improve the image quality of shaded areas.

Improve Pattern Printing

Select this option to improve the pattern printing if printed fills and patterns are different from the fills and patterns you see on your computer screen.

Improve Thin Line

Select this option to improve the image quality of thin lines.

Use System Halftone

Select this option to use Windows to express halftones.

TrueType Mode (available for certain models)

Mode

Select how the fonts are processed for printing.

Use Printer TrueType Fonts

Select whether to use built-in fonts for the font processing.

7. Multiple Page

Select this option to print multiple pages on a single sheet of paper, or print one page of your document on multiple sheets.

Page Order

Select the page order when printing multiple pages on a single sheet of paper.

Border Line

Select the type of border to use when printing multiple pages on a single sheet of paper.

8. 2-sided / Booklet

Select this option to print on both sides of the paper, or print a document in booklet format using 2-sided printing.

2-sided Settings

Click this button to select the type of 2-sided binding. Four types of 2-sided bindings are available for each orientation.

9. Paper Source

Select the paper source setting according to your print conditions or purpose.

First Page

Select the paper source to use for printing the first page.

Other Pages

Select the paper source to use for printing the second and subsequent pages.

Advanced Tab

1. Scaling

Select these options to enlarge or reduce the size of the pages in your document.

Fit to Paper Size

Select this option to enlarge or reduce the document pages to fit a specified paper size. When you select this option, select the paper size you want from the drop-down list.

Free [25 - 400%]

Select this option to enlarge or reduce the document pages manually. When you select this option, type a value into the field.

2. Reverse Print

Select this option to rotate the printed image 180 degrees.

3. Use Watermark

Select this option to print a logo or text on your document as a watermark. Select one of the preset watermarks, add a new watermark, or use an image file you have created.

4. Header-Footer Print

Select this option to print the date, time, and login user name on the document.

5. Toner Save Mode

Select this feature to use less toner to print documents; printouts appear lighter, but are still legible.

6. Secure Print (available for certain models)

This feature ensures that confidential or sensitive documents are not printed out until you enter a password on the machine's control panel.

7. Administrator

This feature allows you to change the administrator password and restrict various printing functions.

8. User Authentication (available for certain models)

This feature allows you to confirm the restrictions for each user.

9. Other Print Options

Sleep Time (available for certain models)

Select this option to set the machine to enter sleep mode immediately after printing.

Macro (available for certain models)

Select this feature to print an electronic form (macro), which you have stored in your machine's memory, as an overlay on the print job.

Density Adjustment

Specify the print density.

Improve Print Output

Select this option to reduce the amount of paper curling and improve the toner fixing.

Skip Blank Page

Select this option to allow the printer driver to automatically detect blank pages and exclude them from printing.

Print Text in Black

Select this option when you want to print color text in black.

Print Archive

Select this option to save the print data as a PDF file to your computer.

Eco settings

Select this option to reduce printing noise.

Load and Print on Envelopes in the Manual Feed Slot

Before loading, press the corners and sides of the envelopes to make them as flat as possible.

When you load a different paper size in the tray, you must change the Paper Size setting in the machine or on your computer at the same time.

1. Open the machine's back cover (the face up output tray).

 The machine automatically turns on Manual Feed mode when you load paper in the manual feed slot.

2. Pull down the two green levers as shown in the illustration (applicable to models with green levers).

3. On the front of the machine, open the manual feed slot cover.

4. Use both hands to slide the manual feed slot paper guides to fit the width of the paper that you are using.

- Using both hands, put one envelope in the manual feed slot until the front edge touches the paper feed roller. When you feel the machine pull it in, let go.

- Load the envelope into the manual feed slot with the printing surface *facing up*.
- Pull the envelope out completely when you reload the envelope into the manual feed slot.
- Do not put more than one envelope in the manual feed slot at one time, as it may cause a jam.
- Make sure the envelope is straight and in the correct position on the manual feed slot. If it is not, the envelope may not be fed correctly, resulting in a skewed printout or a paper jam.

- Send your print job to the machine.

Change your print preferences in the Print dialog box.

Settings	Options for Envelopes
Paper Size	Com-10 DL C5 Monarch
Media Type	Envelopes Env. Thick Env. Thin

- After the printed envelope comes out of the machine, put in the next envelope. Repeat for each envelope that you want to print.
- When you finish printing, return the two green levers to their original position.
- When finished, close the back cover (the face up output tray) until it locks in the closed position.

Print an Email Attachment

You can print files by emailing them to your Brother machine.

- Make sure Web Based Management is set to On. For more information, see *Related Information*.
- You can attach up to 10 documents, 20 MB in total, to an email.
- This feature supports the following formats:
 - Document files: PDF, TXT, and Microsoft Office files
 - Image files: JPEG, BMP, GIF, PNG, and TIFF
- The machine prints both the email content and attachments by default. To print only email attachments, change the settings as necessary.

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Online Functions** > **Online Functions Settings**.

- If the left navigation bar is not visible, start navigating from ☰.
- If this function is locked, contact your network administrator for access.

5. Click the **I accept the terms and conditions** button.
6. Go to your machine, and then follow the machine's instructions to enable the settings.
7. On your computer, click **General Settings**.

The **Email Print: General Settings** screen appears.

8. Click the **Enable** button.
The machine prints the instruction sheet.
9. Send your email to the email address included on the sheet. The machine prints the email attachments.

- To change the settings, including email address and printer settings, click the **Online Functions Settings Page** button.
- (HL-L2480DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW)
You can also configure the settings from your machine. Press [Apps] > [Online Functions], and then follow the on-screen instructions.

Send Scanned Data to an Email Recipient

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

Send scanned data directly from your machine to an email recipient without using a computer. This function allows your machine to scan documents and send them to an email address without your machine being connected to a computer. To send the scanned data as an attachment directly to your default email application using the iPrint&Scan software on your computer or the Scan button on your machine, use the "Scan to Email Attachment" function instead.

- (MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL)
To use this function, go to your model's **Downloads** page at support.brother.com/downloads to download the Internet FAX Install Tool. The installation instructions are available on the **Downloads** page. If the Internet Fax Install Tool is not available for your model, contact Brother Customer Service.
- To send scanned data to an email recipient, you must configure your machine to communicate with your network and email server, which is used to send and receive emails.
- Configure these items from the machine's control panel or Web Based Management.
- To use the Scan to Email Server function, connect your machine to the network and access an SMTP server. Set up the following SMTP email settings:
 - Server address
 - Port number
 - User name
 - Encryption type (SSL or TLS)
 - Email server certificate (if used)If you do not know these settings, contact your email service provider or network administrator.

Set up a Scan to FTP Profile

Set up a Scan to FTP Profile to scan and upload the scanned data directly to an FTP location.

- We recommend using the latest version of the following web browsers:
 - Microsoft Edge, Firefox, and Google Chrome™ for Windows
 - Safari, Firefox, and Google Chrome™ for Mac
 - Google Chrome™ for Android™
 - Safari and Google Chrome™ for iOS
- Ensure that JavaScript and Cookies are always enabled, regardless of which browser you use.

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Scan > Scan to FTP/Network**.

If the left navigation bar is not visible, start navigating from ☰.

5. Select the **FTP** option, and then click **Submit**.
6. In the left navigation bar, click **Scan > Scan to FTP/Network Profile**.
7. Select the profile you want to set up or change.

Using the following characters: ?, /, \, ", :, <, >, | or * may cause a sending error.

Option	Description
Profile Name	Type a name for this server profile (up to 15 alphanumeric characters). The machine will display this name on the LCD.
Host Address	Type the Host Address (for example: ftp.example.com; up to 64 characters) or the IP address (for example: 192.23.56.189).
Port Number	Change the Port Number setting used to access the FTP server. The default setting is port 21. In most cases this setting does not need to be changed.
Username	Type a user name (up to 32 characters) of a user that has permission to write data to the FTP server.
Password	Type the password (up to 32 characters) associated with the user name you entered in the Username field. Type the password again in the Retype password field.
SSL/TLS	Set the SSL/TLS option to scan securely using SSL/TLS communication. Change the CA Certificate setting, if needed.
Store Directory	Type the path (up to 60 characters) to the folder on the FTP server where you want to send your scanned data. Do not type a slash mark at the beginning of the path (correct example: brother/abc).
File Name	Select a file name prefix from the preset names provided, or from user-defined names. The file name used for the scanned document will be

Option	Description
	the file name prefix you select, followed by the last six digits of the flatbed/ADF scanner counter and the file extension (for example: "Estimate_098765.pdf").
Quality	Select a quality setting. If you choose the User Select option, the machine will prompt users to select a setting each time they use the scan profile.
File Type	Select the file type you want to use for the scanned document. If you choose the User Select option, the machine will prompt users to select a setting each time they use the scan profile.
Document Size	Select your document size from the list. This is necessary to make sure the scanned file is the correct size. If you choose the User Select option, the machine will prompt users to select a setting each time they use the scan profile.
File Size	Select your file size from the list. If you choose the User Select option, the machine will prompt users to select a setting each time they use the scan profile.
Auto Deskew or ADF Auto Deskew	Select the Auto option to set the machine to correct document skewing automatically as the pages are scanned.
2-sided Scan (MFC-L2900DW/ MFC-L2900DWXL/MFC-L2980DW)	Select the Long Edge or Short Edge option to scan both sides of the document, depending on the layout of your original.
Remove Background Color	Change the amount of background color that is removed.
Document Separation (HL-L2480DW/ MFC-L2807DW/MFC-L2820DW/ MFC-L2820DWXL/MFC-L2900DW/ MFC-L2900DWXL/MFC-L2980DW)	Split a scanned image. When multiple documents have been scanned, you can split and save the documents separately by using this function.
Brightness	Select the brightness level.
Contrast	Select the contrast level.
Passive Mode	Set the Passive Mode option to off or on depending on your FTP server and network firewall configuration. The default setting is on. In most cases, this setting does not need to be changed.

8. Click **Submit**.

Set the Date and Time Using Web Based Management

Make sure the date and time and the time zone settings are set correctly using Web Based Management or the control panel. The machine's time must match the time used by the server providing authentication.

- We recommend using the latest version of the following web browsers:
 - Microsoft Edge, Firefox, and Google Chrome™ for Windows
 - Safari, Firefox, and Google Chrome™ for Mac
 - Google Chrome™ for Android™
 - Safari and Google Chrome™ for iOS
- Ensure that JavaScript and Cookies are always enabled, regardless of which browser you use.
- Ignore step 1, if you already have a Web Based Management window open.

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "**Pwd**". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Administrator > Date&Time**.

If the left navigation bar is not visible, start navigating from ☰.

Date&Time

Date

██ / ██ / ████

Synchronize with SNTP server

To synchronize the "Date&Time" with your SNTP server, you must configure the SNTP server settings.

[SNTP>>](#)

Cancel Submit

5. Clear the **Synchronize with SNTP server** checkbox.
6. In the **Date** fields, enter the date.
7. Select the clock type from the **Clock Type** field.
8. In the **Time** fields, enter the time.
9. Select the time difference between your location and UTC from the **Time Zone** drop-down list. For example, the time zone for Eastern time in the USA and Canada is UTC-05:00.
10. In the **Auto Daylight** field, click **On** to set the machine to change automatically to Daylight Saving Time. It will reset itself forward one hour in the spring, and back one hour in the fall (available only for some countries).
11. Click **Submit**.

Related Information

Change the Scan Button Settings from Brother iPrint&Scan

Brother iPrint&Scan allows you to change the machine's Scan Button settings.

1. Start Brother iPrint&Scan.
 - Windows:

Double-click the  (Brother iPrint&Scan) icon on your computer's desktop.

For more information, see *Related Information*.
 - Mac:

In the **Finder** menu bar, click **Go > Applications**, and then double-click the iPrint&Scan icon.The Brother iPrint&Scan screen appears.

NOTE

To download the latest application:

- For Windows:

Go to your model's **Downloads** page at support.brother.com/downloads, and then download and install Brother iPrint&Scan.
 - For Mac:

Download and install Brother iPrint&Scan from the Apple App Store.
2. If your Brother machine is not selected, click the **Select your Machine** button, and then follow the on-screen instructions to select your Brother machine.
 3. Click the **Machine Scan Settings** button, and then follow the on-screen instructions to change the scan settings, such as document size, color, and resolution.

Scan Using Nuance™ PaperPort™ 14SE or Other Windows Applications

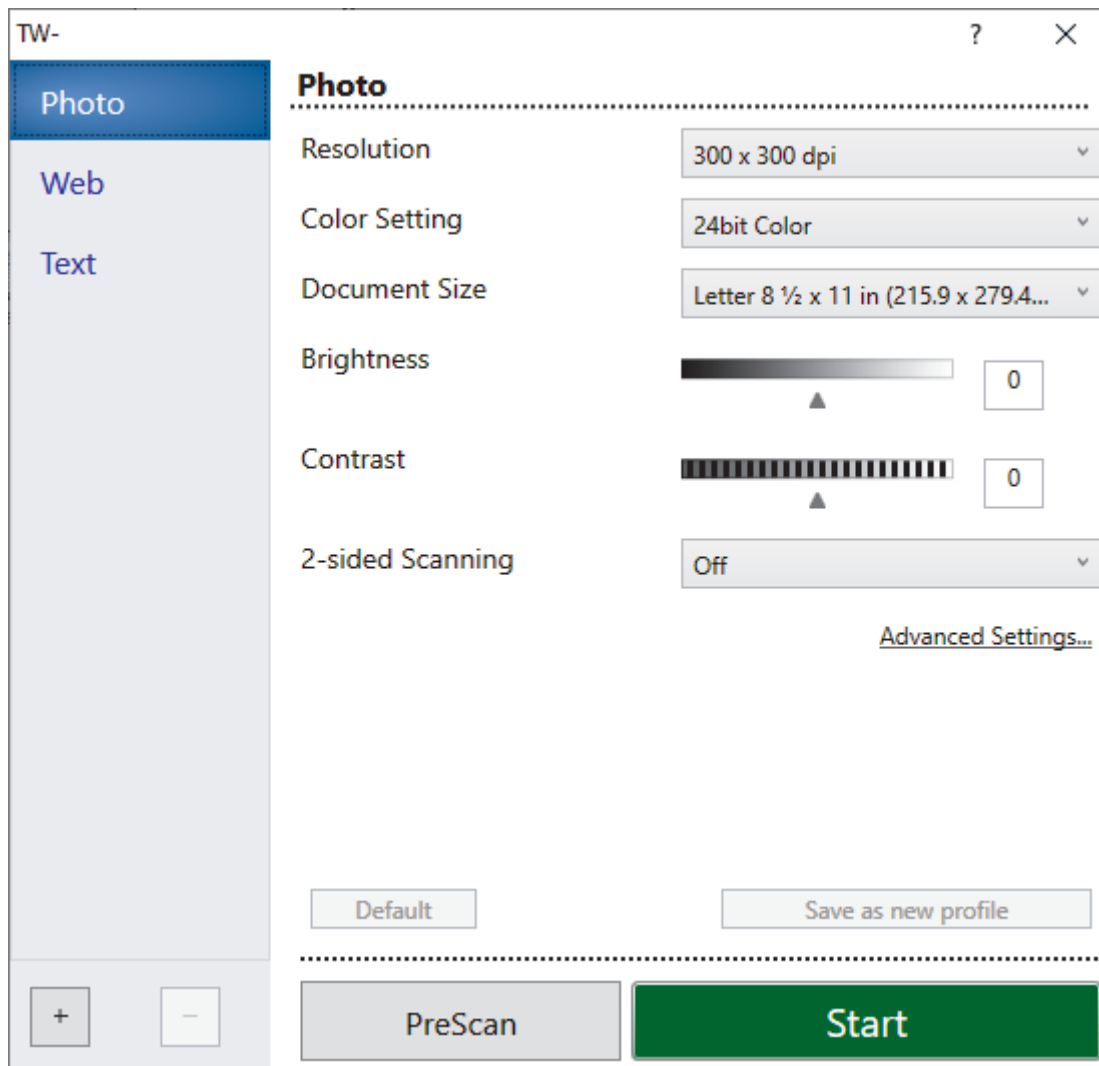

You can use the Nuance™ PaperPort™ 14SE application for scanning.

- This function is not available in countries subject to applicable export regulations.
- To download the Nuance™ PaperPort™ 14SE application, click  (**Brother Utilities**), select **Do More** in the left navigation bar, and then click **PaperPort**.
- Nuance™ PaperPort™ 14SE supports Windows 10 and Windows 11.
- For detailed instructions on using each application, click the application's **Help** menu, and then click **Getting Started Guide** in the **Help** ribbon.

The instructions for scanning in these steps are for PaperPort™ 14SE. For other Windows applications, the steps will be similar. PaperPort™ 14SE supports both TWAIN and WIA drivers; the TWAIN driver (recommended) is used in these steps.

1. [Load your document.](#)
2. Start PaperPort™ 14SE.
Do one of the following:
 - Windows 11
Click  > **All apps** > **Nuance PaperPort 14** > **PaperPort**.
 - Windows 10
Click  > **Nuance PaperPort 14** > **PaperPort**.
3. Click the **Desktop** menu, and then click **Scan Settings** in the **Desktop** ribbon.
The **Scan or Get Photo** panel appears on the left side of the screen.
4. Click **Select**.
5. From the available Scanners list, select your model with **TWAIN: TW** in the name.
6. Click **OK**.
7. Select the **Display scanner dialog box** checkbox in the **Scan or Get Photo** panel.
8. Click **Scan**.
The Scanner Setup dialog box appears.

9. Adjust the settings in the Scanner Setup dialog box, if needed.
10. Click the **Document Size** drop-down list, and then select your document size.

To scan both sides of the document (MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW):
Automatic 2-sided scan is available only when using the ADF.
You cannot use PreScan to preview the scanned image.

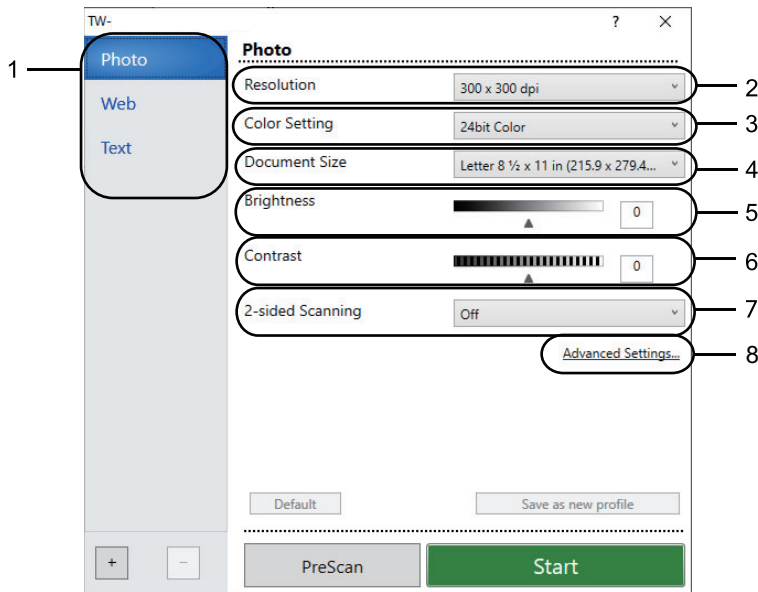

11. Click **PreScan** to preview your image and crop unwanted portions before scanning.
12. Click **Start**.
The machine starts scanning.

Related Information

 - [TWAIN Driver Settings \(Windows\)](#)

TWAIN Driver Settings (Windows)

- Note that the item names and assignable values will vary depending on the machine.
- The **Contrast** option is available only when selecting the **Gray (Error Diffusion)**, **True Gray**, or **24bit Color** options from the **Color Setting** drop-down list.

1. Scan

Select the **Photo**, **Web**, or **Text** option depending on the type of document you want to scan.

Scan (Image Type)		Resolution	Color Setting
Photo	Use for scanning photo images.	300 x 300 dpi	24bit Color
Web	Use for attaching scanned images to web pages.	100 x 100 dpi	24bit Color
Text	Use for scanning text documents.	200 x 200 dpi	Black & White

2. Resolution

Select a scanning resolution from the **Resolution** drop-down list. Higher resolutions take more memory and transfer time, but produce a finer scanned image.

3. Color Setting

Select from a range of scan color depths.

- Black & White**
Use for text or line art images.
- Gray (Error Diffusion)**
Use for photographic images or graphics. (Error Diffusion is a method for creating simulated gray images without using true gray dots. Black dots are arranged in a specific pattern to give a gray appearance.)
- True Gray**
Use for photographic images or graphics. This mode is more accurate because it uses up to 256 shades of gray.
- 24bit Color**
Use to create an image with the most accurate color reproduction. This mode uses up to 16.8 million colors to scan the image, but it requires the most memory and has the longest transfer time.

4. Document Size

Select the exact size of your document from a selection of preset scan sizes.

If you select **Custom**, the **Custom Document Size** dialog box appears and you can specify the document size.

5. Brightness

Set the brightness level by dragging the slider to the right or left to lighten or darken the image. If the scanned image is too light, set a lower brightness level and scan the document again. If the image is too dark, set a higher brightness level and scan the document again. You can also type a value in the field to set the brightness level.

6. Contrast

Increase or decrease the contrast level by moving the slider to the right or left. An increase emphasizes dark and light areas of the image, while a decrease reveals more details in gray areas. You can also type a value in the field to set the contrast level.

7. 2-sided Scanning (MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW)

Scan both sides of the document. When using the Automatic 2-sided Scan feature, you must select the **Long-edge binding** or **Short-edge binding** option from the **2-sided Scanning** drop-down list, so that when you turn the pages, they are facing the way you want.

8. Advanced Settings

Configure advanced settings by clicking the **Advanced Settings** button in the Scan Settings dialog box.

- **Document Correction**

- **Auto Deskew**

- Set the machine to correct document skewing automatically as the pages are scanned.

- **Detect End of Page (ADF)**

- Detects the end of page and automatically adjusts the size of a page when the length of the document scanned from the ADF is shorter than the selected document size.

- **Rotate Image**

- Rotate the scanned image.

- **Fill With Color**

- Fill in the edges on four sides of the scanned image using the selected color and range.

- **Image Quality**

- **Background Processing**

- **Remove Bleed-through / Pattern**

- Prevent bleed-through.

- **Remove Background Color**

- Remove the base color of documents to make the scanned data more legible.

- **Color Drop**

- Select a color to remove from the scanned image.

- **Edge Emphasis**

- Make the characters of the original sharper.

- **Reduce Noise**

- Improve the quality of your scanned images with this selection. The **Reduce Noise** option is available when selecting the **24bit Color** option and the **300 x 300 dpi**, **400 x 400 dpi**, or **600 x 600 dpi** scan resolution.

- **B&W Image Quality**

- **Character Correction**

- **Blurred Character Correction**

- Correct the broken or incomplete characters of the original to make them easier to read.

- **Boldface Formatting**

- Emphasize the characters of the original by making them bold.

- **B&W Inversion**

Invert black and white in the black and white image.

- **Feed Control**

- **Layout** (DCP-L2640DW/MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW)

Select the layout.

- **Continuous Scan**

Select this option to scan multiple pages. After a page is scanned, select whether to continue scanning or finish.

Scan Using Windows Fax and Scan

The Windows Fax and Scan application is another option that you can use for scanning.

- Windows Fax and Scan uses the WIA scanner driver.
- To crop a portion of a page after pre-scanning a document, you must scan using the scanner glass (also called the flatbed).

1. Load your document.
2. Launch Windows Fax and Scan.
3. Click **File > New > Scan**.
4. Select the scanner you want to use.
5. Click **OK**.

The **New Scan** dialog box appears.

6. Adjust the settings in the dialog box, if needed.

The scanner resolution can be set to a maximum of 1200 dpi. If you want to scan at higher resolutions, use the **Scanner Utility** software from **Brother Utilities**.

If your machine supports 2-sided scanning and you want to scan both sides of your document, select **Feeder (Scan both sides)** from the **Source** drop-down list.

7. Click **Scan**.

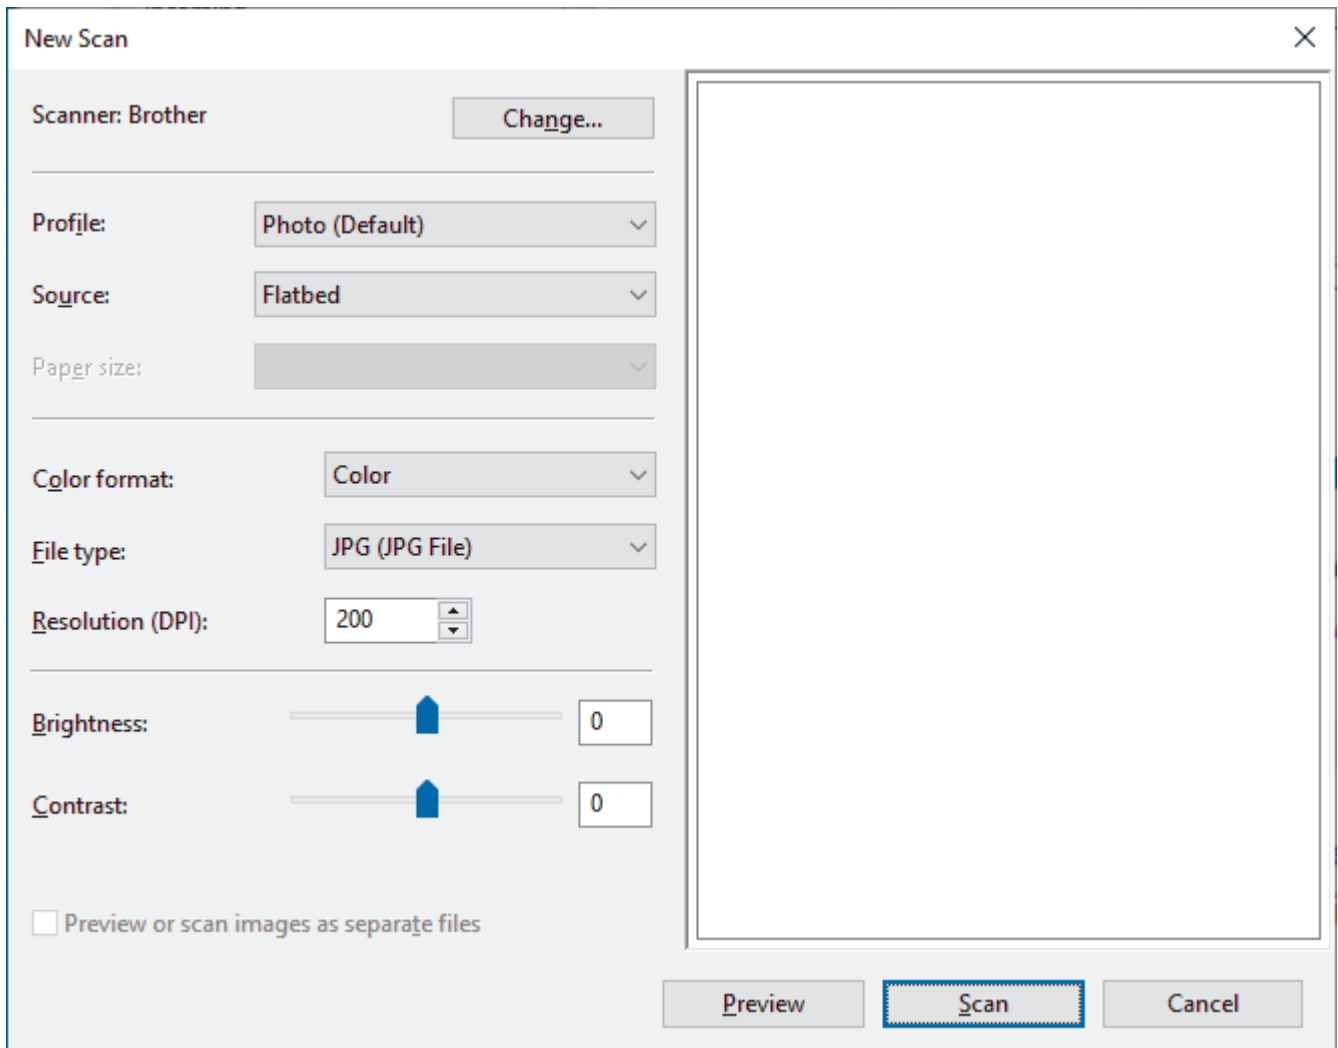

The machine starts scanning the document.

Some receive modes answer automatically (Fax Only Mode and Fax/Tel Mode). You may want to change the Ring Delay before using these modes.

Fax Only Mode

([Fax Only] in the machine's menu)

Fax Only Mode automatically answers every call as a fax.

Fax/Tel Mode

([Fax/Tel] in the machine's menu)

Fax/Tel Mode helps you manage incoming calls, by recognizing whether they are fax or voice calls and handling them in the following ways:

- Faxes will be received automatically.
- Voice calls will start the F/T ring to tell you to pick up the call. The F/T ring is a fast pseudo/double-ring made by your machine.

Manual Mode

([Manual] in the machine's menu)

Manual Mode turns off all automatic answering operations unless you are using the Distinctive Ring Receive feature.

To receive a fax in Manual Mode, lift the handset of the external telephone connected to the machine or press the button in the table.

Applicable Models	Alternate way to lift the handset
MFC-L2760DW	Hook
MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW	Hook

When you hear fax tones (short repeating beeps), press the buttons in the table to receive a fax. Use the Easy Receive feature to receive faxes when you have lifted a handset on the same line as the machine.

Applicable Models	To receive a fax
MFC-L2760DW	Start and then ▼
MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW	Fax Start and then Receive

External TAD Mode

([External TAD] in the machine's menu)

External TAD Mode lets an external answering device manage your incoming calls.

Incoming calls will be handled in the following ways:

- Faxes will be received automatically.
- Voice callers can record a message on the external TAD.

Related Information

- [Receive Mode Settings](#)

Choose the Correct Receive Mode

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/
MFC-L2900DWXL/MFC-L2980DW

The correct Receive Mode for you is determined by the external devices and telephone subscriber services (Voice Mail, Distinctive Ring and so on) you will be using on the same line as your machine.

Will you be using a Distinctive Ring number for receiving faxes?

Brother uses the term "Distinctive Ring" but different telephone companies may have other names for this service, such as Custom Ringing, Personalized Ring, Teen Ring, Ident-A-Ring, Ident-A-Call, Data Ident-A-Call, Smart Ring and SimpleBiz Fax & Alternate Number Ringing.

Will you be using Voice Mail on the same telephone line as your Brother machine?

If you have Voice Mail on the same telephone line as your Brother machine, there is a strong possibility that Voice Mail and the Brother machine will conflict with each other when receiving incoming calls.

Will you be using a Telephone Answering Device on the same telephone line as your Brother machine?

Your external telephone answering device (TAD) will answer every call automatically. Voice messages are stored on the external TAD and fax messages are printed. Select [External TAD] as your receive mode.

Will you be using your Brother machine on a dedicated fax line?

Your machine automatically answers every call as a fax. Select [Fax Only] as your receive mode.

Will you be using your Brother machine on the same line as your telephone?

• Do you want to receive voice calls and faxes automatically?

The Fax/Tel Mode is used when sharing the Brother machine and your telephone on the same line. Select [Fax/Tel] as your receive mode.

Important Note: You cannot receive voice messages on either Voice Mail or an answering machine if you selected the Fax/Tel Mode.

• Do you expect to receive very few faxes?

Choose [Manual] as your receive mode. You control the telephone line and must answer every call yourself.

Set the F/T Ring Time (Pseudo/Double-ring)

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

When you set the Receive Mode to Fax/Tel Mode, if the call is a fax, your machine will automatically receive it. However, if it is a voice call, the machine will sound the F/T ring (pseudo/double-ring) for the time you set in the F/T Ring Time option. When you hear the F/T ring, it means that a voice caller is on the line.

The F/T Ring Time feature works when you set Fax/Tel Mode as the Receive Mode.

Because the F/T ring is made by the machine, extension and external telephones will not ring; however, you can still answer the call on any telephone.

Use PC-Fax Receive to Transfer Received Faxes to Your Computer (Windows only)

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

Turn on the PC-Fax Receive feature to automatically store incoming faxes to your machine's memory, and then send them to your computer. Use your computer to view and store these faxes.

To transfer the received faxes to your computer you must have the PC-FAX Receiving software running on your computer.

Even if you have turned off your computer (at night or on the weekend, for example), your machine will receive and store your faxes in its memory.

When you start your computer and the PC-FAX Receiving software runs, your machine transfers your faxes to your computer automatically.

If you selected [Backup Print: On], the machine will also print the fax.

Forward Incoming Faxes to a Network Destination

Related Models: MFC-L2980DW

Set up a profile to forward incoming faxes directly to a folder on an FTP or CIFS server.

- We recommend using the latest version of the following web browsers:
 - Microsoft Edge, Firefox, and Google Chrome™ for Windows
 - Safari, Firefox, and Google Chrome™ for Mac
 - Google Chrome™ for Android™
 - Safari and Google Chrome™ for iOS
- Ensure that JavaScript and Cookies are always enabled, regardless of which browser you use.

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Administrator > Network Profile**.

If the left navigation bar is not visible, start navigating from ☰.

5. Click the protocol option next to the Profile number.
6. Select the **FTP** or **Network** option, and then click **Submit**.
7. Set up the profile for your server, using one of the following tables:

Using the following characters: ?, /, \, ", :, <, >, | or * may cause a sending error.

FTP

Option	Description
Profile Name	Type a name for this server profile (up to 15 alphanumeric characters). The machine will display this name on the LCD.
Host Address	Type the Host Address (for example: ftp.example.com; up to 64 characters) or the IP address (for example: 192.23.56.189).
Port Number	Change the Port Number setting used to access the FTP server. The default setting is port 21. In most cases this setting does not need to be changed.
Username	Type a user name (up to 32 characters) of a user that has permission to write data to the FTP server.
Password	Type the password (up to 32 characters) associated with the user name you entered in the Username field. Type the password again in the Retype password field.
SSL/TLS	Set the SSL/TLS option to forward incoming faxes securely using SSL/TLS communication. Change the CA Certificate setting, if needed.

Option	Description
Store Directory	Type the path (up to 255 characters) to the folder on the FTP server where you want to forward incoming faxes. Do not type a slash mark at the beginning of the path (correct example: brother/abc).
Passive Mode	Set the Passive Mode option to off or on depending on your FTP server and network firewall configuration. The default setting is on. In most cases, this setting does not need to be changed.

Network

Option	Description
Profile Name	Type a name for this server profile (up to 15 alphanumeric characters). The machine will display this name on the LCD.
Network Folder Path	Type the path to the folder on the CIFS server where you want to forward incoming faxes.
Auth. Method	To set your authentication method, select Auto , Kerberos , or NTLMv2 .
Username	Type a user name (up to 96 characters) that has permission to write data to the folder specified in the Network Folder Path field. If the user name is part of a domain, type the user name in one of the following styles: user@domain domain\user
Password	Type the password (up to 32 characters) associated with the user name you entered in the Username field. Type the password again in the Retype password field.
Kerberos Server Address	When you select Kerberos for the Auth. Method option, you must type the Kerberos Server Address (for example: kerberos.example.com; up to 64 characters).

You must configure the SNTP (network time server) or you must set the date, time and time zone correctly on the control panel. The time must match the time used by the Kerberos Server and CIFS Server.

8. Click **Submit**.
9. To set the Fax Forward feature, in the left navigation bar, click **Fax > Remote Fax Options**.
10. Select **Forward to Network** from the **Fwd/Store/Cloud/Network** drop-down list.
11. Select the file type you want to use.
12. To print a backup copy of incoming faxes, select **On** for **Backup print**.
13. Select the profile you want to use from the **Network Profile** drop-down list.
14. Type a three-digit Remote Access Code in the **Remote Access Code** field, if needed.

- You can use the numbers 0 through 9, *, or # for the Remote Access Code.
- The Remote Access Code must be different from the remote codes for the Fax features.

15. Click **Submit**.

Remote Retrieval Commands

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

Use the Remote Commands in this table to access fax commands and options when you are away from your machine. When you call the machine and enter your remote access code (three digits followed by *), the system will sound two short beeps and you must enter a Remote Command (column 1), followed by one of the options (column 2) for that command.

Remote Command	Option	Description
95	Change the Fax Forwarding, or Fax Storage settings	
	1 OFF	You can select <i>Off</i> after you retrieve or erase all your messages.
	2 Fax Forwarding	One long beep means the change is accepted. If you hear three short beeps, you cannot make a change because one of the settings may not be configured correctly (for example, a Fax Forwarding number has not been registered). You can register your Fax Forwarding number by entering 4. After you register the number, Fax Forwarding will work.
	4 Fax Forwarding number	
6 Fax Storage		
96	Retrieve a fax	
	2 Retrieve all faxes	Enter the fax number of a remote fax machine to receive stored fax messages.
	3 Erase faxes from memory	If you hear one long beep, fax messages have been erased from memory.
97	Check the receiving status	
	1 Fax	Check whether your machine has received any faxes. If yes, you will hear one long beep. If not, you will hear three short beeps.
98	Change the Receive Mode	
	1 External TAD	One long beep means the change has been accepted.
	2 Fax/Tel	
	3 Fax Only	
90	Exit	Press 9 0 to stop remote retrieval. Wait for the long beep, then hang up.

Rollover Telephone Lines

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

A rollover telephone system is a group of two or more separate telephone lines that pass incoming calls to each other if they are busy.

This feature is available only in the USA and Canada.

The calls are usually passed down or 'rolled over' to the next available telephone line in a preset order.

Your machine can work in a rollover system only if it is the last number in the sequence, so the call cannot roll away. Do not place the machine on any of the other numbers; when the other lines are busy and a second fax call is received, the fax call would be transferred to a line that does not have a fax machine. **Your machine will work best on a dedicated line.**

Two-Line Telephone System

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

A two-line telephone system uses two separate telephone numbers on the same wall outlet.

This feature is available only in the USA and Canada.

The two telephone numbers can be on separate jacks (RJ11) or combined into one jack (RJ14). Your machine must be plugged into an RJ11 jack. RJ11 and RJ14 jacks may be equal in size and appearance and both may contain four wires (black, red, green, yellow). To test the type of jack, plug in a two-line telephone and see if it can access both lines. If it can access both lines, you must separate the line for your machine.

Related Information

- [Special Line Considerations](#)

Convert Telephone Wall Outlets

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

This feature is available only in the USA and Canada.

There are three ways to convert to an RJ11 jack. The first two ways may require assistance from the telephone company. You can change the wall outlets from one RJ14 jack to two RJ11 jacks. Or, you can have an RJ11 wall outlet installed and slave or jump one of the telephone numbers to it.

The third way is the easiest: Buy a triplex adapter. You can plug a triplex adapter into an RJ14 outlet. It separates the wires into two separate RJ11 jacks (Line 1, Line 2) and a third RJ14 jack (Lines 1 and 2). If your machine is on Line 1, plug the machine into L1 of the triplex adapter. If your machine is on Line 2, plug it into L2 of the triplex adapter.

Triplex adapter

Install Your Machine, an External Two-Line TAD and Two-Line Telephone

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

When you are installing an external two-line telephone answering device (TAD) and a two-line telephone, your machine must be isolated on one line at both the wall jack and at the TAD.

- This feature is available only in the USA and Canada.
- The most common connection is to place the machine on Line 2, which is explained in the following steps. The back of the two-line TAD must have two telephone jacks: one labeled L1 or L1/L2, and the other labeled L2. You will need at least three telephone line cords, the one that came with your machine and two for your external two-line TAD. You will need a fourth line cord if you add a two-line telephone.

1. Place the two-line TAD and the two-line telephone next to your machine.
2. Plug one end of the telephone line cord for your machine into the L2 jack of the triplex adapter. Plug the other end into the LINE jack of the machine.
3. Plug one end of the first telephone line cord for your TAD into the L1 jack of the triplex adapter. Plug the other end into the L1 or L1/L2 jack of the two-line TAD.
4. Plug one end of the second telephone line cord for your TAD into the L2 jack of the two-line TAD. Plug the other end into the EXT. jack of the machine.

- a. Triplex Adapter
- b. Two Line Telephone
- c. External Two Line TAD
- d. Machine

You can keep two-line telephones on other wall outlets as always. There are ways to add a two-line telephone to the machine's wall outlet. You can plug the telephone line cord from the two-line telephone into the L1+L2 jack of the triplex adapter. Or, you can plug the two-line telephone into the TEL jack of the two-line TAD.

Create a broadcasting group if you want to send a single fax message to many fax numbers at the same time. You can store broadcasting groups in your machine's Address Book, Shortcut, or Speed Dial, depending on your model.

First, you must store each fax number in the Address Book. Then you can include them as numbers in the Group. Each Group uses up an Address Book (a Shortcut, or a Speed Dial in some models) number.

Applicable Models	Maximum number of groups	Maximum numbers in a group
MFC-L2760DW	20	209

Dial Access Codes and Credit Card Numbers

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

Sometimes you may want to choose from several long-distance carriers when you send a fax. Rates may vary depending on the time and destination. To take advantage of low rates, you can store the access codes of long-distance carriers and credit card numbers as Address Book numbers.

You can store these long dialing sequences by dividing them and setting them up as separate Address Book numbers in any combination. You can even include manual dialing using the dial pad.

For example: You might have stored '555' and '7000' in your machine as shown in the following table.

Applicable Models	'555' stored in	'7000' stored in
MFC-L2760DW	Quick Dial: 003	Quick Dial: 002
MFC-L2807DW/MFC-L2820DW/ MFC-L2820DWXL/MFC-L2900DW/ MFC-L2900DWXL/MFC-L2980DW	Address Book: Brother 1	Address Book: Brother 2

You can use them both to dial '555-7000' by using the following procedure.

>> [MFC-L2760DW](#)

>> [MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW](#)

MFC-L2760DW

1. Press  (Fax).
2. Press  twice, 003.
3. Press **OK**.
4. Press  twice, 002.
5. Press **OK**.
6. Press **Start**.

The machine will dial '555-7000'.

To temporarily change a number, you can substitute part of the number by pressing it using the dial pad. For example, to change the number to '555-7001', you could enter the number (555) using Speed Dial 003, and then press 7001 using the dial pad.

If you must wait for another dial tone or signal at any point in the dialing sequence, create a pause in the number by pressing **Redial/Pause**.

MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

1. Press  [(Fax)] > [Address Book].
2. Press **▲** or **▼** to display the number of Brother 1.
3. Press the number.
4. Press [Apply].
5. Press [Options].
6. Press **▲** or **▼** to display the [Address Book] option, and then press it.
7. Press [OK].

-
8. Press ▲ or ▼ to display the number of Brother 2.
 9. Press the number.
 10. Press [Apply].
 11. Press [Fax Start].

The machine will dial '555-7000'.

To temporarily change a number, you can substitute part of the number by pressing it using the LCD. For example, to change the number to '555-7001', you could enter the number (Brother 1: 555) using the Address Book, press [Apply], and then enter 7001 using the LCD.

If you must wait for another dial tone or signal at any point in the dialing sequence, create a pause in the number by pressing [Pause].

This feature is available only in the USA and Canada.

If you have Voice Mail on the same telephone line as your Brother machine, Voice Mail and the Brother machine will conflict with each other when receiving incoming calls.

For example, if your Voice Mail is set to answer after four rings and your Brother machine is set to answer after two rings, then your Brother machine will answer first. This will prevent callers from being able to leave a message in your Voice Mail.

Similarly, if your Brother machine is set to answer after four rings and your Voice Mail is set to answer after two rings, then your Voice Mail will answer first. This will prevent your Brother machine from being able to receive an incoming fax, since Voice Mail cannot transfer the incoming fax back to the Brother machine.

To avoid conflicts between your Brother machine and your Voice Mail service, do one of the following:

- Get the Distinctive Ring service from your telephone company. Distinctive Ring is a feature of your Brother machine that allows a person with one line to receive fax and voice calls through two different telephone numbers on that one line.

Brother uses the term 'Distinctive Ring,' but telephone companies market the service under a variety of names, such as Custom Ringing, Personalized Ring, Smart Ring, Ident-A-Ring, Ident-A-Call, Data Ident-A-Call, Teen Ring, and SimpleBiz Fax & Alternate Number Ringing. This service establishes a second telephone number on the same line as your existing telephone number, and each number has its own ring pattern. Typically, the original number rings with the standard ring pattern and is used for receiving voice calls, and the second number rings with a different ring pattern and is used for receiving faxes.

- Set your Brother machine's Receive Mode to "Manual". Manual Mode requires you answer every incoming call if you want to be able to receive a fax. If the incoming call is a telephone call, then complete the call as you normally would. If you hear fax sending tones you must transfer the call to the Brother machine.

Unanswered fax and voice calls will go to your Voice Mail.

Typically, the original number rings with the standard ring pattern and is used for receiving voice calls, and the second number rings with a different ring pattern and is used for receiving faxes.

- You must pay for your telephone company's Distinctive Ring service before you program the machine to work with it.
- Contact your telephone company for availability and rates.

What does your telephone company's 'Distinctive Ring' do?

Your telephone company's Distinctive Ring service allows you to have more than one number on the same telephone line. **If you need more than one telephone number, it is cheaper than paying for an extra line.** Each telephone number has its own distinctive ring pattern, so you will know which telephone number is ringing. This is one way to have a separate telephone number for your machine.

Contact your telephone company for availability and rates.

What does Brother's 'Distinctive Ring' do?

The Brother machine has a Distinctive Ring feature that allows you to use your machine to take full advantage of the telephone company's Distinctive Ring service. The new telephone number on your line can only receive faxes.

You must pay for your telephone company's Distinctive Ring service before you program the machine to work with it.

Do you have Voice Mail?

If you have Voice Mail on the telephone line where you will install your new machine, there is a strong possibility that Voice Mail and the machine will conflict with each other while receiving incoming calls. **However, the Distinctive Ring feature allows you to use more than one number on your line, so both Voice Mail and the machine can work together without any problems.** If each one has a separate telephone number, neither will interfere with the other's operations.

If you decide to get the Distinctive Ring service from the telephone company, you must register the new Distinctive Ring pattern they give you. This is so your machine can recognize its incoming calls.

You can change or cancel the Distinctive Ring pattern at any time. You can switch it off temporarily, and turn it back on later. When you get a new fax number, make sure you reset this feature.

Before you choose the ring pattern to register

You can register only one Distinctive Ring pattern with the machine. Some ring patterns cannot be registered. The ring patterns below are supported by your Brother machine. Register the one your telephone company gives you.

Ring Pattern	Rings	
1	short-short or long-long	
2	short-long-short	
3	short-short-long	
4	very long	

- Ring Pattern #1 is often called Short-Short and is the most commonly used.
- If the ring pattern you received is not on this chart, **contact your telephone company and ask for one that is shown.**

- The machine answers only calls to its registered number.
- The first two rings are silent on the machine. This is because the fax must <<listen>> to the ring pattern (to compare it to the pattern that was 'registered'). (Other telephones on the same line ring.)
- If you program the machine correctly, it recognizes the registered ring pattern of the 'fax number' within two ring patterns and then answer with a fax tone. When the 'voice number' is called, the machine does not answer.

MFC-L2900DWXL/MFC-L2980DW

The Caller ID feature lets you use the Caller ID subscriber service offered by many local telephone companies. This service displays the telephone number, or name if it is available, of your caller as the line rings.

- The [# Unavailable] message means the call originated outside your Caller ID service area.
- The [Private Call] message means the caller has intentionally blocked transmission of Caller ID information.

Call your telephone company for more information.

Once you answer a call, the Caller ID information disappears from the LCD and is stored in Caller ID memory.

View the list or select a number and add it to the Address Book (the Speed Dial or the Shortcut in some models), or delete it from the history.

You can print a list of the Caller ID information received by your machine.

- This feature is not available in some countries.
- This feature may not be available in certain areas of the USA and Canada.
- The Caller ID service varies with different carriers. Contact your local telephone company to learn about the service available in your area.

External TAD (Telephone Answering Device)

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

Connect an external Telephone Answering Device (TAD) to the same line as your machine. When the TAD answers a call, your machine will “listen” for the CNG (fax calling) tones sent by a sending fax machine. If it hears them it will take over the call and receive the fax. If it does not hear them, it will let your TAD take a voice message and the LCD will show [Telephone].

The external TAD must answer within four rings (we recommend setting it to two rings). This is because your machine cannot hear the CNG tones until the external TAD has picked up the call. The sending machine will send CNG tones for only eight to ten seconds longer. We do not recommend using the toll saver feature on your external TAD if it needs more than four rings to activate it.

Unless you are using Distinctive Ring, the TAD must be connected to the EXT. jack of the machine.

- **If you subscribe to your telephone company’s Distinctive Ring service:**

You may connect an external TAD to a separate wall jack only if you subscribe to your telephone company’s Distinctive Ring service, have registered the distinctive ring pattern on your machine, and use that number as a fax number. The recommended setting is at least four rings on the external TAD when you have the telephone company’s Distinctive Ring service. You cannot use the Toll Saver setting.

- **If You Do Not Subscribe to the Distinctive Ring Service:**

You must plug your TAD into the EXT. jack of your machine. If your TAD is plugged into a wall jack, both your machine and the TAD will try to control the telephone line. (See the illustration.)

IMPORTANT

DO NOT connect a TAD elsewhere on the same telephone line.

If you have problems receiving faxes, reduce the Ring Delay setting on your external TAD.

Related Information

Connect an External TAD

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

The external TAD must be plugged into the back of the machine, into the jack labeled EXT. Your machine cannot work correctly if you plug the TAD into a wall jack (unless you are using Distinctive Ring).

1. Plug the telephone line cord from the telephone wall jack into the back of the machine, in the jack labeled LINE.
2. Plug the telephone line cord from your external TAD into the back of the machine, in the jack labeled EXT. (Make sure this cord is connected to the TAD at the TAD's telephone line jack, and not its handset jack.)
3. Set your external TAD to the minimum number of rings allowed. For more information, contact your telephone provider. (The machine's Ring Delay setting does not apply.)
4. Record an outgoing message on your external TAD.
5. Set the TAD to answer calls.
6. Set the Receive Mode on your machine to [External TAD].

Record an Outgoing Message (OGM) on the External TAD

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

1. Record five seconds of silence at the beginning of your message. This allows your machine time to listen for fax tones.
2. Limit your speaking to 20 seconds.
3. End your 20-second message by giving your Fax Receive Code for people sending manual faxes. For example: "After the beep, leave a message or press *51 and Start to send a fax."

NOTE

We recommend beginning your OGM with an initial five second silence because the machine cannot hear fax tones over a loud voice. You may try leaving out this pause, but if your machine has trouble receiving faxes, then you should re-record the OGM to include it.

Operation from External and Extension Telephones

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

Use extension telephones

If you answer a fax call at an extension telephone, you can make your machine receive the fax by pressing the Fax Receive Code ***51**.

If the machine answers a voice call and pseudo/double-rings for you to take over, you can take the call at an extension telephone by pressing the Telephone Answer Code **#51**.

Use an external telephone (Connected to the EXT. jack of the machine)

If you answer a fax call at the external telephone connected to the EXT. jack of the machine, you can make the machine receive the fax by pressing [Fax Start] or **Start**, and selecting [Receive] or ▼.

If the machine answers a voice call and pseudo/double-rings for you to take over, you can take the call at the external telephone by pressing [Pickup] or **Hook**.

If you answer a call and no one is on the line:

You are receiving a manual fax.

Press ***51** and wait for the chirp or until the LCD displays [Receiving], and then hang up.

You can also use the Easy Receive feature to make your machine automatically take the call.

Related Information

Fax Receive Code

If you answer a fax call on an extension telephone, you can tell your machine to receive it by pressing the Fax Receive Code *51. Wait for the chirping sounds, and then replace the handset.

If you answer a fax call at the external telephone, you can make the machine receive it by pressing the buttons in the following table:

Applicable Models	To make the machine receive a fax
MFC-L2760DW	Start and then ▼
MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW	Fax Start > Receive

Telephone Answer Code

If you receive a voice call and the machine is in F/T mode, it will start to sound the F/T ring (pseudo/double-ring) after the initial ring delay. If you pick up the call on an extension telephone you can turn the F/T ring off by pressing #51 (make sure you press this between the rings).

If the machine answers a voice call and pseudo/double-rings for you to take over, you can take the call at the external telephone by pressing the button in the following table:

Applicable Models	To pick up a voice call
MFC-L2760DW	Hook
MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW	Pickup

Multi-line Connections (PBX)

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/
MFC-L2900DWXL/MFC-L2980DW

We suggest you ask the company that installed your PBX to connect your machine. If you have a multi-line system we suggest you ask the installer to connect the unit to the last line on the system. This prevents the machine from being activated each time the system receives telephone calls. If all incoming calls are answered by a switchboard operator, we recommend setting the Receive Mode to [Manual].

We cannot guarantee that your machine will operate correctly under all circumstances when connected to a PBX. Any difficulties with sending or receiving faxes should be reported first to the company that handles your PBX.

Use the Brother PC-FAX software to receive faxes on your computer, view them, and print only those faxes you want.

- [Receive Faxes Using PC-FAX Receive \(Windows\)](#)

Receive Faxes Using PC-FAX Receive (Windows)

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

The Brother PC-FAX Receive software lets you view and store faxes on your computer. It is automatically installed when you install your machine's software and drivers and works on locally or network-connected machines.

PC-FAX Receive supports only black and white faxes.

When you turn off your computer, your machine will continue to receive and store faxes in your machine's memory. The machine's LCD will display the number of stored faxes received. When you start this application, the software will transfer all received faxes to your computer at once. You can enable the Backup Print option if you want the machine to print a copy of the fax before the fax is sent to your computer, or before the computer is switched off. You can configure the Backup Print settings from your machine.

Related Information

If the PC-FAX receiving is disabled on your machine, enable the setting before trying to run the PC-FAX receiving.

For information on how to enable this function, see *Related Information: Configure PC-FAX Receiving Using Web Based Management*.

We recommend selecting the **Start PC-FAX Receive on computer startup** checkbox so that the software runs automatically and transfers any faxes when you turn on your computer.

1. Launch  (**Brother Utilities**), and then click the drop-down list and select your model name (if not already selected).
2. Click **PC-FAX** in the left navigation bar, and then click **Receive**.
3. Confirm the message and click **Yes**.

The **PC-FAX Receive** window appears. The  (**PC-Fax Receive (Ready)**) icon also appears in your computer task tray.

Supported Basic Network Features

The machine supports various features depending on the operating system. Use this table to see which network features and connections are supported by each operating system.

Operating Systems	Windows	Windows Server	macOS
Printing	Yes	Yes	Yes
Scanning	Yes		Yes
PC Fax Send (available for certain models)	Yes		Yes
PC Fax Receive (available for certain models)	Yes		
Web Based Management ¹	Yes	Yes	Yes
Status Monitor	Yes		
Driver Deployment Wizard	Yes	Yes	

¹ The default password to manage your machine's settings is located on the back of the machine and marked "Pwd". We recommend immediately changing the default password to protect your machine from unauthorized access.

- When connecting your machine to an outside network such as the Internet, make sure your network environment is protected by a separate firewall or other means in order to prevent information leaks due to inadequate settings or unauthorized access by malicious third parties.
- When your machine is connected to the global network, a warning appears. When you see this warning, we strongly recommend confirming your network settings, and then re-connecting to a secure network.
- Enabling your machine's global network communication filtering feature blocks access from the global network. The global network communication filtering feature may prevent the machine from receiving certain print or scan jobs from a computer or mobile device that uses a global IP address.

Before Configuring Your Machine for a Wireless Network

Before attempting to configure a wireless network, confirm the following:

- If you are using an enterprise wireless network, you must know the User ID and Password.
- To achieve optimum results with normal everyday document printing, place your machine as close to the wireless LAN access point/router as possible with minimal obstructions. Large objects and walls between the two devices and interference from other electronic devices can affect the data transfer speed of your documents.

Due to these factors, wireless may not be the best method of connection for all types of documents and applications. If you are printing large files, such as multi-page documents with mixed text and large graphics, you may want to consider selecting wired Ethernet for faster data transfer (supported models only), or USB for the fastest throughput speed.

- Although your machine can be used in a wired and wireless network (supported models only), only one connection method can be used at a time. However, a wireless network connection and Wi-Fi Direct connection, or a wired network connection (supported models only) and Wi-Fi Direct connection can be used at the same time.
- If there is a signal in the vicinity, wireless LAN allows you to freely make a LAN connection. However, if security settings are not correctly configured, the signal may be intercepted by malicious third-parties, possibly resulting in:
 - Theft of personal or confidential information
 - Improper transmission of information to parties impersonating the specified individuals
 - Dissemination of transcribed communication contents that were intercepted

Make sure you know your wireless router/access point's Network Name (SSID) and Network Key (Password). If you cannot find this information, consult the manufacturer of your wireless router/access point, your system administrator, or Internet provider. Brother cannot provide this information.

HL-L2465DW/DCP-L2640DW/MFC-L2760DW

Before configuring your machine, we recommend writing down your wireless network settings. You will need this information before you continue with the configuration.

1. Check and record the current wireless network settings of the computer to which you are connecting.

Network Name (SSID)

Network Key

For example:

Network Name (SSID)
HELLO

Network Key
12345

- Your access point/router may support the use of multiple WEP keys, but your Brother machine supports the use of only the first WEP key.
- If you need assistance during setup and want to contact Brother Customer Service, make sure you have your SSID (Network Name) and Network Key (Password) ready. We cannot assist you in locating this information.
- If you do not know this information (SSID and Network Key), you cannot continue the wireless setup.

How can I find this information?

- Check the documentation provided with your wireless access point/router.
- The initial SSID could be the manufacturer's name or the model name.
- If you do not know the security information, consult the router manufacturer, your system administrator, or your Internet provider.

2. Press **Menu**.
3. Press **▲** or **▼** to select the [Network] option, and then press **OK**.
4. Press **▲** or **▼** to select the [WLAN (Wi-Fi)] option, and then press **OK**.
5. Press **▲** or **▼** to select the [Find Network] option, and then press **OK**.
6. When [WLAN Enable?] appears, select **On**.
This will start the wireless setup wizard.
7. The machine will search for your network and display a list of available SSIDs. When a list of SSIDs appears, press **▲** or **▼** to select the SSID you want.
8. Press **OK**.
9. Do one of the following:

- If you are using an authentication and encryption method that requires a Network Key, enter the Network Key you wrote down in the first step.

When you have entered all the characters, press **OK**.

To apply the settings, select [Yes].

- If your authentication method is Open System and your encryption mode is None, go to the next step.

10. The machine attempts to connect to the wireless device you have selected.

If your wireless device is connected successfully, the machine's LCD displays [Connected].

You have completed the wireless network setup. To install the drivers and software necessary to use your machine, go to your model's **Downloads** page at support.brother.com/downloads.

Configure Your Machine for a Wireless Network Using the PIN Method of Wi-Fi Protected Setup™ (WPS)

If your wireless LAN access point/router supports WPS, you can use the Personal Identification Number (PIN) Method to configure your wireless network settings.

The PIN Method is one of the connection methods developed by the Wi-Fi Alliance®. By submitting a PIN created by an Enrollee (your machine) to the Registrar (a device that manages the wireless LAN), you can set up the wireless network and security settings. For more information on how to access WPS mode, see the instructions provided with your wireless access point/router.

Type A

Connection when the wireless LAN access point/router (1) doubles as the Registrar:

Type B

Connection when another device (2), such as a computer, is used as the Registrar:

>> HL-L2465DW/DCP-L2640DW/MFC-L2760DW

HL-L2465DW/DCP-L2640DW/MFC-L2760DW

1. Press **Menu**.
2. Press **▲** or **▼** to select the [Network] option, and then press **OK**.
3. Press **▲** or **▼** to select the [WLAN (Wi-Fi)] option, and then press **OK**.
4. Press **▲** or **▼** to select the [WPS/PIN Code] option, and then press **OK**.
5. When [WLAN Enable?] appears, select **On**.
This will start the wireless setup wizard.
6. The LCD displays an eight-digit PIN and the machine starts searching for a wireless LAN access point/router.
7. Using a computer connected to the network, in your browser's address bar, type the IP address of the device you are using as the Registrar (for example: http://192.168.1.2).
8. Go to the WPS settings page and type the PIN, and then follow the on-screen instructions.

- The Registrar is usually the wireless LAN access point/router.
- The settings page may differ depending on the brand of wireless LAN access point/router. For more information, see the instructions supplied with your wireless LAN access point/router.

If you are using a Windows 10 or Windows 11 computer as a Registrar, complete the following steps:

9. Hold down the  key and press the  key on the computer's keyboard to launch **Run**.
10. Type "**control printers**" in the **Open:** field and click **OK**.

11. Click **Add a device**.

- To use a Windows 10 or Windows 11 computer as a Registrar, you must register it to your network in advance. For more information, see the instructions supplied with your wireless LAN access point/router.
- If you use Windows 10 or Windows 11 as a Registrar, you can install the printer driver after the wireless configuration by following the on-screen instructions. To install the driver and software necessary to use your machine, go to your model's **Downloads** page at support.brother.com/downloads.

12. Select your machine and click **Next**.
13. Type the PIN displayed on the machine's LCD, and then click **Next**.

Configure Your Machine for a Wireless Network When the SSID Is Not Broadcast

>> HL-L2465DW/DCP-L2640DW/MFC-L2760DW

>> HL-L2480DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

HL-L2465DW/DCP-L2640DW/MFC-L2760DW

Before configuring your machine, we recommend writing down your wireless network settings. You will need this information before you continue with the configuration.

1. Check and write down the current wireless network settings.

Network Name (SSID)		

Authentication Method	Encryption Mode	Network Key
Open System	NONE	-
	WEP	
Shared Key	WEP	
WPA/WPA2-PSK	AES	
	TKIP	
WPA3-SAE	AES	

For example:

Network Name (SSID)		
HELLO		

Authentication Method	Encryption Mode	Network Key
WPA2-PSK	AES	12345678

If your router uses WEP encryption, enter the key used as the first WEP key. Your Brother machine supports the use of the first WEP key only.

2. Press **Menu**.
3. Press **▲** or **▼** to select the [Network] option, and then press **OK**.
4. Press **▲** or **▼** to select the [WLAN (Wi-Fi)] option, and then press **OK**.
5. Press **▲** or **▼** to select the [Find Network] option, and then press **OK**.
6. When [WLAN Enable?] appears, select On.
This will start the wireless setup wizard.
7. The machine will search for your network and display a list of available SSIDs. Press **▲** or **▼** to select the [<New SSID>] option, and then press **OK**.
8. Enter the SSID name, and then press **OK**.
9. Press **▲** or **▼** to select the Authentication Method you want, and then press **OK**.
10. Do one of the following:
 - If you selected the [Open System] option, press **▲** or **▼** to select the Encryption Type [None] or [WEP], and then press **OK**.

If you selected the [WEP] option for Encryption Type, enter the WEP key, and then press **OK**.

- If you selected the [Shared Key] option, enter the WEP key, and then press **OK**.
- If you selected the [WPA-Personal] option, press ▲ or ▼ to select the Encryption Type [TKIP+AES] or [AES], and then press **OK**.

Enter the WPA™ key, and then press **OK**.

- If you selected the [WPA3-SAE] option, select the Encryption Type [AES], and then press **OK**.
Enter the WPA™ key, and then press **OK**.

Your Brother machine supports the use of the first WEP key only.

11. To apply the settings, select [Yes]. To cancel, select [No].
12. The machine attempts to connect to the wireless device you have selected.

If your wireless device is connected successfully, the machine's LCD displays [Connected].

You have completed the wireless network setup. To install the drivers and software necessary to use your machine, go to your model's **Downloads** page at support.brother.com/downloads.

If your router uses WEP encryption, enter the key used as the first WEP key. Your Brother machine supports the use of the first WEP key only.

2. Press  [Settings] > [All Settings] > [Network] > [WLAN (Wi-Fi)] > [Find Wi-Fi Network].
3. When [Switch Network interface to wireless?] appears, press [Yes].
This will start the wireless setup wizard. To cancel, press [No].

4. The machine will search for your network and display a list of available SSIDs. Press ▲ or ▼ to display [<New SSID>]. Press [<New SSID>], and then press [OK].
5. Enter the SSID name, and then press [OK].
6. Select the Authentication Method.
7. Do one of the following:
 - If you selected the [Open System] option, press [None] or [WEP].
If you selected the [WEP] option for Encryption type, enter the WEP key, and then press [OK].
 - If you selected the [Shared Key] option, enter the WEP key, and then press [OK].
 - If you selected the [WPA/WPA2-PSK/WPA3-SAE] option, press [TKIP+AES] or [AES].
Enter the WPA™ key, and then press [OK].
 - If you selected the [WPA3-SAE] option, press [AES].
Enter the WPA™ key, and then press [OK].

Your Brother machine supports the use of the first WEP key only.

8. The machine attempts to connect to the wireless device you have selected.

If your wireless device is connected successfully, the machine's LCD displays [Connected].

You have completed the wireless network setup. To install the drivers and software necessary to use your machine, go to your model's **Downloads** page at support.brother.com/downloads.

Configure Your Machine for an Enterprise Wireless Network

>> [HL-L2465DW/DCP-L2640DW/MFC-L2760DW](#)

>> [HL-L2480DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW](#)

HL-L2465DW/DCP-L2640DW/MFC-L2760DW

Before configuring your machine, we recommend writing down your wireless network settings. You will need this information before you continue with the configuration.

1. Check and record the current wireless network settings.

Network Name (SSID)

Authentication Method	Encryption Mode	User ID	Password
EAP-FAST/NONE	AES		
	TKIP		
EAP-FAST/MS-CHAPv2	AES		
	TKIP		
EAP-FAST/GTC	AES		
	TKIP		
PEAP/MS-CHAPv2	AES		
	TKIP		
PEAP/GTC	AES		
	TKIP		
EAP-TTLS/CHAP	AES		
	TKIP		
EAP-TTLS/MS-CHAP	AES		
	TKIP		
EAP-TTLS/MS-CHAPv2	AES		
	TKIP		
EAP-TTLS/PAP	AES		
	TKIP		
EAP-TLS	AES		-
	TKIP		-

For example:

Network Name (SSID)
HELLO

Authentication Method	Encryption Mode	User ID	Password
EAP-FAST/MS-CHAPv2	AES	Brother	12345678

- If you configure your machine using EAP-TLS authentication, you must install the client certificate issued by a CA before you start configuration. Contact your network administrator about the client certificate. If you have installed more than one certificate, we recommend writing down the certificate name you want to use.
- If you verify your machine using the common name of the server certificate, we recommend writing down the common name before you start configuration. Contact your network administrator about the common name of the server certificate.

2. Press **Menu**.
3. Press **▲** or **▼** to select the following:
 - a. Select [Network]. Press **OK**.
 - b. Select [WLAN (Wi-Fi)]. Press **OK**.
 - c. Select [Find Network]. Press **OK**.
4. When [WLAN Enable?] appears, select On.
This will start the wireless setup wizard.
5. The machine will search for your network and display a list of available SSIDs. Press **▲** or **▼** to select the [<New SSID>] option, and then press **OK**.
6. Enter the SSID name, and then press **OK**.
7. Press **▲** or **▼** to select the Authentication Method you want, and then press **OK**.
8. Do one of the following:
 - If you selected the [EAP-FAST], [PEAP] or [EAP-TTLS] option, press **▲** or **▼** to select the Inner Authentication Method [NONE], [CHAP], [MS-CHAP], [MS-CHAPv2], [GTC] or [PAP], and then press **OK**.

Depending on your Authentication Method, the Inner Authentication Method selections differ.

Press **▲** or **▼** to select the Encryption Type [TKIP+AES] or [AES], and then press **OK**.

Press **▲** or **▼** to select the Verification Method [No Verification], [CA] or [CA+Server ID], and then press **OK**.

- If you selected the [CA+Server ID] option, enter the server ID, user ID and password (if required), and then press **OK** for each option.
- For other selections, enter the user ID and the Password (if required), and then press **OK** for each option.

If you have not imported a CA certificate into your machine, the machine will display the message [No Verification].

- If you selected the [EAP-TLS] option, press **▲** or **▼** to select the Encryption Type [TKIP+AES] or [AES], and then press **OK**.
When the machine displays a list of available Client Certificates, select the certificate you want, and then press **OK**.
Press **▲** or **▼** to select the Verification Method [No Verification], [CA] or [CA+Server ID], and then press **OK**.
 - If you selected the [CA+Server ID] option, enter the server ID and user ID, and then press **OK** for each option.
 - For other selections, enter the user ID, and then press **OK**.
9. To apply the settings, select [Yes]. To cancel, select [No].
 10. The machine will attempt to connect to the wireless device you have selected.

If your wireless device is connected successfully, the machine's LCD displays [Connected].

You have completed the wireless network setup. To install the drivers or the application necessary for operating your machine, go to your model's **Downloads** page at support.brother.com/downloads.

Wi-Fi Direct Overview

Wi-Fi Direct is one of the wireless configuration methods developed by the Wi-Fi Alliance®. It allows you to securely connect your mobile device to your machine without using a wireless router/access point.

1. Mobile device
2. Your machine

- You can use Wi-Fi Direct with the wired or wireless network connection at the same time.
- The Wi-Fi Direct-supported device can become a Group Owner. When configuring the Wi-Fi Direct network, the Group Owner serves as an access point.

Related Information

>> HL-L2480DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

HL-L2465DW/DCP-L2640DW/MFC-L2760DW

If your mobile device does not support Wi-Fi Direct or WPS, you must configure a Wi-Fi Direct network manually.

When the machine receives a Wi-Fi Direct request from your mobile device, the message [Connect?] appears on the LCD. Select OK to connect.

1. Press **Menu**.
2. Press **▲** or **▼** to select the [Network] option, and then press **OK**.
3. Press **▲** or **▼** to select the [Wi-Fi Direct] option, and then press **OK**.
4. Press **▲** or **▼** to select the [Manual] option, and then press **OK**.
5. When [Wi-Fi Direct On?] appears, select On.
6. The machine will display the SSID name and Password. Go to your mobile device's wireless network settings screen, select the SSID name, and then enter the password.
7. If your mobile device connects successfully, the machine's LCD displays [Connected]. You have completed the Wi-Fi Direct network setup.

HL-L2480DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

If your mobile device does not support Wi-Fi Direct or WPS, you must configure a Wi-Fi Direct network manually.

When the machine receives the Wi-Fi Direct request from your mobile device, the message [Wi-Fi Direct connection request received.Press [OK] to connect.] will appear on the LCD. Press [OK] to connect.

1. Press  [Settings] > [All Settings] > [Network] > [Wi-Fi Direct] > [Manual].
2. The machine will display the SSID name and Password for two minutes. Go to your mobile device's wireless network settings screen, select the SSID name, and then enter the password.
3. If your mobile device connects successfully, the machine's LCD displays [Connected]. You have completed the Wi-Fi Direct network setup.

Wireless LAN Report Error Codes

If the Wireless LAN Report shows that the connection failed, check the error code on the printed report and see the corresponding instructions in the table:

Error Code	Problem and Recommended Solutions
TS-01	<p>The WLAN (Wi-Fi) is not enabled.</p> <p>Check the following points and try to set up your wireless connection again:</p> <ul style="list-style-type: none">• Enable the WLAN setting on your machine.• If a network cable is connected to your machine, disconnect it.
TS-02	<p>The wireless router/access point cannot be detected.</p> <p>Check the following points and try to set up your wireless connection again:</p> <ul style="list-style-type: none">• Make sure the wireless router/access point is on.• Temporarily place your machine closer to the wireless router/access point when you are configuring the wireless settings.• If your wireless router/access point is using MAC address filtering, confirm that the MAC address of the machine is allowed in the filter. You can find the MAC address by printing the Network Configuration Report.• If you manually entered the Network Name (SSID) and security information (authentication method/encryption method), the information may be incorrect. Check the Network Name and security information again and re-enter the correct information.• Restart your wireless router/access point. If you cannot find the Network Name (SSID) and security information, see the documentation provided with your wireless router/access point, or contact the router manufacturer, your system administrator, or Internet service provider.
TS-03	<p>The wireless enterprise network and security settings you entered may be incorrect.</p> <p>Check the following points and try to set up your wireless connection again:</p> <p>Verify the following information:</p> <ul style="list-style-type: none">- Network Name (SSID) you selected to configure your machine.- Security information you selected to configure your machine (such as the authentication method, encryption method, or User ID). <p>If you still cannot find the Network Name (SSID) and security information, see the documentation provided with your wireless router/access point, or contact the router manufacturer, your system administrator, or Internet service provider.</p>
TS-04	<p>Your machine does not support the authentication and encryption methods used by the selected wireless router/access point.</p> <p>For infrastructure mode (Most common)</p> <p>Change the authentication and encryption methods of the wireless router/access point. Your machine supports the following authentication and encryption methods:</p> <ul style="list-style-type: none">• WPA-Personal: TKIP / AES• WPA2-Personal: TKIP / AES• WPA3-Personal: AES• OPEN: WEP / NONE (without encryption)• Shared key: WEP <p>If your issue is not solved, the Network Name (SSID) or security settings you entered may be incorrect. Check that all wireless network settings are correct for your network.</p>

Error Code	Problem and Recommended Solutions
TS-05	<p>The Network Name (SSID) and Network Key (Password) are incorrect.</p> <p>Check the following points and try to set up your wireless connection again:</p> <ul style="list-style-type: none"> • Confirm the Network Name (SSID) and Network Key (Password). • If your Network Key contains upper-case and lower-case letters, make sure you type them correctly. • If you cannot find the Network Name (SSID) and security information, see the documentation provided with your wireless router/access point, or contact the router manufacturer, your system administrator, or Internet service provider. • If your wireless router/access point uses WEP encryption with multiple WEP keys, write down and use only the first WEP key.
TS-06	<p>The wireless security information (authentication method/encryption method/Network Key (Password)) is incorrect.</p> <p>Check the following points and try to set up your wireless connection again:</p> <ul style="list-style-type: none"> • Confirm the Network Key. If your Network Key contains upper-case and lower-case letters, make sure you type them correctly. • Confirm whether the authentication method entered and the authentication method or encryption method supported by the wireless router/access point are the same. • If the network key, authentication method, and encryption method have been confirmed, restart your wireless router/access point and the machine. • If your wireless router/access point's Stealth Mode is on, you may need to disable it to connect to the wireless network. <p>If you cannot find the Network Name (SSID) and security information, see the documentation provided with your wireless router/access point, or contact the router manufacturer, your system administrator, or Internet service provider.</p>
TS-07	<p>The machine cannot detect a wireless router/access point that has WPS (Wi-Fi Protected Setup) enabled.</p> <p>Check the following points and try again:</p> <ul style="list-style-type: none"> • To check if your wireless router/access point supports WPS, look for the WPS symbol displayed on the router/access point. For more information, see the documentation provided with your wireless router/access point. • To set up your wireless connection using WPS, you must configure both your machine and the wireless router/access point. For more information, see the user's guide. • If you do not know how to set up your wireless router/access point using WPS, see the documentation provided with your wireless router/access point, or contact the router manufacturer, your system administrator, or Internet service provider.
TS-08	<p>Two or more wireless routers or access points that have WPS enabled are detected.</p> <p>Check the following points and try again:</p> <ul style="list-style-type: none"> • Make sure that only one wireless router/access point within range has WPS enabled, and then try to connect again. • Try to connect again after a few minutes to avoid interference from other access points/routers.

How to confirm wireless security information (SSID/authentication method/encryption method/Network Key) of your WLAN access point/router:

1. The default security settings may be provided on a label attached to the WLAN access point/router. Or the manufacturer's name or model number of the WLAN access point/router may be used as the default security settings.
2. See the documentation provided with your WLAN access point/router for information on how to find the security settings.
 - If the WLAN access point/router is set to not broadcast the SSID, the SSID will not automatically be detected. You will have to manually enter the SSID name.
 - The Network Key may also be described as the Password, Security Key, or Encryption Key.

If you do not know the SSID and wireless security settings of your WLAN access point/router or how to change the configuration, see the documentation provided with your WLAN access point/router, ask the manufacturer of your access point/router or ask your Internet provider or network administrator.

Configure the Proxy Server Settings Using Web Based Management

Related Models: HL-L2480DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

If your network uses a proxy server, the following proxy server information must be configured using Web Based Management:

- Proxy server address
- Port number
- User Name
- Password

- We recommend using the latest version of the following web browsers:
 - Microsoft Edge, Firefox, and Google Chrome™ for Windows
 - Safari, Firefox, and Google Chrome™ for Mac
 - Google Chrome™ for Android™
 - Safari and Google Chrome™ for iOS
- Ensure that JavaScript and Cookies are always enabled, regardless of which browser you use.

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).
For example:
https://192.168.1.2
3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Network > Network > Protocol**.

If the left navigation bar is not visible, start navigating from ☰.

5. Make sure the **Proxy** checkbox is selected, and then click **Submit**.
6. In the **Proxy** field, click **Advanced Settings**.
7. Enter the proxy server information.
8. Click **Submit**.

Print the Network Configuration Report

The Network Configuration Report lists the network configuration, including the network print server settings.

- The Node Name appears on the Network Configuration Report. The default Node Name is "BRN123456abcdef" for a wired network or "BRW123456abcdef" for a wireless network (where "123456abcdef" is your machine's MAC Address / Ethernet Address.)
- If the IP Address on the Network Configuration Report shows 0.0.0.0, wait for one minute and try printing it again.
- You can find your machine's settings, such as the IP address, subnet mask, node name, and MAC Address on the report, for example:
 - IP address: 192.168.0.5
 - Subnet mask: 255.255.255.0
 - Node name: BRN000ca0000499
 - MAC Address: 00-0c-a0-00-04-99

Configure PC-FAX Receiving Using Web Based Management

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

Use Web Based Management to configure your PC Fax Receiving in a web browser.

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "**Pwd**". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Network > Network > Protocol**.

If the left navigation bar is not visible, start navigating from ☰.

5. Select the **PC Fax Receive** checkbox, and then click **Submit**.
6. Restart your Brother machine to activate the configuration.

Fax Using the Internet (I-Fax)

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

With Internet Fax (I-Fax), you can send and receive fax documents using the Internet. Documents are transmitted in email messages as attached TIFF-F files. Your computer can send and receive documents as long as it has an application that can create and view TIFF-F files. You can use any TIFF-F viewer application. Documents sent via the machine will be converted into a TIFF-F format automatically. To send and receive messages to and from your machine, your computer's email application must support Multipurpose Internet Mail Extensions (MIME).

1. Sender
2. Internet
3. Receiver
4. Email server

- I-Fax supports sending and receiving documents in Letter or A4 format and in black and white only.
- (MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL)

To use this function, go to your model's **Downloads** page at support.brother.com/downloads to download the Internet FAX Install Tool. The installation instructions are available on the **Downloads** page. If the Internet Fax Install Tool is not available for your model, contact Brother Customer Service.

Important Information about Internet Fax (I-Fax)

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

I-Fax communication on a LAN is very similar to communication via email; however, it is different from fax communication using standard phone lines. Make sure you read the following information about using I-Fax:

- Factors such as the receiver's location, structure of the LAN and how busy the circuit (such as the Internet) is may cause the system to take longer than usual to send an error mail.
- When sending confidential documents, we recommend using standard phone lines instead of the Internet (due to its low level of security).
- If the receiver's mail system is not MIME-compatible, you cannot use I-Fax to send documents. If possible, check this in advance, and note that some servers will not send an error reply.
- If a document is too large to send via I-Fax, it may not reach the receiver.
- You cannot change the font or size of the text in any Internet mail you receive.

Before using I-Fax, configure your Brother machine to communicate with your network and mail server. You can configure these items using the machine's control panel or Web Based Management. Make sure the following items are configured on your machine:

- IP address (If you are already using your machine on your network, the machine's IP address has been configured correctly.)
- Email address
- SMTP, POP3, IMAP4 server address/port/Authentication method/Encryption method/Server Certificate Verification
- Mailbox name and password

If you are unsure of any of these items, contact your system administrator.

[POP3/IMAP4/SMTP Client>>](#)

There are two ways you can receive email messages:

- POP3/IMAP4 receiving at regular intervals

-
- POP3/IMAP4 receiving, manually initiated

When using POP3/IMAP4 receiving, the machine polls your email server to receive data. Polling can occur at set intervals (for example, you can configure the machine to poll the email server every ten minutes) or you can manually poll the server.

- If your machine starts to receive email data, the LCD displays [Receiving]. The email will be printed automatically.
 - If your machine is out of paper when receiving data, the received data will be held in the machine's memory. This data will be printed automatically after paper is reloaded in the paper tray.
 - When the machine's Temporary Fax Backup Function is turned on, received data will be stored for a certain period of time.
 - If the received mail is not in a plain text format, or an attached file is not in the TIFF-F format, the error message "**ATTACHED FILE FORMAT NOT SUPPORTED.**" will be printed.
 - If the received mail is too large, the error message "**E-MAIL FILE TOO LARGE.**" will be printed.
 - If **Delete/Read Receive Error Mail** is **On** (default), then the error mail will be deleted from the email server automatically.
-

Relay Broadcast

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/
MFC-L2900DWXL/MFC-L2980DW

A Relay Broadcast is when your Brother machine receives a message over the Internet and then relays it to another fax machine using conventional telephone lines. If you must fax a document over a long distance or abroad, use the Relay Broadcast Function to save the communication fee.

1. The Internet
2. Telephone line
3. Email server

Use the Brother machine's control panel or Web Based Management to configure the following items:

- **Relay Broadcast Function**

Set the **Relay Broadcast Function** to **On**.

- **Relay Domain**

Configure your machine's domain name on the machine that will broadcast the document to the conventional fax machine. If you wish to use your machine as a relay broadcast device, you must specify the trusted domain name (the portion of the name after the "@" sign) at the machine. Use care in selecting a trusted domain: any user on a trusted domain will be able to send a relay broadcast. You can register up to ten domain names.

- **Relay Broadcast Report**

Specify whether or not you want a report to print after the machine completes the relay broadcast.

Relay Function

MFC-L2760DW

To use this feature, you must register the email addresses as the Shortcut numbers or Speed Dial numbers.

1. Press  (**Fax**).
2. [Load your document](#).
3. Do one of the following:
 - Hold down the **Shortcut** button, and then enter the one-digit Shortcut number.
 - Press  (Address Book), and then enter the three-digit Speed Dial number you have registered.
Press **OK**.
4. Press **Start**.

MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/ MFC-L2980DW

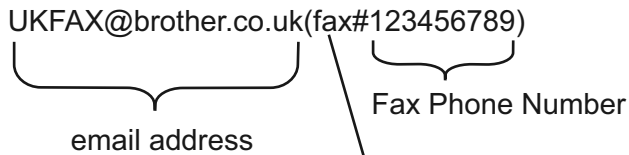

1. [Load your document](#).
2. Do one of the following:
 - If Fax Preview is set to [Off], press [Fax].
 - If Fax Preview is set to [On], press [Fax], and then press [Send a fax].
3. Press [Options].
4. Press ▲ or ▼ to display the [Broadcasting] option.
5. Press [Broadcasting].
6. Press [Add Number].

7. You can add email addresses to the broadcast in the following ways:

- Press [Add Number]. Press , enter the email address and press [OK].
- Press [Add from Address book]. Press the checkbox of the email address you want to add to the broadcast. After you have checked all the email addresses you want, press [OK].
- Press [Search in Address book]. Enter the name and press [OK]. The search results will be displayed. Press the name and then press the email address you want to add to the broadcast.

The following is an example of how to enter the email address and phone number:

UKFAX@brother.co.uk(fax#123456789)

The word "fax#" must be included with the phone number inside the parenthesis.

After you have entered all of the fax numbers, press [OK].

8. Press [Fax Start].

Relay Broadcast from Your Computer

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

Use the Relay Broadcast Function to send an email from your computer to a conventional fax machine.

- Some email applications do not support sending an email to multiple fax numbers. If your email application cannot support multiple fax numbers, you can relay to only one fax machine at a time.

1. The Internet

- Confirm the **POP3/IMAP4/SMTP Client** and **SMTP Server** checkboxes are selected in Web Based Management. If the **POP3/IMAP4/SMTP Client** and **SMTP Server** checkboxes are not selected, select the **POP3/IMAP4/SMTP Client** and **SMTP Server** checkboxes. Click **Submit**, and then restart your machine.

If you are sending an email to a conventional fax machine, the method of entering the fax machine's fax number will vary, depending on the mail application you are using.

- In your email application, create a new email message and type the email address of the relay machine and fax number of the first fax machine in the "TO" box.

The following is an example of how to enter the email address and fax number:

UKFAX@brother.co.uk(fax#123456789)

email address Fax Phone Number

The word "fax#" must be included with the phone number inside the parenthesis.

For Microsoft Outlook, the address information must be entered into the address book as follows:

Name: fax#123456789

Email address: UKFAX@brother.co.uk

- Type the email address of the relay machine and fax number of the second fax machine in the "TO" box.
- Send the email.

Option	Description
Receive Notification On	When Receive Notification is On, a template is sent back to the sender to indicate successful reception and processing of the message. These templates depend on the operation requested by the sender. Example: SUCCESS : Received From <Mail Address>
Receive Notification MDN	When Receive Notification is MDN, a report to indicate successful reception and processing is sent back to the sender if the originating station sent a request confirmation to the MDN (Message Disposition Notification) field.
Receive Notification Off	When Receive Notification is Off, all forms of receive notification are disabled and no message is sent back to the sender regardless of the request.

- To send TX verification mail, the Sender must configure these settings:
 - Switch [Notification] in [Setup Mail TX] to [On].
 - Switch [Header] in [Setup Mail RX] to [All] or [Subject+From+To].
- To receive TX verification mail, the Receiver must configure these settings:
 - Switch [Notification] in [Setup Mail RX] to [On].

7. Press **Stop/Exit**.

MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

1. Press  [Settings] > [All Settings] > [Network] > [E-mail/IFAX] > [Setup Mail RX] > [Notification].
2. Press one of the three possible settings:

Option	Description
Receive Notification On	When Receive Notification is On, a template is sent back to the sender to indicate successful reception and processing of the message.

Option	Description
	<p>These templates depend on the operation requested by the sender.</p> <p>Example:</p> <p>SUCCESS : Received From <Mail Address></p>
Receive Notification MDN	When Receive Notification is MDN, a report to indicate successful reception and processing is sent back to the sender if the originating station sent a request confirmation to the MDN (Message Disposition Notification) field.
Receive Notification Off	When Receive Notification is Off, all forms of receive notification are disabled and no message is sent back to the sender regardless of the request.

- To send TX verification mail, the Sender must configure these settings:
 - Switch [Notification] in [Setup Mail TX] to [On].
 - Switch [Header] in [Setup Mail RX] to [All] or [Subject+From+To].
- To receive TX verification mail, the Receiver must configure these settings:
 - Switch [Notification] in [Setup Mail RX] to [On].

3. Press .

MFC-L2900DWXL/MFC-L2980DW

The Fax to Server feature allows the machine to scan a document and send it over the network to a separate fax server. The document will then be sent from the server as fax data to the destination fax number over standard phone lines. When the Fax to Server feature is set to On, all automatic fax transmissions from the machine will be sent to the fax server for fax transmission.

You can send a fax directly from the machine using the manual fax feature when the Send to Server feature is on.

(MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL)

To use this function, go to your model's **Downloads** page at support.brother.com/downloads to download the Internet FAX Install Tool. The installation instructions are available on the **Downloads** page. If the Internet Fax Install Tool is not available for your model, contact Brother Customer Service.

Synchronize Time with the SNTP Server Using Web Based Management

The Simple Network Time Protocol (SNTP) is used to synchronize the time used by the machine for authentication with the SNTP time server. (This is not the time displayed on the machine's LCD.) You can automatically or manually synchronize the machine's time with the Coordinated Universal Time (UTC) provided by the SNTP time server.

- [Configure Date and Time Using Web Based Management](#)
- [Configure the SNTP Protocol Using Web Based Management](#)

Configure Date and Time Using Web Based Management

Configure date and time to synchronize the time used by the machine with the SNTP time server.

This feature is not available in some countries.

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Administrator > Date&Time**.

If the left navigation bar is not visible, start navigating from ☰.

5. Verify the **Time Zone** settings.

Select the time difference between your location and UTC from the **Time Zone** drop-down list. For example, the time zone for Eastern Time in the USA and Canada is UTC-05:00.

6. Select the **Synchronize with SNTP server** checkbox.
7. Click **Submit**.

You can also configure date and time manually.

Configure the SNTP Protocol Using Web Based Management

Configure the SNTP protocol to synchronize the time the machine uses for authentication with the time kept by the SNTP time server.

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Network > Network > Protocol**.

If the left navigation bar is not visible, start navigating from ☰.

5. Select the **SNTP** checkbox to activate the settings.
6. Click **Submit**.
7. Restart your Brother machine to activate the configuration.
8. Next to the SNTP checkbox, click **Advanced Settings**.
9. Configure the settings.

Option	Description
Status	Displays whether the SNTP protocol is enabled or disabled.
Synchronization Status	Confirm the latest synchronization status.
SNTP Server Method	Select AUTO or STATIC . <ul style="list-style-type: none">• AUTO If you have a DHCP server on your network, the SNTP server will obtain the address from that server automatically.• STATIC Type the address you want to use.
Primary SNTP Server Address Secondary SNTP Server Address	Type the server's address (up to 64 characters). The secondary SNTP server's address is used as a backup to the primary SNTP server's address. If the primary server is unavailable, the machine will contact the secondary SNTP server.
Primary SNTP Server Port Secondary SNTP Server Port	Type the port number (1-65535). The secondary SNTP server port is used as a backup to the primary SNTP server port. If the primary port is unavailable, the machine will contact the secondary SNTP port.
Synchronization Interval	Type the number of hours between server synchronization attempts (1-168 hours).

10. Click **Submit**.

Forward Incoming Faxes to a Network Destination

Related Models: MFC-L2980DW

Set up a profile to forward incoming faxes directly to a folder on an FTP or CIFS server.

- We recommend using the latest version of the following web browsers:
 - Microsoft Edge, Firefox, and Google Chrome™ for Windows
 - Safari, Firefox, and Google Chrome™ for Mac
 - Google Chrome™ for Android™
 - Safari and Google Chrome™ for iOS
- Ensure that JavaScript and Cookies are always enabled, regardless of which browser you use.

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Administrator > Network Profile**.

If the left navigation bar is not visible, start navigating from ☰.

5. Click the protocol option next to the Profile number.
6. Select the **FTP** or **Network** option, and then click **Submit**.
7. Set up the profile for your server, using one of the following tables:

Using the following characters: ?, /, \, ", :, <, >, | or * may cause a sending error.

FTP

Option	Description
Profile Name	Type a name for this server profile (up to 15 alphanumeric characters). The machine will display this name on the LCD.
Host Address	Type the Host Address (for example: ftp.example.com; up to 64 characters) or the IP address (for example: 192.23.56.189).
Port Number	Change the Port Number setting used to access the FTP server. The default setting is port 21. In most cases this setting does not need to be changed.
Username	Type a user name (up to 32 characters) of a user that has permission to write data to the FTP server.
Password	Type the password (up to 32 characters) associated with the user name you entered in the Username field. Type the password again in the Retype password field.
SSL/TLS	Set the SSL/TLS option to forward incoming faxes securely using SSL/TLS communication. Change the CA Certificate setting, if needed.

Option	Description
Store Directory	Type the path (up to 255 characters) to the folder on the FTP server where you want to forward incoming faxes. Do not type a slash mark at the beginning of the path (correct example: brother/abc).
Passive Mode	Set the Passive Mode option to off or on depending on your FTP server and network firewall configuration. The default setting is on. In most cases, this setting does not need to be changed.

Network

Option	Description
Profile Name	Type a name for this server profile (up to 15 alphanumeric characters). The machine will display this name on the LCD.
Network Folder Path	Type the path to the folder on the CIFS server where you want to forward incoming faxes.
Auth. Method	To set your authentication method, select Auto , Kerberos , or NTLMv2 .
Username	Type a user name (up to 96 characters) that has permission to write data to the folder specified in the Network Folder Path field. If the user name is part of a domain, type the user name in one of the following styles: user@domain domain\user
Password	Type the password (up to 32 characters) associated with the user name you entered in the Username field. Type the password again in the Retype password field.
Kerberos Server Address	When you select Kerberos for the Auth. Method option, you must type the Kerberos Server Address (for example: kerberos.example.com; up to 64 characters).

You must configure the SNTP (network time server) or you must set the date, time and time zone correctly on the control panel. The time must match the time used by the Kerberos Server and CIFS Server.

8. Click **Submit**.
9. To set the Fax Forward feature, in the left navigation bar, click **Fax > Remote Fax Options**.
10. Select **Forward to Network** from the **Fwd/Store/Cloud/Network** drop-down list.
11. Select the file type you want to use.
12. To print a backup copy of incoming faxes, select **On** for **Backup print**.
13. Select the profile you want to use from the **Network Profile** drop-down list.
14. Type a three-digit Remote Access Code in the **Remote Access Code** field, if needed.

- You can use the numbers 0 through 9, *, or # for the Remote Access Code.
- The Remote Access Code must be different from the remote codes for the Fax features.

15. Click **Submit**.

Disable Unnecessary Protocols

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "**Pwd**". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Network > Network > Protocol**.

If the left navigation bar is not visible, start navigating from ☰.

5. Clear any unnecessary protocol checkboxes to disable them.
6. Click **Submit**.
7. Restart your Brother machine to activate the configuration.

Related Information

- [Before Using Network Security Features](#)

Configure Certificates for Device Security

You must configure a certificate to manage your networked machine securely using SSL/TLS. You must use Web Based Management to configure a certificate.

- [Supported Security Certificate Features](#)
- [How to Create and Install a Certificate](#)
- [Create a Self-signed Certificate](#)
- [Create a Certificate Signing Request \(CSR\) and Install a Certificate from a Certificate Authority \(CA\)](#)
- [Import and Export the Certificate and Private Key](#)
- [Import and Export a CA Certificate](#)
- [Manage Multiple Certificates](#)

Supported Security Certificate Features

Your machine supports the use of multiple security certificates, which allows secure management, authentication, and communication with the machine. The following security certificate features can be used with the machine:

- SSL/TLS communication
- SSL communication for SMTP/POP3/IMAP4 (only available for certain models)
- IEEE 802.1x authentication
- IPsec

Your machine supports the following:

- Pre-installed certificate

Your machine has a pre-installed self-signed certificate. This certificate enables you to use SSL/TLS communication without creating or installing a different certificate.

The pre-installed self-signed certificate protects your communication up to a certain level. We recommend using a certificate that is issued by a trusted organization for better security.

- Self-signed certificate

This print server issues its own certificate. Using this certificate, you can easily use the SSL/TLS communication without creating or installing a different certificate from a CA.

- Certificate from a Certificate Authority (CA)

There are two methods for installing a certificate from a CA. If you already have a certificate from a CA or if you want to use a certificate from an external trusted CA:

- When using a Certificate Signing Request (CSR) from this print server.
- When importing a certificate and a private key.

- Certificate Authority (CA) Certificate

To use a CA certificate that identifies the CA and owns its private key, you must import that CA certificate from the CA before configuring the security features of the Network.

- If you are going to use SSL/TLS communication, we recommend contacting your system administrator first.
 - When you reset the print server back to its default factory settings, the certificate and the private key that are installed will be deleted. If you want to keep the same certificate and the private key after resetting the print server, export them before resetting, and then reinstall them.
-

Related Information

- [Configure Certificates for Device Security](#)
-

How to Create and Install a Certificate

There are two options when choosing a security certificate: use a self-signed certificate or use a certificate from a Certificate Authority (CA).

Option 1

Self-Signed Certificate

1. Create a self-signed certificate using Web Based Management.
2. Install the self-signed certificate on your computer.

Option 2

Certificate from a CA

1. Create a Certificate Signing Request (CSR) using Web Based Management.
2. Install the certificate issued by the CA on your Brother machine using Web Based Management.
3. Install the certificate on your computer.

Related Information

- [Configure Certificates for Device Security](#)

Create a Self-signed Certificate

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

For example: https://SharedPrinter

- If you enable a NetBIOS name, you can also use the node name.

For example: https://brn123456abcdef

- The NetBIOS name can be found in the Network Configuration Report.

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Network > Security > Certificate**.

If the left navigation bar is not visible, start navigating from ☰.

5. Click **Create Self-Signed Certificate**.
6. Enter a **Common Name** and a **Valid Date**.
 - The length of the **Common Name** is less than 64 bytes. Enter an identifier, such as an IP address, node name, or domain name to use when accessing this machine through SSL/TLS communication. The node name is displayed by default.
 - A warning will appear if you use the IPPS or HTTPS protocol and enter a different name in the URL than the **Common Name** that was used for the self-signed certificate.
7. Select your setting from the **Public Key Algorithm** drop-down list. The default setting is **EC(256bit)**.
8. Select your setting from the **Digest Algorithm** drop-down list. The default setting is **SHA256**.
9. Click **Submit**.

Related Information

- [Configure Certificates for Device Security](#)

Create a Certificate Signing Request (CSR) and Install a Certificate from a Certificate Authority (CA)

If you already have a certificate from an external trusted Certificate Authority (CA), you can store the certificate and private key on the machine and manage them by importing and exporting. If you do not have a certificate from an external trusted CA, create a Certificate Signing Request (CSR), send it to a CA for authentication, and install the returned certificate on your machine.

- [Create a Certificate Signing Request \(CSR\)](#)
- [Install a Certificate on Your Machine](#)

Create a Certificate Signing Request (CSR)

A Certificate Signing Request (CSR) is a request sent to a Certificate Authority (CA) to authenticate the credentials contained within the certificate.

We recommend installing a Root Certificate from the CA on your computer before creating the CSR.

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

For example: https://SharedPrinter

- If you enable a NetBIOS name, you can also use the node name.

For example: https://brn123456abcdef

- The NetBIOS name can be found in the Network Configuration Report.

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Network > Security > Certificate**.

If the left navigation bar is not visible, start navigating from ☰.

5. Click **Create CSR**.
6. Type a **Common Name** (required) and add other information about your **Organization** (optional).

- Your company details are required so that a CA can confirm your identity and verify it to the outside world.
- The length of the **Common Name** must be less than 64 bytes. Enter an identifier, such as an IP address, node name, or domain name to use when accessing this machine through SSL/TLS communication. The node name is displayed by default. The **Common Name** is required.
- A warning will appear if you type a different name in the URL than the Common Name that was used for the certificate.
- The length of the **Organization**, the **Organization Unit**, the **City/Locality**, and the **State/Province** must be less than 64 bytes.
- The **Country/Region** should be a two-character ISO 3166 country code.
- If you are configuring an X.509v3 certificate extension, select the **Configure extended partition** checkbox, and then select **Auto (Register IPv4)** or **Manual**.

7. Select your setting from the **Public Key Algorithm** drop-down list. The default setting is **EC(256bit)**.
8. Select your setting from the **Digest Algorithm** drop-down list. The default setting is **SHA256**.
9. Click **Submit**.

The CSR appears on your screen. Save the CSR as a file or copy and paste it into an online CSR form offered by a Certificate Authority.

10. Click **Save**.

- Follow your CA's policy regarding the method to send a CSR to your CA.
 - If you are using the Enterprise root CA of Windows Server 2012/2012 R2/2016/2019/2022, we recommend using the Web Server for the certificate template to securely create the Client Certificate. If you are creating a Client Certificate for an IEEE 802.1x environment with EAP-TLS authentication, we recommend using User for the certificate template.

Install a Certificate on Your Machine

When you receive a certificate from a Certificate Authority (CA), follow the steps below to install it on the print server:

Only a certificate issued with your machine's Certificate Signing Request (CSR) can be installed on your machine. When you want to create another CSR, make sure that the certificate is installed before creating the new CSR. Create another CSR only after installing the certificate on the machine, otherwise the CSR created before installing the new CSR will be invalid.

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

For example: https://SharedPrinter

- If you enable a NetBIOS name, you can also use the node name.

For example: https://brn123456abcdef

- The NetBIOS name can be found in the Network Configuration Report.

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Network > Security > Certificate**.

If the left navigation bar is not visible, start navigating from ☰.

5. Click **Install Certificate**.
6. Browse to the file that contains the certificate issued by the CA, and then click **Submit**.

The certificate has been created and saved in your machine's memory successfully.

To use SSL/TLS communication, the Root Certificate from the CA must be installed on your computer. Contact your network administrator.

Import and Export the Certificate and Private Key

Store the certificate and private key on your machine and manage them by importing and exporting them.

- [Import a Certificate and Private Key](#)
- [Export the Certificate and Private Key](#)

Import a Certificate and Private Key

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

For example: https://SharedPrinter

- If you enable a NetBIOS name, you can also use the node name.

For example: https://brn123456abcdef

- The NetBIOS name can be found in the Network Configuration Report.

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Network > Security > Certificate**.

If the left navigation bar is not visible, start navigating from ☰.

5. Click **Import Certificate and Private Key**.
6. Browse to the file you want to import.
7. Type the password if the file is encrypted, and then click **Submit**.

The certificate and private key are imported to your machine.

Related Information

- [Import and Export the Certificate and Private Key](#)

Export the Certificate and Private Key

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

For example: https://SharedPrinter

- If you enable a NetBIOS name, you can also use the node name.

For example: https://brn123456abcdef

- The NetBIOS name can be found in the Network Configuration Report.

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Network > Security > Certificate**.

If the left navigation bar is not visible, start navigating from ☰.

5. Click **Export** shown with **Certificate List**.
6. Enter the password if you want to encrypt the file.
If a blank password is used, the output is not encrypted.
7. Enter the password again for confirmation, and then click **Submit**.
8. Click **Save**.

The certificate and private key are exported to your computer.

You can also import the certificate to your computer.

Manage Multiple Certificates

The multiple certificate feature allows you to use Web Based Management to manage each certificate installed on your machine. In Web Based Management, navigate to the **Certificate** or **CA Certificate** screen to view certificate content, delete, or export your certificates.

	Maximum Number of Certificates Stored on Brother Machine
Self-signed Certificate or Certificate Issued by a CA	6
CA Certificate	9

We recommend storing fewer certificates than allowed, reserving an empty spot in case of certificate expiration. When a certificate expires, import a new certificate into the reserved spot, and then delete the expired certificate. This ensures that you avoid configuration failure.

- When you use HTTPS/IPPS, IEEE 802.1x, or Signed PDF, you must select which certificate you are using.
- When you use SSL for SMTP/POP3/IMAP4 communications (only available for certain models), you do not have to choose the certificate. The necessary certificate will be chosen automatically.

- [Send or Receive an Email Securely](#)

Introduction to SSL/TLS

Secure Socket Layer (SSL) or Transport Layer Security (TLS) is an effective method of protecting data sent over a local or wide area network (LAN or WAN). It works by encrypting data, such as a print job, sent over a network, so anyone trying to capture it will not be able to read it.

SSL/TLS can be configured on both wired and wireless networks and will work with other forms of security such as WPA keys and firewalls.

Related Information

- [Use SSL/TLS](#)
 - [Brief History of SSL/TLS](#)
 - [Benefits of Using SSL/TLS](#)
-

Brief History of SSL/TLS

SSL/TLS was originally created to secure web traffic information, particularly data sent between web browsers and servers. SSL is now used with additional applications, such as Telnet, printer, and FTP software, in order to become a universal solution for online security. Its original design intentions are still being used today by many online retailers and banks to secure sensitive data, such as credit card numbers, customer records, etc.

SSL/TLS uses extremely high levels of encryption and is trusted by banks all over the world.

Related Information

- [Introduction to SSL/TLS](#)
-

Benefits of Using SSL/TLS

The primary benefit of using SSL/TLS is to guarantee secure printing over an IP network by restricting unauthorized users from reading data sent to the machine. SSL's most important benefit is that it can be used to print confidential data securely. For example, a Human Resource (HR) Department in a large company may be printing wage slips on a regular basis. Without encryption, the data contained on these wages slips can be read by other network users. However, with SSL/TLS, anyone trying to capture the data will see a page of code and not the actual wage slip.

- [Configure Certificates for Device Security](#)

Configure a Certificate for SSL/TLS and Available Protocols

Configure a certificate on your machine using Web Based Management before you use SSL/TLS communication.

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

For example: https://SharedPrinter

- If you enable a NetBIOS name, you can also use the node name.

For example: https://brn123456abcdef

- The NetBIOS name can be found in the Network Configuration Report.

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Network > Network > Protocol**.

If the left navigation bar is not visible, start navigating from ☰.

5. Click **HTTP Server Settings**.
6. Select the certificate you want to configure from the **Select the Certificate** drop-down list.
7. Click **Submit**.
8. Click **Yes** to restart your print server.

Related Information

Install the Self-signed Certificate for Windows Users as Administrators

- The following steps are for Microsoft Edge. If you use another web browser, refer to your web browser's documentation or online help for instructions on how to install certificates.
- Make sure you have created your self-signed certificate using Web Based Management.

1. Right-click the **Microsoft Edge** icon, and then click **Run as administrator**.

If the **User Account Control** screen appears, click **Yes**.

2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

For example: https://SharedPrinter

- If you enable a NetBIOS name, you can also use the node name.

For example: https://brn123456abcdef

- The NetBIOS name can be found in the Network Configuration Report.

3. If your connection is not private, click the **Advanced** button, and then continue to the web page.
4. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "**Pwd**". Change the default password by following the on-screen instructions when you first log in.

5. In the left navigation bar, click **Network > Security > Certificate**.

If the left navigation bar is not visible, start navigating from ☰.

6. Click **Export**.
7. To encrypt the output file, type a password in the **Enter password** field. If the **Enter password** field is blank, your output file will not be encrypted.
8. Type the password again in the **Retype password** field, and then click **Submit**.
9. Click the downloaded file to open.
10. When the **Certificate Import Wizard** appears, click **Next**.
11. Click **Next**.
12. If required, type a password, and then click **Next**.
13. Select **Place all certificates in the following store**, and then click **Browse...**
14. Select the **Trusted Root Certification Authorities**, and then click **OK**.
15. Click **Next**.
16. Click **Finish**.
17. Click **Yes**, if the fingerprint (thumbprint) is correct.
18. Click **OK**.

Use SNMPv3

- [Manage Your Network Machine Securely Using SNMPv3](#)

Manage Your Network Machine Securely Using SNMPv3

The Simple Network Management Protocol version 3 (SNMPv3) provides user authentication and data encryption to manage network devices securely.

1. Start your web browser.
2. Type "https://Common Name" in your browser's address bar (where "Common Name" is the Common Name that you assigned to the certificate; this could be your IP address, node name, or domain name).
3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Network > Network > Protocol**.

If the left navigation bar is not visible, start navigating from ☰.

5. Make sure the **SNMP** setting is enabled, and then click **Advanced Settings**.
6. Configure the SNMPv1/v2c mode settings.

Option	Description
SNMP v1/v2c read-write access	The print server uses version 1 and version 2c of the SNMP protocol. You can use all of your machine's applications in this mode. However, it is not secure since it will not authenticate the user and data will not be encrypted.
SNMP v1/v2c read-only access	The print server uses the read-only access of version 1 and version 2c of the SNMP protocol.
Disabled	Disable version 1 and version 2c of the SNMP protocol. All applications that use SNMPv1/v2c will be restricted. To allow the use of SNMPv1/v2c applications, use the SNMP v1/v2c read-only access or SNMP v1/v2c read-write access mode.

7. Configure the SNMPv3 mode settings.

Option	Description
Enabled	The print server uses version 3 of the SNMP protocol. To manage the print server securely, use the SNMPv3 mode.
Disabled	Disable version 3 of the SNMP protocol. All applications that use SNMPv3 will be restricted. To allow the use of SNMPv3 applications, use the SNMPv3 mode.

8. Click **Submit**.

If your machine displays the protocol setting options, select the options you want.

9. Restart your machine to activate the configuration.

Introduction to IPsec

Related Models: MFC-L2980DW

IPsec (Internet Protocol Security) is a security protocol that uses an optional Internet Protocol function to prevent data manipulation and ensure the confidentiality of data transmitted as IP packets. IPsec encrypts data carried over a network, such as print data sent from computers to a printer. Because the data is encrypted at the network layer, applications that employ a higher-level protocol use IPsec even if the user is not aware of its use.

IPsec supports the following functions:

- IPsec transmissions

According to the IPsec setting conditions, a network-connected computer sends data to and receives data from a specified device using IPsec. When devices start communicating using IPsec, keys are exchanged using Internet Key Exchange (IKE) first, and then the encrypted data is transmitted using the keys.

In addition, IPsec has two operation modes: the Transport mode and Tunnel mode. The Transport mode is used mainly for communication between devices and the Tunnel mode is used in environments such as a Virtual Private Network (VPN).

For IPsec transmissions, the following conditions are necessary:

- A computer that can communicate using IPsec is connected to the network.
- Your machine is configured for IPsec communication.
- The computer connected to your machine is configured for IPsec connections.

- IPsec settings

The settings that are necessary for connections using IPsec. These settings can be configured using Web Based Management.

To configure the IPsec settings, you must use the browser on a computer that is connected to the network.

Related Information

- [Use IPsec](#)

Configure IPsec Using Web Based Management

Related Models: MFC-L2980DW

The IPsec connection conditions comprise two **Template** types: **Address** and **IPsec**. You can configure up to 10 connection conditions.

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "**Pwd**". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Network > Security > IPsec**.

If the left navigation bar is not visible, start navigating from .

5. Configure the settings.

Option	Description
Status	Enable or disable IPsec.
Negotiation Mode	Select Negotiation Mode for IKE Phase 1. IKE is a protocol that is used to exchange encryption keys in order to carry out encrypted communication using IPsec. In the Main mode, the processing speed is slow, but the security is high. In the Aggressive mode, the processing speed is faster than in the Main mode, but the security is lower.
All Non-IPsec Traffic	Select the action to be taken for non-IPsec packets. When using Web Services, you must select Allow for All Non-IPsec Traffic . If you select Drop , Web Services cannot be used.
Broadcast/Multicast Bypass	Select Enabled or Disabled .
Protocol Bypass	Select the checkboxes for the option or options you want.
Rules	Select the Enabled checkbox to activate the template. When you select multiple checkboxes, the lower numbered checkboxes have priority if the settings for the selected checkboxes conflict. Click the corresponding drop-down list to select the Address Template that is used for the IPsec connection conditions. To add an Address Template , click Add Template . Click the corresponding drop-down list to select the IPsec Template that is used for the IPsec connection conditions. To add an IPsec Template , click Add Template .

6. Click **Submit**.

If the machine must be restarted to activate the new settings, the restart confirmation screen will appear.

If there is a blank item in the template you enabled in the **Rules** table, an error message appears. Confirm your choices and click **Submit** again.

IKEv1 Settings for an IPsec Template

Related Models: MFC-L2980DW

Option	Description
Template Name	Type a name for the template (up to 16 characters).
Use Prefixed Template	Select Custom , IKEv1 High Security or IKEv1 Medium Security . The setting items are different depending on the selected template.
Internet Key Exchange (IKE)	<p>IKE is a communication protocol that is used to exchange encryption keys in order to carry out encrypted communication using IPsec. To carry out encrypted communication for that time only, the encryption algorithm that is necessary for IPsec is determined and the encryption keys are shared. For IKE, the encryption keys are exchanged using the Diffie-Hellman key exchange method, and encrypted communication that is limited to IKE is carried out.</p> <p>If you selected Custom in Use Prefixed Template, select IKEv1.</p>
Authentication Type	<ul style="list-style-type: none"> • Diffie-Hellman Group This key exchange method allows secret keys to be securely exchanged over an unprotected network. The Diffie-Hellman key exchange method uses a discrete logarithm problem, not the secret key, to send and receive open information that was generated using a random number and the secret key. Select Group1, Group2, Group5, or Group14. • Encryption Select DES, 3DES, AES-CBC 128, or AES-CBC 256. • Hash Select MD5, SHA1, SHA256, SHA384 or SHA512. • SA Lifetime Specify the IKE SA lifetime. Type the time (seconds) and number of kilobytes (KByte).
Encapsulating Security	<ul style="list-style-type: none"> • Protocol Select ESP, AH, or AH+ESP. <hr/> <ul style="list-style-type: none"> -  ESP is a protocol for carrying out encrypted communication using IPsec. ESP encrypts the payload (communicated contents) and adds additional information. The IP packet comprises the header and the encrypted payload, which follows the header. In addition to the encrypted data, the IP packet also includes information regarding the encryption method and encryption key, the authentication data, and so on. - AH is part of the IPsec protocol that authenticates the sender and prevents manipulation (ensures the completeness) of the data. In the IP packet, the data is inserted immediately after the header. In addition, the packets include hash values, which are calculated using an equation from the communicated contents, secret key, and so on, in order to prevent the falsification of the sender and manipulation of the data. Unlike ESP, the communicated contents are not encrypted, and the data is sent and received as plain text. <hr/> <ul style="list-style-type: none"> • Encryption (Not available for the AH option.) Select DES, 3DES, AES-CBC 128, or AES-CBC 256.

Option	Description
	<ul style="list-style-type: none"> • Hash Select None, MD5, SHA1, SHA256, SHA384, or SHA512. None can be selected only when ESP is selected for Protocol. • SA Lifetime Specify the IKE SA lifetime. Type the time (seconds) and number of kilobytes (KByte). • Encapsulation Mode Select Transport or Tunnel. • Remote Router IP-Address Type the IP address (IPv4 or IPv6) of the remote router. Enter this information only when the Tunnel mode is selected. <hr/>  SA (Security Association) is an encrypted communication method using IPsec or IPv6 that exchanges and shares information, such as the encryption method and encryption key, in order to establish a secure communication channel before communication begins. SA may also refer to a virtual encrypted communication channel that has been established. The SA used for IPsec establishes the encryption method, exchanges the keys, and carries out mutual authentication according to the IKE (Internet Key Exchange) standard procedure. In addition, the SA is updated periodically.
Perfect Forward Secrecy (PFS)	<p>PFS does not derive keys from previous keys that were used to encrypt messages. In addition, if a key that is used to encrypt a message was derived from a parent key, that parent key is not used to derive other keys. Therefore, even if a key is compromised, the damage will be limited only to the messages that were encrypted using that key.</p> <p>Select Enabled or Disabled.</p>
Authentication Method	<p>Select the authentication method. Select Pre-Shared Key or Certificates.</p>
Pre-Shared Key	<p>When encrypting communication, the encryption key is exchanged and shared beforehand using another channel.</p> <p>If you selected Pre-Shared Key for the Authentication Method, type the Pre-Shared Key (up to 32 characters).</p> <ul style="list-style-type: none"> • Local/ID Type/ID Select the sender's ID type, and then type the ID. Select IPv4 Address, IPv6 Address, FQDN, E-mail Address, or Certificate for the type. If you select Certificate, type the common name of the certificate in the ID field. • Remote/ID Type/ID Select the recipient's ID type, and then type the ID. Select IPv4 Address, IPv6 Address, FQDN, E-mail Address, or Certificate for the type. If you select Certificate, type the common name of the certificate in the ID field.
Certificate	<p>If you selected Certificates for Authentication Method, select the certificate.</p> <hr/>  You can select only the certificates that were created using the Certificate page of Web Based Management's Security configuration screen.

For IKE, the encryption keys are exchanged using the Diffie-Hellman key exchange method, and encrypted communication that is limited to IKE is carried out. If you selected Custom in Use Prefixed Template , select IKEv2 .
Authentication Type	<ul style="list-style-type: none"> • Diffie-Hellman Group This key exchange method allows secret keys to be securely exchanged over an unprotected network. The Diffie-Hellman key exchange method uses a discrete logarithm problem, not the secret key, to send and receive open information that was generated using a random number and the secret key. Select Group1, Group2, Group5, or Group14. • Encryption Select DES, 3DES, AES-CBC 128, or AES-CBC 256. • Hash Select MD5, SHA1, SHA256, SHA384 or SHA512. • SA Lifetime Specify the IKE SA lifetime. Type the time (seconds) and number of kilobytes (KByte).
Encapsulating Security	<ul style="list-style-type: none"> • Protocol Select ESP. <hr/> <p> ESP is a protocol for carrying out encrypted communication using IPsec. ESP encrypts the payload (communicated contents) and adds additional information. The IP packet comprises the header and the encrypted payload, which follows the header. In addition to the encrypted data, the IP packet also includes information regarding the encryption method and encryption key, the authentication data, and so on.</p> <hr/> <ul style="list-style-type: none"> • Encryption Select DES, 3DES, AES-CBC 128, or AES-CBC 256. • Hash Select MD5, SHA1, SHA256, SHA384, or SHA512. • SA Lifetime Specify the IKE SA lifetime. Type the time (seconds) and number of kilobytes (KByte). • Encapsulation Mode Select Transport or Tunnel.

Option	Description
	<ul style="list-style-type: none"> Remote Router IP-Address Type the IP address (IPv4 or IPv6) of the remote router. Enter this information only when the Tunnel mode is selected. <hr/>  SA (Security Association) is an encrypted communication method using IPsec or IPv6 that exchanges and shares information, such as the encryption method and encryption key, in order to establish a secure communication channel before communication begins. SA may also refer to a virtual encrypted communication channel that has been established. The SA used for IPsec establishes the encryption method, exchanges the keys, and carries out mutual authentication according to the IKE (Internet Key Exchange) standard procedure. In addition, the SA is updated periodically.
Perfect Forward Secrecy (PFS)	PFS does not derive keys from previous keys that were used to encrypt messages. In addition, if a key that is used to encrypt a message was derived from a parent key, that parent key is not used to derive other keys. Therefore, even if a key is compromised, the damage will be limited only to the messages that were encrypted using that key. Select Enabled or Disabled .
Authentication Method	Select the authentication method. Select Pre-Shared Key , Certificates , EAP - MD5 , or EAP - MS-CHAPv2 . <hr/>  EAP is an authentication protocol that is an extension of PPP. By using EAP with IEEE802.1x, a different key is used for user authentication during each session. The following settings are necessary only when EAP - MD5 or EAP - MS-CHAPv2 is selected in Authentication Method : <ul style="list-style-type: none"> Mode Select Server-Mode or Client-Mode. Certificate Select the certificate. User Name Type the user name (up to 32 characters). Password Type the password (up to 32 characters). The password must be entered two times for confirmation.
Pre-Shared Key	When encrypting communication, the encryption key is exchanged and shared beforehand using another channel. If you selected Pre-Shared Key for the Authentication Method , type the Pre-Shared Key (up to 32 characters). <ul style="list-style-type: none"> Local/ID Type/ID Select the sender's ID type, and then type the ID. Select IPv4 Address, IPv6 Address, FQDN, E-mail Address, or Certificate for the type. If you select Certificate, type the common name of the certificate in the ID field. Remote/ID Type/ID Select the recipient's ID type, and then type the ID. Select IPv4 Address, IPv6 Address, FQDN, E-mail Address, or Certificate for the type. If you select Certificate, type the common name of the certificate in the ID field.
Certificate	If you selected Certificates for Authentication Method , select the certificate.

Option	Description
	 You can select only the certificates that were created using the Certificate page of Web Based Management's Security configuration screen.

Use IEEE 802.1x Authentication

- [What Is IEEE 802.1x Authentication?](#)
- [Configure IEEE 802.1x Authentication for a Wired or Wireless Network Using Web Based Management \(Web Browser\)](#)
- [IEEE 802.1x Authentication Methods](#)

What Is IEEE 802.1x Authentication?

IEEE 802.1x is an IEEE standard that limits access from unauthorized network devices. Your Brother machine sends an authentication request to a RADIUS server (Authentication server) through your access point or hub. After your request has been verified by the RADIUS server, your machine can access the network.

Related Information

- [Use IEEE 802.1x Authentication](#)
-

Configure IEEE 802.1x Authentication for a Wired or Wireless Network Using Web Based Management (Web Browser)

- If you configure your machine using EAP-TLS authentication, you must install the client certificate issued by a CA before you start configuration. Contact your network administrator about the client certificate. If you have installed more than one certificate, we recommend writing down the certificate name you want to use.
- Before you verify the server certificate, you must import the CA certificate issued by the CA that signed the server certificate. Contact your network administrator or your Internet Service Provider (ISP) to confirm whether a CA certificate import is necessary.

You can also configure IEEE 802.1x authentication using the Wireless Setup Wizard from the control panel (Wireless network).

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

For example: https://SharedPrinter

- If you enable a NetBIOS name, you can also use the node name.

For example: https://brn123456abcdef

- The NetBIOS name can be found in the Network Configuration Report.

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Network**.

If the left navigation bar is not visible, start navigating from ☰.

5. Do one of the following:
 - For the wired network
Click **Wired** > **Wired 802.1x Authentication**.
 - For the wireless network
Click **Wireless** > **Wireless (Enterprise)**.

6. Configure the IEEE 802.1x authentication settings.

- To enable IEEE 802.1x authentication for wired networks, select **Enabled** for **Wired 802.1x status** on the **Wired 802.1x Authentication** page.
- If you are using **EAP-TLS** authentication, you must select the client certificate installed (shown with certificate name) for verification from the **Client Certificate** drop-down list.
- If you select **EAP-FAST**, **PEAP**, **EAP-TTLS**, or **EAP-TLS** authentication, select the verification method from the **Server Certificate Verification** drop-down list. Verify the server certificate using the CA certificate, imported to the machine in advance, issued by the CA that signed the server certificate.

Select one of the following verification methods from the **Server Certificate Verification** drop-down list:

Option	Description
No Verification	The server certificate can always be trusted. The verification is not performed.
CA Cert.	The verification method to check the CA reliability of the server certificate, using the CA certificate issued by the CA that signed the server certificate.
CA Cert. + ServerID	The verification method to check the common name ¹ value of the server certificate, in addition to the CA reliability of the server certificate.

7. When finished with configuration, click **Submit**.

For wired networks: After configuring, connect your machine to the IEEE 802.1x supported network. After a few minutes, print the Network Configuration Report to check the **<Wired IEEE 802.1x>** status.

Option	Description
Success	The wired IEEE 802.1x function is enabled and the authentication was successful.
Failed	The wired IEEE 802.1x function is enabled; however, the authentication failed.
Off	The wired IEEE 802.1x function is not available.

Related Information

¹ The common name verification compares the common name of the server certificate to the character string configured for the **Server ID**. Before you use this method, contact your system administrator about the server certificate's common name and then configure **Server ID**.

IEEE 802.1x Authentication Methods

EAP-FAST

Extensible Authentication Protocol-Flexible Authentication via Secured Tunneling (EAP-FAST) has been developed by Cisco Systems, Inc., which uses a user ID and password for authentication, and symmetric key algorithms to achieve a tunneled authentication process.

Your Brother machine supports the following inner authentication methods:

- EAP-FAST/NONE
- EAP-FAST/MS-CHAPv2
- EAP-FAST/GTC

EAP-MD5 (Wired network)

Extensible Authentication Protocol-Message Digest Algorithm 5 (EAP-MD5) uses a user ID and password for challenge-response authentication.

PEAP

Protected Extensible Authentication Protocol (PEAP) is a version of EAP method developed by Cisco Systems, Inc., Microsoft Corporation and RSA Security. PEAP creates an encrypted Secure Sockets Layer (SSL)/Transport Layer Security (TLS) tunnel between a client and an authentication server, for sending a user ID and password. PEAP provides mutual authentication between the server and the client.

Your Brother machine supports the following inner authentication methods:

- PEAP/MS-CHAPv2
- PEAP/GTC

EAP-TTLS

Extensible Authentication Protocol-Tunneled Transport Layer Security (EAP-TTLS) has been developed by Funk Software and Certicom. EAP-TTLS creates a similar encrypted SSL tunnel to PEAP, between a client and an authentication server, for sending a user ID and password. EAP-TTLS provides mutual authentication between the server and the client.

Your Brother machine supports the following inner authentication methods:

- EAP-TTLS/CHAP
- EAP-TTLS/MS-CHAP
- EAP-TTLS/MS-CHAPv2
- EAP-TTLS/PAP

EAP-TLS

Extensible Authentication Protocol-Transport Layer Security (EAP-TLS) requires digital certificate authentication both at a client and an authentication server.

Introduction to Active Directory Authentication

Related Models: MFC-L2980DW

Active Directory Authentication restricts the use of your machine. If Active Directory Authentication is enabled, the machine's control panel will be locked. You cannot change the machine's settings until you enter a User ID and password.

Active Directory Authentication offers the following features:

- Stores incoming print data
- Stores incoming fax data (For MFC models)
- Obtains the email address from the Active Directory server based on your User ID, when sending scanned data to an email server.

To use this feature, select the **On** option for the **Get Mail Address** setting and **LDAP + kerberos** or **LDAP + NTLMv2** authentication method. Your email address will be set as the sender when the machine sends scanned data to an email server, or as the recipient if you want to send the scanned data to your email address.

When Active Directory Authentication is enabled, your machine stores all incoming fax data. After you log on, the machine prints the stored fax data. (For MFC models)

You can change the Active Directory Authentication settings using Web Based Management.

Configure Active Directory Authentication Using Web Based Management

Related Models: MFC-L2980DW

Active Directory authentication supports Kerberos authentication and NTLMv2 authentication. You must configure the SNTP protocol (network time server) and DNS server configuration for authentication.

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Administrator > User Restriction Function** or **Restriction Management**.

If the left navigation bar is not visible, start navigating from ☰.

5. Select **Active Directory Authentication**.
6. Click **Submit**.
7. Click **Active Directory Authentication**.
8. Configure the following settings:

Option	Description
Storage Fax RX Data	Select this option to store incoming fax data. You can print all incoming fax data after you log on to the machine.
Remember User ID	Select this option to save your User ID.
Active Directory Server Address	Type the IP address or the server name (for example: ad.example.com) of the Active Directory Server.
Active Directory Domain Name	Type the Active Directory domain name.
Protocol & Authentication Method	Select the protocol and authentication method.
SSL/TLS	Select the SSL/TLS option.
LDAP Server Port	Type the port number to connect the Active Directory server via LDAP (available only for LDAP + kerberos or LDAP + NTLMv2 authentication method).
LDAP Search Root	Type the LDAP search root (available only for LDAP + kerberos or LDAP + NTLMv2 authentication method).
Get Mail Address	Select this option to obtain logged on user's email address from the Active Directory server. (available only for LDAP + kerberos or LDAP + NTLMv2 authentication method)

Option	Description
Get User's Home Directory	Select this option to obtain your home directory as the Scan to Network destination. (available only for LDAP + kerberos or LDAP + NTLMv2 authentication method)

9. Click **Submit**.

Introduction to LDAP Authentication

Related Models: MFC-L2980DW

LDAP Authentication restricts the use of your machine. If LDAP Authentication is enabled, the machine's control panel will be locked. You cannot change the machine's settings until you enter a User ID and password.

LDAP Authentication offers the following features:

- Stores incoming print data
- Stores incoming fax data (For MFC models)
- Obtains the email address from the LDAP server based on your User ID, when sending scanned data to an email server.

To use this feature, select the **On** option for the **Get Mail Address** setting. Your email address will be set as the sender when the machine sends scanned data to an email server, or as the recipient if you want to send the scanned data to your email address.

When LDAP Authentication is enabled, your machine stores all incoming fax data. After you log on, the machine prints the stored fax data. (For MFC models)

You can change the LDAP Authentication settings using Web Based Management.

Use Secure Function Lock to configure passwords, set specific user page limits, and grant access to some or all of the functions listed here.

You can configure and change the following Secure Function Lock 3.0 settings using Web Based Management:

- **Print**

Print includes print jobs sent via AirPrint, Brother iPrint&Scan, and Brother Mobile Connect.

If you register user login names in advance, the users do not need to enter their passwords when they use the print function.

- **Copy**

- **Scan**

Scan includes scan jobs sent via Brother iPrint&Scan and Brother Mobile Connect.

- **Send** (supported models only)

- **Receive** (supported models only)

- **Web Connect** (supported models only)

- **Apps** (supported models only)

- **Page Limits**

- **Page Counters**

- **Card ID (NFC ID)** (supported models only)

If you register user Card IDs in advance, registered users can activate the machine by touching their registered cards to the machine's NFC symbol.

Touchscreen LCD models:

When Secure Function Lock is enabled, the machine automatically enters Public Mode and some of the machine's functions become restricted to authorized users only. To access the restricted machine functions, press , select your user name, and enter your password.

- [Send or Receive an Email Securely Using SSL/TLS](#)

Configure Email Sending or Receiving Using Web Based Management

We recommend using Web Based Management to configure secured email sending with user authentication, or email sending and receiving using SSL/TLS.

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).
For example:
https://192.168.1.2
3. If required, type the password in the **Login** field, and then click **Login**.

 The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Network > Network > Protocol**.

 If the left navigation bar is not visible, start navigating from ☰.

5. In the **POP3/IMAP4/SMTP Client** field, click **Advanced Settings** and make sure the status of **POP3/IMAP4/SMTP Client** is **Enabled**.

 If the **Authentication Method** selection screen appears, select your authentication method, and then follow the on-screen instructions.

6. Configure the **POP3/IMAP4/SMTP Client** settings.
 - Confirm that the email settings are correct after configuration by sending a test email.
 - If you do not know the POP3/IMAP4/SMTP server settings, contact your network administrator or Internet Service Provider (ISP).
7. When finished, click **Submit**.
The **Test Send/Receive E-mail Configuration** dialog box appears.
8. Follow the instructions in the dialog box to test the current settings.

Related Information

- [Send or Receive an Email Securely](#)

Send an Email with User Authentication

Your machine sends email via an email server that requires user authentication. This method prevents unauthorized users from accessing the email server.

You can send email notification, email reports and I-Fax using user authentication. (For MFC models)

We recommend using Web Based Management to configure the SMTP authentication.

Email Server Settings

You must configure your machine's SMTP authentication method to match the method used by your email server. For details about your email server settings, contact your network administrator or Internet Service Provider (ISP).

To enable SMTP server authentication using Web Based Management, select your authentication method under **Server Authentication Method** on the **POP3/IMAP4/SMTP Client** screen.

Related Information

- [Send or Receive an Email Securely](#)
-

Send or Receive an Email Securely Using SSL/TLS

Your machine supports SSL/TLS communication methods. To use an email server that is using SSL/TLS communication, you must configure the following settings.

We recommend using Web Based Management to configure SSL/TLS.

Verify Server Certificate

Under **SSL/TLS**, if you choose **SSL** or **TLS**, the **Verify Server Certificate** checkbox will be selected automatically.

- Before you verify the server certificate, you must import the CA certificate issued by the CA that signed the server certificate. Contact your network administrator or your Internet Service Provider (ISP) to confirm if importing a CA certificate is necessary.
- If you do not need to verify the server certificate, clear the **Verify Server Certificate** checkbox.

Port Number

If you select **SSL**, or **TLS**, the **Port** value will be changed to match the protocol. To change the port number manually, type the port number after you select **SSL/TLS** settings.

You must configure your machine's communication method to match the method used by your email server. For details about your email server settings, contact your network administrator or your ISP.

In most cases, the secured webmail services require the following settings:

SMTP	Port	587
	Server Authentication Method	SMTP-AUTH
	SSL/TLS	TLS
POP3	Port	995
	SSL/TLS	SSL
IMAP4	Port	993
	SSL/TLS	SSL

Store Print Log to Network Overview

Related Models: MFC-L2980DW

The Store Print Log to Network feature allows you to save the print log file from your machine to a network server using the Common Internet File System (CIFS) protocol. You can record the ID, type of print job, job name, user name, date, time and the number of printed pages for every print job. CIFS is a protocol that runs over TCP/IP, allowing computers on a network to share files over an intranet or the Internet.

The following print functions are recorded in the print log:

- Print jobs from your computer
- Copy
- Received Fax (supported models only)
- Web Connect Print (supported models only)

- The Store Print Log to Network feature supports Kerberos authentication and NTLMv2 authentication. You must configure the SNTP protocol (network time server), or you must set the date, time and time zone correctly on the control panel for authentication.
- You can set the file type to TXT or CSV when storing a file to the server.

Related Information

- [Store Print Log to Network](#)

Configure the Store Print Log to Network Settings Using Web Based Management

Related Models: MFC-L2980DW

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Administrator > Store Print Log to Network**.

If the left navigation bar is not visible, start navigating from ☰.

5. In the **Print Log** field, click **On**.
6. Configure the following settings:

Option	Description
Network Folder Path	Type the destination folder where your print log will be stored on the CIFS server (for example: \\ComputerName\SharedFolder).
File Name	Type the file name you want to use for the print log (up to 32 characters).
File Type	Select the TXT or CSV option for the print log file type.
Time Source for Log	Select the time source for the print log.
Auth. Method	<p>Select the authentication method required for access to the CIFS server: Auto, Kerberos, or NTLMv2. Kerberos is an authentication protocol which allows devices or individuals to securely prove their identity to network servers using a single sign-on. NTLMv2 is the authentication method used by Windows to log into servers.</p> <ul style="list-style-type: none">• Auto: If you select Auto, NTLMv2 will be used to the authentication method.• Kerberos: Select the Kerberos option to use Kerberos authentication only.• NTLMv2: Select the NTLMv2 option to use NTLMv2 authentication only. <p> For the Kerberos and NTLMv2 authentication, you must also configure the Date&Time settings or the SNTP protocol (network time server) and DNS server.</p> <ul style="list-style-type: none">• You can also configure the Date & Time settings from the machine's control panel.
Username	Type the user name for the authentication (up to 96 characters).
	<p> If the user name is part of a domain, enter the user name in one of the following styles: user@domain or domain\user.</p>

Option	Description
Password	Type the password for the authentication (up to 32 characters).
Kerberos Server Address (if needed)	Type the Key Distribution Center (KDC) host address (for example: kerberos.example.com; up to 64 characters) or the IP address (for example: 192.168.56.189).
Error Detection Setting	Choose what action should be taken when the print log cannot be stored to the server due to a network error.

- In the **Connection Status** field, confirm the last log status.

You can also confirm the error status on the LCD of your machine.

- Click **Submit** to display the **Test Print Log to Network** page.
To test your settings, click **Yes** and then go to the next step.
To skip the test, click **No**. Your settings will be submitted automatically.
- The machine will test your settings.
- If your settings are accepted, **Test OK** appears on the screen.
If **Test Error** appears, check all settings, and then click **Submit** to display the Test page again.

-

Use the Store Print Log to Network's Error Detection Setting

Related Models: MFC-L2980DW

Use Error Detection Settings to determine the action that is taken when the print log cannot be stored to the server due to a network error.

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. In the left navigation bar, click **Administrator > Store Print Log to Network**.

If the left navigation bar is not visible, start navigating from ☰.

5. In the **Error Detection Setting** section, select the **Cancel Print** or **Ignore Log & Print** option.

Option	Description
Cancel Print	If you select the Cancel Print option, the print jobs are canceled when the print log cannot be stored to the server.  Even if you select the Cancel Print option, your machine will print a received fax. (For MFC models)

Ignore Log & Print If you select the **Ignore Log & Print** option, the machine prints the documentation even if the print log cannot be stored to the server.

When the Store Print Log function has recovered, the print log is recorded as follows:

```
Id, Type, Job Name, User Name, Date, Time, Print Pages
```

```
1, Print(xxxxxxx), "Document01.doc", "user01", 03/03/20xx, 14:01:32, 52
```

```
2, Print(xxxxxxx), "Document02.doc", "user01", 03/03/20xx, 14:45:30, ?
```

```
3, <ERROR>, ?, ?, ?, ?
```

```
4, Print(xxxxxxx), "Report01.xls", "user02", 03/03/20xx, 19:30:40, 4
```

- a. If the log cannot be stored at the end of printing, the number of printed pages will not be recorded.
- b. If the print log cannot be stored at the beginning and the end of printing, the print log of the job will not be recorded. When the function has recovered, the error is reflected in the log.

6. Click **Submit** to display the **Test Print Log to Network** page.

To test your settings, click **Yes** and then go to the next step.

To skip the test, click **No**. Your settings will be submitted automatically.

7. The machine will test your settings.

8. If your settings are accepted, **Test OK** appears on the screen.

If **Test Error** appears, check all settings, and then click **Submit** to display the Test page again.

To use Brother Web Connect to access online services, you must first apply for Brother Web Connect access using a computer that has the Brother Software installed.

1. Access the Brother Web Connect application website:

Option	Description
Windows	Launch  (Brother Utilities), and then click the drop-down list and select your model name (if not already selected). Click Do More in the left navigation bar, and then click Brother Web Connect .  You can also access the website directly: Type bwc.brother.com into your web browser's address bar.
Mac	Type bwc.brother.com into your web browser's address bar.

The Brother Web Connect page launches.

2. Select the service you want to use.
3. Follow the on-screen instructions and apply for access.

 When using SharePoint Online, follow the on-screen instructions to register a document library.

When finished, your temporary ID appears.

Get connected with Brother Web Connect

Finished the registration.

Please enter the following temporary ID on the LCD screen of your machine.

Temporary ID (11 digits)

XXX XXXX XXXX

NOTE : The temporary ID will expire in 24 hours.

4. Make a note of your temporary ID as you will need it to register accounts to the machine. The temporary ID is valid for 24 hours.
5. Close the web browser.

Now that you have a Brother Web Connect access ID, you must register this ID on your machine, and then use your machine to access the web service you want to use.

Register an Account on Your Brother Machine for Brother Web Connect

Related Models: HL-L2480DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

You must enter your Brother Web Connect account information and configure your machine so that it can use Brother Web Connect to access the service you want.

- You must apply for Brother Web Connect access to register an account on your machine.
- Before you register an account, confirm that the correct date and time are set on the machine.

1. Press ◀ or ▶ to display the [Web] option.
2. Press [Web].

- If information regarding the Internet connection appears on the machine's LCD, read the information and press [OK]. If you want to display this information again, press [Yes].
- Occasionally, updates or announcements about Brother Web Connect's features will appear on the LCD. Read the information, and then press [OK].

3. If the information regarding license agreement appears, make your selection and follow the on-screen instructions.
4. Press ▲ or ▼ to display the service with which you want to register.
5. Press the service name.
6. If information regarding Brother Web Connect appears, press [OK].
7. Press [Register/Delete].
8. Press [Register Account].
The machine will prompt you to enter the temporary ID you received when you applied for Brother Web Connect access.
9. Press [OK].
10. Enter the temporary ID using the LCD.
11. Press [OK].

An error message will appear on the LCD if the information you entered does not match the temporary ID you received when you applied for access, or if the temporary ID has expired. Enter the temporary ID correctly, or apply for access again to receive a new temporary ID.

The machine will prompt you to enter the account name that you want to be displayed on the LCD.

12. Press [OK].
13. Enter the name using the LCD.
14. Press [OK].
15. Do one of the following:
 - To set a PIN for the account, press [Yes]. (A PIN prevents unauthorized access to the account.) Enter a four-digit number, and then press [OK].
 - If you do not want to set a PIN, press [No].
16. When the account information you entered appears, confirm that it is correct.
17. Press [Yes] to register your information as entered.
18. Press [OK].
19. Press .

Registration is complete and your machine can now access the service.

Scan and Upload Documents Using Brother Web Connect

Related Models: HL-L2480DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

Upload your scanned photos and documents directly to a web service without using a computer.

Uploaded documents are saved in an album named **From_BrotherDevice**.

For information regarding restrictions, such as the size or number of documents that can be uploaded, refer to the respective service's website.

If you are a restricted Web Connect user, due to the enabled Secure Function Lock feature (available for certain models), you cannot upload the scanned data.

1. [Load your document](#).
2. Press ◀ or ▶ to display the [Web] option.
3. Press [Web].

- If information regarding the Internet connection appears on the machine's LCD, read the information and press [OK]. If you want to display this information again, press [Yes].
- Occasionally, updates or announcements about Brother Web Connect's features will appear on the LCD. Read the information, and then press [OK].

4. Press ▲ or ▼ to display the service that hosts the account to which you want to upload. Press the service name.
5. Press ▲ or ▼ to display your account name, and then press it.
6. Follow the on-screen instructions to complete this operation.

- [Send a Fax Using AirPrint \(macOS\)](#)

AirPrint Overview

AirPrint is a printing solution for Apple operating systems that allows you to wirelessly print photos, email, web pages, and documents from your iPad, iPhone, iPod touch, and Mac computer without the need to install a driver.

(MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/
MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW)

AirPrint also allows you to send faxes directly from your Mac computer without having to print them and allows you to scan documents to your Mac computer.

(HL-L2465DW/DCP-L2640DW/HL-L2480DW)

AirPrint also allows you to scan documents to your Mac computer.

For more information, visit Apple's website.

Use of the Works with Apple badge means that an accessory has been designed to work specifically with the technology identified in the badge and has been certified by the developer to meet Apple performance standards.

Before Using AirPrint (macOS)

Before printing using macOS, add your machine to the printer list on your Mac computer.

1. Do one of the following:
 - macOS v13
Select **System Settings** from the Apple menu.
 - macOS v12 and macOS v11
Select **System Preferences** from the Apple menu.
2. Select **Printers & Scanners**.
3. Do one of the following:
 - macOS v13
Click **Add Printer, Scanner, or Fax....**
 - macOS v12 and macOS v11
Click the + icon below the Printers pane on the left.
The **Add Printer** screen appears.
4. Do one of the following:
 - macOS v13 and macOS v12
Select your machine, and then select your model's name from the **Use** pop-up menu.
 - macOS v11
Select your machine, and then select **AirPrint** from the **Use** pop-up menu.
5. Click **Add**.

Mopria™ Print Service and Mopria™ Scan

Mopria™ Print Service is a print feature and Mopria™ Scan is a scan feature on Android™ mobile devices developed by the Mopria Alliance™. With this service, you can connect to the same network as your machine to print and scan without additional setup.

1. Android™ Mobile Device
2. Wi-Fi® Connection
3. Your Machine

You must download the Mopria™ Print Service or Mopria™ Scan from Google Play™ and install it on your Android™ device. Before using these Mopria™ features, make sure you enable them on your mobile device.

Related Information

- [Mobile/Web Connect](#)

Brother Mobile Connect

Use Brother Mobile Connect to print and scan from your mobile device.

- For Android™ devices:

Brother Mobile Connect allows you to use your Brother machine's features directly from your Android™ device.

Download and install Brother Mobile Connect from Google Play™.

- For all iOS or iPadOS supported devices including iPhone, iPad, and iPod touch:

Brother Mobile Connect allows you to use your Brother machine's features directly from your iOS or iPadOS device.

Download and install Brother Mobile Connect from the App Store.

Troubleshooting

Use this section to resolve typical problems you may encounter when using your machine. You can correct most problems yourself.

IMPORTANT

For technical help, you must call the country where you bought the machine. Calls must be made from within that country.

(MFC-L2760DW)

To prevent you from losing the received fax data in the machine's memory, transfer the data to another Fax machine or to your computer before turning off the machine.

If you need additional help, visit support.brother.com.

First, check the following:

- The machine's power cord is connected correctly and the machine's power is on. See the *Quick Setup Guide*.
- All of the protective materials have been removed. See the *Quick Setup Guide*.
- Paper is loaded correctly in the paper tray.
- The interface cables are securely connected to the machine and the computer, or the wireless connection is set up on both the machine and your computer.
- Error and maintenance messages

If you did not solve the problem with the checks, identify the problem and then see *Related Information*.

Error and Maintenance Messages

As with any sophisticated office product, errors may occur and supply items may have to be replaced. If this happens, your machine identifies the error or required routine maintenance and shows the appropriate message. The most common error and maintenance messages are shown in the table.

Follow the instructions in the **Action** column to solve the error and remove the message.

You can correct most errors and perform routine maintenance by yourself. If you need more tips: Visit support.brother.com/faqs.

Cannot Scan ##	The machine has a mechanical problem.	<ul style="list-style-type: none"> (MFC-L2760DW) To prevent you from losing the received fax data in the machine's memory, transfer the data to another Fax machine or to your computer before turning off the machine.

Error Message	Cause	Action
		<ul style="list-style-type: none"> Remove the document. <p>Press and hold  to turn off the machine, and then turn it on again.</p> <ul style="list-style-type: none"> If the problem continues, contact Brother Customer Service or your local Brother dealer. <p>Contact Brother Customer Service at:</p> <p>1-877-BROTHER (1-877-276-8437) (in USA) www.brother.ca/support (in Canada)</p> <p>or to locate a Brother Authorized Service Center, visit: www.brother-usa.com/support</p>
Cartridge Error Put the Black(BK) Toner Cartridge back in.	The toner cartridge is not installed correctly.	<p>Pull out the drum unit and toner cartridge assembly, take out the toner cartridge, and put it back in the drum unit again. Put the drum unit and toner cartridge assembly back in the machine.</p> <p>If the problem continues, contact Brother Customer Service or your local Brother dealer.</p>
Comm.Error	Poor telephone line quality caused a communication error.	Send the fax again or connect the machine to another telephone line. If the problem continues, contact your telephone company and ask them to check the telephone line.
Cooling Down	The temperature of the inside of the machine is too hot. The machine will pause its current print job and enter cooling down mode. While the machine cools, the cooling fan runs and the LCD displays <code>Cooling Down</code> .	<p>Wait until the machine has finished cooling down. Make sure all vents on the machine are clear of obstructions.</p> <p>When the machine has cooled down, it will resume printing.</p> <p>If the fan is not spinning, disconnect the machine from the power for several minutes, then reconnect it.</p>
Cover is Open	The front cover is not completely closed.	Open and then firmly close the front cover of the machine.
	The fuser cover is not completely closed or paper was jammed in the back of the machine when you turned on the power.	Close the fuser cover located inside the back cover of the machine.
	The ADF cover is not completely closed.	<p>Close the ADF cover.</p> <p>Press and hold  to turn off the machine, wait a few minutes, and then turn it on again.</p> <p>If the problem continues, contact Brother Customer Service or your local Brother dealer.</p>
Disconnected	The other person or other person's fax machine stopped the call.	<p>Try to send or receive again.</p> <p>If calls are stopped repeatedly and you are using a VoIP (Voice over IP) system, try changing the Compatibility to Basic (for VoIP).</p>

Error Message	Cause	Action
Document Jam	The document was not inserted or fed correctly, or the document scanned from the ADF was too long.	Remove the jammed paper from the ADF unit. Clear any debris or scraps of paper from the ADF unit paper path. Press Stop/Exit .
DR Mode in Use	The machine is set to Distinctive Ring mode. You cannot change the Receive Mode from Manual to another mode.	Set Distinctive Ring to Off .
Drum ! Slide the Green tab on Drum Unit.	The corona wire on the drum unit must be cleaned.	Clean the corona wire on the drum unit. 
	The drum unit or the toner cartridge and drum unit assembly is not installed correctly.	Put the toner cartridge in the drum unit. Then reinstall the toner cartridge and drum unit assembly in the machine.
Drum End Soon	The drum unit is near the end of its life.	Order a new drum unit before you get the Replace Drum message.
Jam 2-sided (For automatic 2-sided printing models)	The paper is jammed in the 2-sided paper tray.	Pull the paper tray and the 2-sided tray out completely, open the back cover and then remove all jammed paper. Close the back cover, and put the paper tray and the 2-sided tray firmly back in the machine.
Jam Inside	The paper is jammed inside the machine.	Open the front cover and remove the toner cartridge and drum unit assembly. Pull out all jammed paper. Close the front cover. If the error message remains, press Start .
Jam Rear	The paper is jammed in the back of the machine.	Open the fuser cover and remove all jammed paper. Close the fuser cover. If the error message remains, press Start .
Jam Tray 1	The paper is jammed in the indicated paper tray.	Pull the paper tray out completely and gently remove all jammed paper. Put the paper tray firmly back in the machine.
Manual Feed	Manual was selected as the paper source in the printer driver, but there is no paper in the manual feed slot.	Place paper in the manual feed slot.
Media Mismatch	The media type specified in the printer driver differs from the paper type specified in the machine's menu.	Load the correct type of paper in the tray indicated on the LCD, or select the correct media type in the Paper Type setting on the machine.
No Caller ID	There is no incoming call history. You did not receive calls or you have not subscribed to the Caller ID service from your telephone company.	If you want to use the Caller ID feature, call your telephone company.

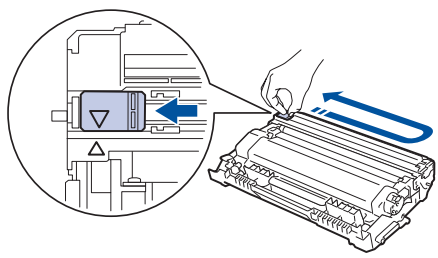

Error Message	Cause	Action
No Paper T1	The machine is out of paper, or paper is not loaded correctly in the paper trays.	<ul style="list-style-type: none"> • Refill paper in the paper trays. Make sure the paper guides are set to the correct size. • If paper is in the tray, remove it and load it again. Make sure the paper guides are set to the correct size. • Do not overfill the paper tray.
No Response/Busy	The number you dialed does not answer or is busy.	Verify the number and try again.
No Toner	The toner cartridge or the toner cartridge and drum unit assembly is not installed correctly.	<p>Remove the toner cartridge and drum unit assembly. Remove the toner cartridge from the drum unit, and reinstall the toner cartridge back in the drum unit. Reinstall the toner cartridge and drum unit assembly back in the machine. If the problem continues, replace the toner cartridge with a new one.</p> <p><i>See Related Information: Replace the Toner Cartridge.</i></p>
Out of Memory	The machine's memory is full.	<p>If a fax-sending or copy operation is in process</p> <p>Do one of the following:</p> <ul style="list-style-type: none"> • Press Start to send or copy the scanned pages. • Press Stop/Exit and wait until the other operations in progress finish, and then try again. • Print the faxes that are in the memory. • Clear the data in the memory. To gain extra memory, you can turn off Memory Receive. <p>If a print operation is in process</p> <p>Do one of the following:</p> <ul style="list-style-type: none"> • Reduce the resolution. • Clear faxes from the memory.
Replace Drum	It is time to replace the drum unit.	<p>Replace the drum unit.</p> <p><i>See Related Information: Replace the Drum Unit.</i></p>
	If this message is displayed even after replacing the drum unit with new one, the drum unit counter was not reset.	<p>Reset the drum unit counter.</p> <p><i>See Related Information: Reset the Drum Counter.</i></p>

		<p>computer before turning off the machine.</p> <ul style="list-style-type: none"> Press and hold  to turn off the machine, wait a few seconds, and then turn it on again. Leave the machine idle for 15 minutes with the power on.
Size Error DX (For automatic 2-sided printing models)	The paper size specified in the printer driver and the machine's paper size setting are not suitable for automatic 2-sided printing.	<p>Press Stop/Exit. Choose a paper size suitable for 2-sided printing.</p> <p>The paper sizes suitable for automatic 2-sided printing are Letter, Legal, Mexico Legal, India Legal and Folio.</p>
	The paper in the tray is not the correct size and is not suitable for automatic 2-sided printing.	<p>Load the correct size of paper in the tray and set the tray for that paper size.</p> <p>The paper sizes suitable for automatic 2-sided printing are Letter, Legal, Mexico Legal, India Legal and Folio.</p>
Size Mismatch	The paper in the tray is not the correct size.	Load the correct size of paper in the tray and set the size of paper to the tray.
Toner Ended	The toner cartridge is at the end of its life. The machine stops all print operations.	Replace the toner cartridge with a new one.
Toner Low	If the LCD displays this message, you can still print. The toner cartridge is near the end of its life.	Order a new toner cartridge now so a replacement toner cartridge is available when the LCD displays <i>Replace Toner</i> .
Wrong Toner	The toner cartridge installed is not correct for your machine.	<p>Remove the toner cartridge from the drum unit, and install a toner cartridge with the correct supply order number.</p> <p>See <i>Related Information: Replace the Toner Cartridge</i>.</p>

**HL-L2480DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/
MFC-L2900DWXL/MFC-L2980DW**

Error Message	Cause	Action
2-sided Disabled	The back cover of the machine is not closed completely.	Close the back cover of the machine until it locks in the closed position.
	The 2-sided tray is not installed completely.	Install the 2-sided tray firmly in the machine.
Access Denied	The function you want to use is restricted by Secure Function Lock 3.0.	Call your administrator to check your Secure Function Lock Settings.
Cannot Detect	Your machine cannot detect the drum unit.	Remove the toner cartridge and drum unit assembly. Remove the toner cartridge from the drum unit, and reinstall the toner cartridge back in the drum unit. Reinstall the toner cartridge and drum unit assembly back in the machine.
	Your machine cannot detect the toner cartridge.	

Error Message	Cause	Action
Cannot Print ##	The machine has a mechanical problem.	<ul style="list-style-type: none"> Press and hold  to turn off the machine, wait a few minutes, and then turn it on again. If the problem continues, contact Brother Customer Service or your local Brother dealer. <p>Contact Brother Customer Service at: 1-877-BROTHER (1-877-276-8437) (in USA) www.brother.ca/support (in Canada)</p> <p>or to locate a Brother Authorized Service Center, visit: www.brother-usa.com/support</p>
Cannot Scan	The document is too long for 2-sided scanning.	Press  . Use an appropriate size paper for 2-sided scanning.
Cannot Scan ##	The machine has a mechanical problem.	<ul style="list-style-type: none"> Press and hold  to turn off the machine, and then turn it on again. If the problem continues, contact Brother Customer Service or your local Brother dealer. <p>Contact Brother Customer Service at: 1-877-BROTHER (1-877-276-8437) (in USA) www.brother.ca/support (in Canada)</p> <p>or to locate a Brother Authorized Service Center, visit: www.brother-usa.com/support</p>
Cartridge Error Put the Toner Cartridge back in.	The toner cartridge is not installed correctly.	<p>Pull out the drum unit and toner cartridge assembly, take out the toner cartridge, and put it back in the drum unit again. Put the drum unit and toner cartridge assembly back in the machine.</p> <p>If the problem continues, contact Brother Customer Service or your local Brother dealer.</p>
Comm.Error	Poor telephone line quality caused a communication error.	Send the fax again or connect the machine to another telephone line. If the problem continues, contact your telephone company and ask them to check the telephone line.
Cooling Down	The temperature of the inside of the machine is too hot. The machine will pause its current print job and go into cooling down mode. During the cooling down mode, you will hear the cooling fan running while the LCD displays Cooling Down.	<p>Wait until the machine has finished cooling down. Make sure all vents on the machine are clear of obstructions. When the machine has cooled down, it will resume printing.</p> <p>If the fan is not spinning, disconnect the machine from the power for several minutes, then reconnect it.</p>

Error Message	Cause	Action
Cover is Open	The front cover is not completely closed.	Open and then firmly close the front cover of the machine.
	The fuser cover is not completely closed or paper was jammed in the back of the machine when you turned on the power.	Close the fuser cover located inside the back cover of the machine.
	The ADF cover is not completely closed.	Close the ADF cover. Press and hold  to turn off the machine, wait a few minutes, and then turn it on again. If the problem continues, contact Brother Customer Service or your local Brother dealer.
Disconnected	The other person or other person's fax machine stopped the call.	Try to send or receive again. If calls are stopped repeatedly and you are using a VoIP (Voice over IP) system, try changing the Compatibility to Basic (for VoIP).
Document Jam	The document was not inserted or fed correctly, or the document scanned from the ADF was too long.	Remove the jammed paper from the ADF unit. Clear any debris or scraps of paper from the ADF unit paper path. Press  .
DR Mode in Use	The machine is set to Distinctive Ring mode. You cannot change the Receive Mode from Manual to another mode.	Set Distinctive Ring to Off.
Drum !	The corona wire on the drum unit must be cleaned.	Clean the corona wire on the drum unit. 
	The drum unit or the toner cartridge and drum unit assembly is not installed correctly.	Put the toner cartridge in the drum unit. Then reinstall the toner cartridge and drum unit assembly in the machine.
Drum End Soon	The drum unit is near the end of its life.	Order a new drum unit before you get the Replace Drum message.
Jam 2-sided	The paper is jammed in the 2-sided paper tray.	Pull the paper tray and the 2-sided tray out completely, open the back cover and then remove all jammed paper. Close the back cover, and put the paper tray and the 2-sided tray firmly back in the machine.
Jam Inside	The paper is jammed inside the machine.	Open the front cover and remove the toner cartridge and drum unit assembly. Pull out the jammed paper. Close the front cover.
Jam Rear	The paper is jammed in the back of the machine.	Open the fuser cover and remove all jammed paper. Close the fuser cover.

Error Message	Cause	Action
		If the error message remains, press Retry .
Jam Tray 1	The paper is jammed in the indicated paper tray.	Pull the paper tray out completely and gently remove all jammed paper. Put the paper tray firmly back in the machine.
Limit Exceeded	The print limit set in Secure Function Lock 3.0 was reached.	Contact your administrator to check your Secure Function Lock settings.
Manual Feed	Manual was selected as the paper source in the printer driver, but there is no paper in the manual feed slot.	Place paper in the manual feed slot.
Media Type Mismatch	The media type specified in the printer driver differs from the paper type specified in the machine's menu.	Load the correct type of paper in the tray indicated on the LCD, or select the correct media type in the Paper Type setting on the machine.
No Caller ID	There is no incoming call history. You did not receive calls or you have not subscribed to the Caller ID service from your telephone company.	If you want to use the Caller ID feature, call your telephone company.
No Paper Tray1	The machine is out of paper, or paper is not loaded correctly in the paper trays.	<ul style="list-style-type: none"> • Refill paper in the paper trays. Make sure the paper guides are set to the correct size. • If paper is in the tray, remove it and load it again. Make sure the paper guides are set to the correct size. • Do not overfill the paper tray.
No Response/Busy	The number you dialed does not answer or is busy.	Verify the number and try again.
No Toner	The toner cartridge or the toner cartridge and drum unit assembly is not installed correctly.	Remove the toner cartridge and drum unit assembly. Remove the toner cartridge from the drum unit, and reinstall the toner cartridge back in the drum unit. Reinstall the toner cartridge and drum unit assembly back in the machine. If the problem continues, replace the toner cartridge with a new one. <i>See Related Information: Replace the Toner Cartridge.</i>
Out of Fax Memory	The machine's fax memory is full.	If you are using the Fax Preview function, delete unwanted received fax data. To print fax data, press  Settings > All Settings > Fax > Print Fax.
Out of Memory	The machine's memory is full.	If a fax-sending or copy operation is in process Do one of the following: <ul style="list-style-type: none"> • Press  or Quit, and wait until the other operations that are in progress finish, and then try again. • Press Send Now to send the pages scanned so far.

Error Message	Cause	Action
		<ul style="list-style-type: none"> Clear the data in the memory. To gain extra memory, you can turn off Memory Receive. Print the faxes that are in the memory. <p>If a print operation is in process</p> <p>Do one of the following:</p> <ul style="list-style-type: none"> Reduce the resolution. Clear faxes from the memory.
Print Data Full	The machine's memory is full.	Press  and delete the previously stored secure print data.
Replace Drum	It is time to replace the drum unit.	Replace the drum unit. <i>See Related Information: Replace the Drum Unit.</i>
	If this message is displayed even after replacing the drum unit with new one, the drum unit counter was not reset.	Reset the drum unit counter. <i>See Related Information: Reset the Drum Counter.</i>
Replace Toner	The toner cartridge is at the end of its life. The machine stops all print operations. While memory is available, faxes are stored in the memory.	Replace the toner cartridge with a new one. <i>See Related Information: Replace the Toner Cartridge.</i>
Self-Diagnostic	The fuser unit does not work correctly.	Press and hold  to turn off the machine, wait a few seconds, and then turn it on again. Leave the machine idle for 15 minutes with the power on.
	The fuser unit is too hot.	
Size Error	The paper tray you selected does not support the paper size specified in the printer driver.	Change the printer driver setting or machine's tray setting so that the paper size selected in the printer driver matches the paper size loaded in the tray you selected.
Size Error 2-sided	The paper size specified in the printer driver and the machine's paper size setting are not suitable for automatic 2-sided printing.	Press  . Choose a paper size suitable for 2-sided printing. The paper sizes suitable for automatic 2-sided printing are Letter, Legal, Mexico Legal, India Legal and Folio.
	The paper in the tray is not the correct size and is not suitable for automatic 2-sided printing.	Load the correct size of paper in the tray and set the tray for that paper size. The paper sizes suitable for automatic 2-sided printing are Letter, Legal, Mexico Legal, India Legal and Folio.
Size Mismatch	The paper in the tray is not the correct size.	Load the correct size of paper in the tray and set the size of paper to the tray.
Toner Ended	The toner cartridge is at the end of its life.	Replace the toner cartridge with a new one.

Error Message	Cause	Action
Toner Low	If the LCD displays this message, you can still print. The toner cartridge is near the end of its life.	Order a new toner cartridge now so a replacement toner cartridge is available when the LCD shows <i>Replace Toner</i> .
Touchscreen Initialization Failed	The touchscreen was pressed before the power on initialization was completed.	Make sure nothing is touching or resting on the touchscreen.
	Debris may be stuck between the lower part of the touchscreen and its frame.	Insert a piece of stiff paper between the lower part of the touchscreen and its frame and slide it back and forth to push out the debris.
Wrong Toner Cartridge	The toner cartridge installed is not correct for your machine.	Remove the toner cartridge from the drum unit, and install a toner cartridge with the correct supply order number. <i>See Related Information: Replace the Toner Cartridge.</i>

Error Messages When Using the Brother Web Connect Feature

Related Models: HL-L2480DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

Your machine displays an error message if an error occurs. The most common error messages are shown in the table.

You can correct most errors yourself. If, after reading this table, you still need help, see the latest troubleshooting tips at support.brother.com/faqs.

Connection Error

Error Messages	Cause	Action
Connection Error 02 Network connection failed. Verify that the network connection is good.	The machine is not connected to a network.	<ul style="list-style-type: none"> Make sure the eligible IP address is assigned to your machine. Check your access point/router is active and the Internet connection is established. Make sure the wireless router/access point is on. If the Web button was pressed soon after the machine was turned on, the network connection may not have been established yet. Wait and try again.
Connection Error 03 Connection failed to server. Check network settings.	<ul style="list-style-type: none"> Network or server settings are incorrect. There is a problem with the network or server. 	<ul style="list-style-type: none"> Confirm that network settings are correct, or wait and try again later. If the Web button was pressed soon after the machine was turned on, the network connection may not have been established yet. Wait and try again. <p><i>See Related Information: Configure Date and Time Using Web Based Management.</i></p>
Connection Error 07 Connection failed to server. Wrong Date & Time.	Date and time settings are incorrect.	Set the date and time correctly. Note that if the machine's power cord is disconnected, the date and time settings may have reset to factory settings.

Authentication Error

Error Messages	Cause	Action
Authentication Error 01 Incorrect PIN code. Enter PIN correctly.	The PIN you entered to access the account is incorrect. The PIN is the four-digit number that was entered when registering the account to the machine.	Enter the correct PIN.
Authentication Error 02 Incorrect or expired ID, or this temporary ID is already used. Enter correctly or reissue temporary ID. Temporary ID is valid for 24 hours after it is issued.	The temporary ID that was entered is incorrect.	Enter the correct temporary ID.
	The temporary ID that was entered has expired. A temporary ID is valid for 24 hours.	Apply for Brother Web Connect access again and receive a new temporary ID, and then use the new ID to register the account to the machine.

Error Messages	Cause	Action
Authentication Error 03 Display name has already been registered. Enter another display name.	The name you entered as the display name has already been registered to another service user.	Enter a different display name.

Server Error

Error Messages	Cause	Action
Server Error 01 Authentication failed. Do the following: 1. Go to http://bwc.brother.com to get a new temporary ID. 2. Press OK and enter your new temporary ID in the next screen.	The machine's authentication information (needed to access the service) has expired or is invalid.	Apply for Brother Web Connect access again to receive a new temporary ID, and then use the new ID to register the account to the machine.
Server Error 03 Failed to upload. Unsupported file or corrupt data. Confirm data of file.	The file you are trying to upload may have one of the following problems: <ul style="list-style-type: none"> The file exceeds the service's limit on number of pixels, file size, etc. The file type is not supported. The file is corrupted. 	<ul style="list-style-type: none"> Check the service's size or format restrictions. Save the file as a different type. If possible, get a new, uncorrupted version of the file.
Server Error 13 Service temporarily unavailable. Try again later.	There is a problem with the service and it cannot be used now.	Wait and try again. If you get the message again, access the service from a computer to confirm if it is unavailable.

Paper is Jammed in the Paper Tray

If the machine's control panel or the Status Monitor indicates that there is a jam in the paper tray, follow these steps:

1. Pull the paper tray completely out of the machine.

2. Slowly pull out the jammed paper.

Pulling the jammed paper downward using both hands allows you to remove the paper more easily.

3. Fan the stack of paper to prevent further jams, and slide the paper guides to fit the paper size. Load paper in the paper tray.

4. Make sure the paper is below the maximum paper mark (▼▼▼).

5. Put the paper tray firmly back into the machine.

Related Information

-

Paper is Jammed in the Output Paper Tray

When the paper is jammed in the output paper tray, follow these steps:

1. Use both hands to open the scanner.

2. Remove the paper.

3. Push the scanner down with both hands to close it.

✓ Related Information

- [Paper Jams](#)

Paper is Jammed in the Back of the Machine

If the machine's control panel or the Status Monitor indicates that there is a jam in the back of the machine (Jam Rear), do the following:

1. Leave the machine turned on for 10 minutes for the internal fan to cool the extremely hot parts inside the machine.
2. Open the back cover.

3. Pull the blue tabs at the left and right sides toward you to release the fuser cover.

WARNING

HOT SURFACE

The machine's internal parts will be extremely hot. Wait for the machine to cool down before touching them.

(For models with green levers) If the green envelope levers inside the back cover are pulled down in the envelope position, lift these levers to their original position before pulling the blue tabs down.

4. Use both hands to gently pull the jammed paper out of the machine.

5. Close the fuser cover.

6. Close the back cover until it locks in the closed position.

If you print envelopes on a model equipped with the green envelope levers, pull the levers down to the envelope position again and leave the back cover open.

Related Information

- [Paper Jams](#)
-

Paper is Jammed inside the Machine

If the machine's control panel or the Status Monitor indicates that there is a jam inside the machine, follow these steps:

1. Leave the machine turned on for 10 minutes for the internal fan to cool the extremely hot parts inside the machine.
2. Open the front cover.

3. Remove the toner cartridge and drum unit assembly.

⚠ WARNING

HOT SURFACE

The machine's internal parts will be extremely hot. Wait for the machine to cool down before touching them.

4. Pull out the jammed paper slowly.

5. Install the toner cartridge and drum unit assembly into the machine.

6. Close the front cover.

Related Information

- [Paper Jams](#)

Paper is Jammed in the 2-sided Tray

If the machine's control panel or the Status Monitor indicates that there is a jam in the 2-sided paper tray, follow these steps:

1. Leave the machine turned on for 10 minutes for the internal fan to cool the extremely hot parts inside the machine.
2. Pull the paper tray completely out of the machine.

3. At the back of the machine, pull the 2-sided tray completely out of the machine.

4. Pull the jammed paper out of the machine or out of the 2-sided tray.

5. Remove paper that may have jammed under the machine due to static electricity.

6. If paper is not caught inside the 2-sided tray, open the back cover.

7. Pull the blue tabs at the left and right sides toward you to release the fuser cover.

(For models with green levers) If the green envelope levers inside the back cover are pulled down in the envelope position, lift these levers to their original position before pulling the blue tabs down.

WARNING

HOT SURFACE

The machine's internal parts will be extremely hot. Wait for the machine to cool down before touching them.

8. Use both hands to gently pull the jammed paper out of the back of the machine.

9. Close the fuser cover.

10. Close the back cover until it locks in the closed position.

If you print envelopes on a model equipped with the green envelope levers, pull the levers down to the envelope position again and leave the back cover open.

11. Push the 2-sided tray firmly back into the back of the machine.

12. Push the paper tray firmly back into the front of the machine.

Right-click your model's icon, and then click See what's printing. 4. If printer driver options appear, select your printer driver. 5. Click Printer in the menu bar and make sure Use Printer Offline is not selected. <p>Mac:</p> <p>Click the System Preferences or System Settings menu, and then select the Printers & Scanners option. When the machine is offline, delete it, and then add it again.</p>
The machine is not printing or has stopped printing.	<p>Cancel the print job and clear it from the machine's memory. The printout may be incomplete. Send the print data again.</p> <p>See <i>Related Information:Cancel a Print Job</i>.</p>
The headers or footers appear when the document displays on the screen but they do not show up when it is printed.	<p>There is an unprintable area on the top and bottom of the page. Adjust the top and bottom margins in your document to allow for this.</p>
The machine prints unexpectedly or it prints garbled text.	<p>Cancel the print job and clear it from the machine's memory. The printout may be incomplete. Send the print data again.</p> <p>See <i>Related Information:Cancel a Print Job</i>.</p> <p>Check the settings in your application to make sure they are set up to work with your machine.</p>

Difficulties	Suggestions
	Confirm that the Brother printer driver is selected in your application's Print window.
The machine prints the first couple of pages correctly, then some pages have missing text.	Check the settings in your application to make sure they are set up to work with your machine.
	Your machine is not receiving all of the data sent from the computer. Make sure you connected the interface cable correctly.
Cannot print on 1-sided or 2-sided.	<p>(Windows) Change the 2-sided option in the printer driver.</p> <ul style="list-style-type: none"> • If you want to make a temporary change, select None or 2-sided in the printer driver from your application: See <i>Related Information: Print a Document (Windows)</i>. • If you want to make a permanent change, change the default printer driver settings: See <i>Related Information: Change the Default Print Settings (Windows)</i>.
The machine does not print on both sides of the paper even though the printer driver setting is 2-sided and the machine supports automatic 2-sided printing.	Check the paper size setting in the printer driver. You must select Letter, Legal, Folio, Mexico Legal, or India Legal paper. Supported paper weight is 16 to 28 lb (60 to 105g/m ²)
Print speed is too slow.	Reduce the resolution in the printer driver.
	If you have enabled Quiet Mode, disable it in the printer driver or the machine's menu.
	When printing continuously, the printing speed may be automatically reduced to lower the temperature inside the machine.
The machine does not feed paper.	If there is paper in the paper tray, make sure it is straight. If the paper is curled, straighten it. Sometimes it is helpful to remove the paper, turn the stack over and place it back in the paper tray.
	Fan the stack of paper well and place it back to the paper tray.
	Reduce the amount of paper in the paper tray, and then try again.
	(For models with Manual Feed Slot) Make sure Manual is not selected for Paper Source in the printer driver.
	Clean the paper pick-up rollers.
The machine does not feed paper from the Manual feed slot. (For models with Manual Feed Slot)	Use both hands to push one sheet of paper firmly into the manual feed slot until the top edge of the paper presses against the paper feed rollers. Continue pressing the paper against the rollers until the machine grabs the paper and pulls it in further.
	Put only one sheet of paper in the manual feed slot.
	Make sure Manual is selected as Paper Source in the printer driver.
The machine does not feed envelopes.	Load one envelope at a time in the manual feed slot. Your application must be set to print the envelope size you are using. This is usually done in the Page Setup or Document Setup menu of your application.
Print position is misaligned with the preprinted objects.	Adjust the print position using the Print Position setting for each paper tray.

Improve the Print Quality

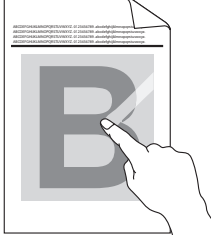

If you have a print quality problem, print a test page first. If the printout looks good, the problem is probably not the machine. Check the interface cable connections and try printing a different document. If the printout or test page printed from the machine has a quality problem, check the examples of poor print quality and follow the recommendations in the table.

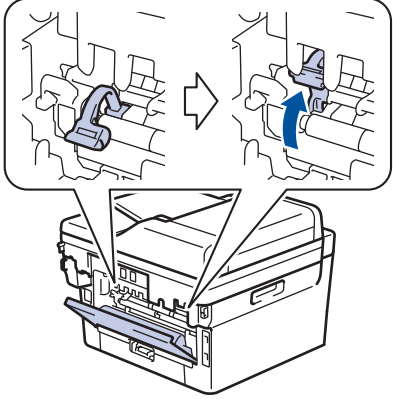

1. To get the best print quality, we suggest using recommended print media. Make sure you use paper that meets our specifications.
2. Check that the toner cartridge and drum unit are installed correctly.

Examples of poor print quality	Recommendation
 <p>ABCDEF GH abcde fghijk A B C D a b c d e 0 1 2 3 4</p> <p>Faint</p>	<ul style="list-style-type: none"> • If the machine displays the Replace Toner status, install a new toner cartridge. • Check the machine's environment. Conditions such as humidity, high temperatures, and so on, may cause this print fault. • If the whole page is too light, Toner Save mode may be turned on. Turn off Toner Save mode in the machine's menu settings or the printer driver. • Clean the drum unit. • Clean the corona wire on the drum unit. • Replace the toner cartridge with a new toner cartridge. • Replace the drum unit with a new drum unit.
 <p>ABCDEF GH abcde fghijk A B C D a b c d e 0 1 2 3 4</p> <p>Gray background</p>	<ul style="list-style-type: none"> • Check the machine's environment. Conditions such as high temperatures and high humidity can increase the amount of background shading. • Clean the drum unit. • Replace the toner cartridge with a new toner cartridge. • Replace the drum unit with a new drum unit.
 <p>B B B</p> <p>Ghosting images</p>	<ul style="list-style-type: none"> • Check the machine's environment. Conditions such as low humidity and low temperatures may cause this print quality problem. • Select the appropriate media type in the printer driver. • Clean the drum unit. • Replace the drum unit with a new drum unit. • Replace the toner cartridge with a new toner cartridge. • The fuser unit may be contaminated. Telephone and Fax Problems

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

Telephone Line or Connections

Difficulties	Suggestions
Dialing does not work. (No dial tone)	Check all line cord connections. Make sure the telephone line cord is plugged into the telephone wall jack and the LINE jack of the machine. Make sure your machine has a dial tone by pressing the Hook button in Fax mode. If you subscribe to DSL, VoIP or magicJack services, call your service provider for connection instructions.
	(Available only for some countries.) Change the Tone/Pulse setting.
	Send a manual fax by pressing Hook button, and dialing the number. Wait to hear fax-receiving tones before pressing Start button.
	If there is no dial tone, connect a known working telephone and telephone line cord to the jack. Then lift the external telephone's handset and listen for a dial tone. If there is still no dial tone, ask your telephone company to check the line and/or wall jack.
The machine does not answer when called.	Make sure the machine is in the correct receive mode for your setup. Check for a dial tone. If possible, call your machine to hear it answer. If there is still no answer, check that the telephone line cord is plugged into the telephone wall jack and the LINE jack of the machine. Make sure your machine has a dial tone by pressing the Hook button in Fax mode. If there is no ringing when you call your machine, ask your telephone company to check the line.

Handling Incoming Calls

Difficulties	Suggestions
Sending a Fax Call to the machine.	If you answered on an extension telephone, press your Fax Receive Code (the factory setting is *51). If you answered on the external telephone (connected to the EXT. jack), press the Start button to receive the fax. When your machine answers, hang up.
Custom features on a single line.	If you have Call Waiting, Call Waiting/Caller ID, Caller ID, Voice Mail, an answering machine, an alarm system or other custom feature on a single telephone line with your machine, it may create a problem sending or receiving faxes. For Example: If you subscribe to Call Waiting or some other custom service and its signal comes through the line while your machine is sending or receiving a fax, the signal can temporarily interrupt or disrupt the faxes. Brother's ECM (Error Correction Mode) feature should help overcome this problem. This condition is related to the telephone system industry and is common to all devices that send and receive information on a single, shared line with custom features. If avoiding a slight interruption is crucial to your business, we recommend using a separate telephone line with no custom features.

Receiving Faxes

Difficulties	Suggestions
Cannot receive a fax.	Check all line cord connections. Make sure the telephone line cord is plugged into the telephone wall jack and the LINE jack of the machine. If you subscribe to DSL, VoIP, or magicJack services, call your service provider for connection instructions. If you are using a VoIP system, try changing the VoIP setting to <i>Basic (for VoIP)</i> . This will lower modem speed and turn off Error Correction Mode (ECM).
	Make sure your machine has a dial tone by pressing the Hook button in Fax mode. If you hear static or interference on your fax line, contact your local telephone provider.

Difficulties	Suggestions
Cannot receive a fax.	<p>Make sure the machine is in the correct Receive Mode. This is determined by the external devices and telephone subscriber services you have on the same line as the Brother machine.</p> <ul style="list-style-type: none"> • If you have a dedicated fax line and want your Brother machine to automatically answer all incoming faxes, you should select Fax Only mode. • If your Brother machine shares a line with an external answering machine, you should select the External TAD mode. In External TAD mode, your Brother machine will receive incoming faxes automatically and voice callers will be able to leave a message on your answering machine. • If your Brother machine shares the line with a Voice Mail subscriber service, see <i>Related Information: Voice Mail</i>. • If your Brother machine is on a line with the Distinctive Ring subscriber service, see <i>Related Information: Distinctive Ring</i>. • If your Brother machine shares a line with other telephones and you want it to automatically answer all incoming faxes, you should select the Fax/Tel mode. In Fax/Tel mode, your Brother machine will receive faxes automatically and produce a pseudo/double-ring to alert you to answer voice calls. • If you do not want your Brother machine to answer any incoming faxes automatically, you should select the Manual mode. In Manual mode, you must answer every incoming call and activate the machine to receive faxes.
	<p>Another device or service at your location may be answering the call before your Brother machine answers. To test this, lower the Ring Delay setting:</p> <ul style="list-style-type: none"> • If the Receive Mode is set to Fax Only or Fax/Tel, reduce the Ring Delay to the minimum value (excluding "0"). See <i>Related Information: Set the Number of Rings Before the Machine Answers (Ring Delay)</i>. • If the Receive Mode is set to External TAD, reduce the number of rings programmed on your answering machine to two. • If the Receive Mode is set to Manual, DO NOT adjust the Ring Delay setting.
	<p>Have someone send you a test fax:</p> <ul style="list-style-type: none"> • If you received the test fax successfully, your machine is operating correctly. Remember to reset your Ring Delay or answering machine setting back to your original setting. If receiving problems recur after resetting the Ring Delay, then a person, device, or subscriber service is answering the fax call before the machine has a chance to answer. • If you were not able to receive the fax, then another device or subscriber service may be interfering with your fax reception or there may be a problem with your fax line.
	<p>If you are using a telephone answering machine (External TAD mode) on the same line as the Brother machine, make sure your answering machine is set up correctly.</p> <ol style="list-style-type: none"> 1. Plug the telephone line cord directly from the wall telephone jack to your machine's LINE jack. 2. Remove the protective cap from your machine's EXT. jack, and then plug the telephone line cord from your answering machine into the EXT. jack. 3. Set your answering machine to answer within 4 rings. If you are having problems receiving faxes or voice messages, set your answering machine to answer within 2 or 3 rings. 4. Record the outgoing message on your answering machine. <ul style="list-style-type: none"> • Record five seconds of silence at the beginning of your outgoing message. • Limit your speaking to 20 seconds. • End your outgoing message with your Fax Receive Code for people sending manual faxes. For example: "After the beep, leave a message or press *51 and Start to send a fax." 5. Set your answering machine to answer calls. 6. Set your Brother machine's Receive Mode to External TAD. See <i>Related Information: Choose the Correct Receive Mode</i>.
	<p>Make sure your Brother machine's Easy Receive feature is turned On. Easy Receive is a feature that allows you to receive a fax even if you answered the call on an external or extension telephone.</p>
	<p>If you often get transmission errors due to possible interference on the telephone line or if you are using a VoIP system, try changing the Compatibility setting to <i>Basic (for VoIP)</i>.</p>

Difficulties	Suggestions
Cannot receive a fax.	Contact your administrator to check your Secure Function Lock settings.

Sending Faxes

Difficulties	Suggestions
Cannot send a fax.	Check all line cord connections. Make sure the telephone line cord is plugged into the telephone wall jack and the LINE jack of the machine. Make sure your machine has a dial tone by pressing the Hook button in Fax mode. If you subscribe to DSL, VoIP, or magicJack services, call your service provider for connection instructions.
	Make sure you pressed Fax and the machine is in Fax mode.
	Print the Transmission Verification Report and check for an error.
	Contact your administrator to check your Secure Function Lock settings.
	Ask the other party to check that the receiving machine has paper.
Poor quality of sent faxes.	Try changing your resolution to Fine or S.Fine. Make a copy to check your machine's scanner operation. If the copy quality is poor, clean the scanner.
Transmission Verification Report says RESULT:NG.	There is probably temporary noise or static on the line. Try sending the fax again. If you are sending a PC-Fax message and get RESULT:NG on the Transmission Verification Report, your machine may be out of memory. To free up extra memory, you can turn off Fax Storage, print fax messages in memory or cancel a delayed fax. If the problem continues, ask the telephone company to check your telephone line.
	If you often get transmission errors due to possible interference on the telephone line or if you are using a VoIP system, try changing the Compatibility setting to Basic (for VoIP).
Sent faxes are blank.	Make sure you are loading the document correctly. When using the ADF, the document should be face up. When using the scanner glass, the document should be face down.
Vertical black lines when sending a fax.	Black vertical lines on faxes you send are typically caused by dirt or correction fluid on the glass strip. Clean the glass strip.

Printing received faxes

Difficulties	Suggestions
<ul style="list-style-type: none"> Condensed print Horizontal streaks Top and bottom sentences are cut off Missing lines 	<p>This is usually caused by a poor telephone connection. Do a test copy; if your copy looks good, you probably had a bad connection, with static or interference on the telephone line. Ask the other party to send the fax again.</p>
Vertical black lines when receiving	The corona wire may be dirty. Clean the corona wire in the drum unit.
	The sender's scanner may be dirty. Ask the sender to make a copy to see if the problem is with the sending machine. Try receiving from another fax machine.
Received faxes appear as split or blank pages.	Left and right margins are cut off or a single page is printed on two pages. If the received faxes are divided and printed on two pages or if you get an extra blank page, your paper size setting may not be correct for the paper you are using.
	Turn on Auto Reduction.

Set Telephone Line Compatibility for Interference and VoIP Systems

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

Problems sending and receiving faxes due to possible interference on the telephone line may be solved by reducing the modem speed to minimize errors in fax transmission. If you are using a Voice over IP (VoIP) service, we recommend changing the compatibility to Basic (for VoIP).

- VoIP is a type of phone system that uses an Internet connection, rather than a traditional phone line.
- Telephone providers frequently bundle VoIP together with Internet and cable services.

Use the Network Connection Repair Tool (Windows)

Use the Network Connection Repair Tool to fix the Brother machine's network settings. It will assign the correct IP address and Subnet Mask.

Make sure your machine is turned on and is connected to the same network as your computer.

1. Launch  (**Brother Utilities**), and then click the drop-down list and select your model name (if not already selected).
2. Click **Tools** in the left navigation bar, and then click **Network Connection Repair Tool**.
3. Follow the on-screen instructions.
4. Check the diagnosis by printing the Network Configuration Report or the Printer Settings page.

The Network Connection Repair Tool will start automatically if you select the **Enable Connection Repair Tool** option in the Status Monitor. Right-click the Status Monitor screen, and then click **Other Settings > Enable Connection Repair Tool**. This is not recommended when your network administrator has set the IP address to Static, since it will automatically change the IP address.

If the correct IP address and the Subnet Mask are still not assigned even after using the Network Connection Repair Tool, ask your network administrator for this information.

If You Are Having Difficulty with Your Machine's Network

If you think there is a problem with your machine's network environment, check the following topics. You can correct most problems yourself.

If you need additional help, visit support.brother.com/faqs.

- [I Cannot Complete the Wireless Network Setup Configuration](#)
- [My Machine Cannot Print, Scan, or Use the PC-FAX Receive Function over the Network](#)
- [I Want to Check that My Network Devices are Working Correctly](#)

I Cannot Complete the Wireless Network Setup Configuration

Turn your wireless router off and back on. Then, try to configure the wireless settings again. If you are unable to resolve the problem, follow the instructions below:

Investigate the problem using the WLAN Report.

Cause	Action	Interface
Your security settings (SSID/ Network Key) are not correct.	<p>Confirm the security settings using Wireless Setup Helper (Windows). For more information and to download the utility, go to your model's Downloads page at support.brother.com/downloads. Select and confirm that you are using the correct security settings.</p> <ul style="list-style-type: none"> - See the instructions supplied with your wireless LAN access point/router for information on how to find the security settings. - The manufacturer's name or model number of the wireless LAN access point/router may be used as the default security settings. - Consult with the access point/router manufacturer, your Internet provider, or network administrator. 	Wireless
Your Brother machine's MAC address is not allowed.	<p>Confirm that the Brother machine's MAC Address is allowed in the filter. You can find the MAC Address on your Brother machine's control panel.</p>	Wireless
Your wireless LAN access point/router is in Stealth mode (not broadcasting the SSID).	<ul style="list-style-type: none"> • Enter the correct SSID or Network Key manually. • Check the SSID or the Network Key in the instructions supplied with your wireless LAN access point/router and reconfigure the wireless network setup. 	Wireless
Your machine is trying to connect to a 5 GHz Wi-Fi network. The current channel set on your wireless LAN access point/router is not supported.	<p>Change the channel on your wireless LAN access point/router to a channel supported by your machine.</p> <ol style="list-style-type: none"> 1. Confirm the channels supported by your machine. Go to support.brother.com/g/d/a5m6/, select your model for more information. 2. Check your wireless LAN access point/router's channel setting. Make sure it is set to one of the channels supported by your machine, and not set to "Auto" or "Automatic". For more information about changing the channel setting, see the instructions supplied with your wireless LAN access point/router. 3. Try to connect your machine to your Wi-Fi network again. 	Wireless
Your security settings (SSID/ password) are not correct.	<p>Confirm the SSID and password.</p> <p>When you are configuring the network manually, the SSID and password are displayed on your Brother machine. If your mobile device supports the manual configuration, the SSID and password will be displayed on your mobile device's screen.</p>	Wi-Fi Direct
You are using Android™ 4.0.	<p>If your mobile device disconnects (approximately six minutes after using Wi-Fi Direct), try the one-push configuration using WPS (recommended) and set the Brother machine as a Group Owner.</p>	Wi-Fi Direct
Your Brother machine is placed too far from your mobile device.	<p>Move your Brother machine within about 3.3 feet (1 meter) of the mobile device when you configure the Wi-Fi Direct network settings.</p>	Wi-Fi Direct
There are some obstructions (walls or furniture, for example) between your machine and the mobile device.	<p>Move your Brother machine to an obstruction-free area.</p>	Wi-Fi Direct

Cause	Action	Interface
There is a wireless computer, Bluetooth®-supported device, microwave oven, or digital cordless phone near the Brother machine or your mobile device.	Move other devices away from the Brother machine or your mobile device.	Wi-Fi Direct
You have checked and tried all of the above, but your Brother machine still cannot complete the Wi-Fi Direct configuration.	<ul style="list-style-type: none"> • Turn your Brother machine off and back on. Then, try to configure the Wi-Fi Direct settings again. • If you are using your Brother machine as a client, confirm how many devices are allowed on the current Wi-Fi Direct network, and then check how many devices are connected. 	Wi-Fi Direct

For Windows

If your wireless connection has been interrupted, and you have checked and tried all of the above, we recommend using the Network Connection Repair Tool.

I Want to Check that My Network Devices are Working Correctly

Check	Action
Check that your Brother machine, access point/router, or network hub is turned on.	<p>Check the following:</p> <ul style="list-style-type: none"> • The power cord is connected correctly and the Brother machine is turned on. • The access point/router or hub is turned on and its link LED is blinking. • All protective packaging has been removed from the machine. • The toner cartridge and drum unit assembly is installed correctly. • The machine's cover is fully closed. • Paper is loaded correctly in the paper tray. • (For wired networks) A network cable is securely connected to the Brother machine and to the router or hub.
Check the Link Status on the Network Configuration Report or the Printer Settings page.	Print the Network Configuration Report and check that Ethernet Link Status or Wireless Link Status is Link OK .
Check that you can "ping" the Brother machine from your computer.	<p>Ping the Brother machine from your computer using the IP address or the node name in the Windows command prompt or Mac Terminal application:</p> <p>ping <ipaddress> or <nodename>.</p> <ul style="list-style-type: none"> • Successful: Your Brother machine is working correctly and connected to the same network as your computer. • Unsuccessful: Your Brother machine is not connected to the same network as your computer. <p>Windows: Ask your administrator about the IP address and the subnet mask, and then use the Network Connection Repair Tool.</p> <p>Mac: Confirm that the IP address and the Subnet Mask are set correctly.</p>
Check that your Brother machine is connected to the wireless network.	Print the WLAN Report to check the error code on the printed report. See <i>Related Information: Print the WLAN Report</i> .

If you have checked and tried all of the above but you are still having problems, see the instructions supplied with your wireless access point/router to find the SSID (Network Name) and the Network Key (Password) information and set them correctly.

Other Problems

Difficulties	Suggestions
<p>The machine will not turn on.</p>	<p>Adverse conditions on the power connection (such as lightning or a power surge) may have triggered the machine's internal safety mechanisms. Unplug the power cord. Wait for ten minutes, then plug in the power cord and press  to turn on the machine.</p> <p>If the problem is not solved, press and hold  to turn off the machine. If you are using a backup battery or surge suppressor device, disconnect it to make sure it is not the problem. Plug the machine's power cord directly into a different known working wall outlet and press  to turn on the machine.</p>
<p>The machine cannot print EPS data that includes binary with the BR-Script3 printer driver.</p>	<p>(Windows)</p> <p>To print EPS data, do the following:</p> <ol style="list-style-type: none"> 1. Hold down the  key and press the  key on the computer's keyboard to launch Run. 2. Type "control printers" in the Open: field and click OK.  <ol style="list-style-type: none"> 3. Right-click your model's icon with BR-Script3 in the name, select Printer properties. <p> If your model with BR-Script3 in the name does not appear, right-click your model's icon, select Printer properties, and then select your model with BR-Script3 in the name.</p> <ol style="list-style-type: none"> 4. From the Device Settings tab, choose TBCP (Tagged Binary Communication Protocol) in Output Protocol.
<p>The Brother software cannot be installed.</p>	<p>(Windows)</p> <p>If the Security Software warning appears on the computer screen during the installation, change the Security Software settings to permit the Brother product setup program or other program to run.</p> <p>(Mac)</p> <p>If you are using a firewall function of anti-spyware or antivirus security software, temporarily disable it and then install the Brother software.</p>

Copying difficulties

Difficulties	Suggestions
<p>Cannot make a copy.</p>	<p>Make sure you pressed Copy and the machine is in Copy mode.</p>

Difficulties	Suggestions
	Contact your administrator to check your Secure Function Lock settings.
Vertical black line appears in copies.	Black vertical lines on copies are typically caused by dirt or correction fluid on the glass strip, or the corona wire is dirty. Clean the glass strip and scanner glass and the white bar and white plastic above them.
Copies are blank.	Make sure you are loading the document correctly.

Scanning difficulties

Difficulties	Suggestions
TWAIN or WIA errors appear when starting to scan. (Windows)	Make sure the Brother TWAIN or WIA driver is selected as the primary source in your scanning application. For example, in Nuance™ PaperPort™ 14SE, click Desktop > Scan Settings > Select to select the Brother TWAIN/WIA driver.
OCR does not work.	Try increasing the scanning resolution.
Cannot scan.	Contact your administrator to check your Secure Function Lock settings.

Software difficulties

Difficulties	Suggestions
Cannot install software or print.	(Windows) Run the install program again. This program will repair and reinstall the software.

Reset Functions Overview

The following reset functions are available:

Unplug the interface cable before you choose Network Settings Reset function, All Settings Reset function or Factory Reset function.

>> [HL-L2465DW/DCP-L2640DW/MFC-L2760DW](#)

>> [HL-L2480DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW](#)

HL-L2465DW/DCP-L2640DW/MFC-L2760DW

Subdivided reset functions are not available for some models.

1. Machine Reset

This function resets the following settings:

- Programmed fax jobs in the memory (For MFC Models)
(Delayed Fax)
- Coverpage Message (For MFC Models)
- Remote Fax Options (For MFC Models)
(Remote Access Code, Fax Storage, Fax Forwarding, and PC-Fax Receive (Windows only))
- Language Setting

2. Network Settings Reset (For Network Models)

Reset the print server to its default factory settings (including all IP Address information except the administrator password).

3. Address Book and Fax Settings Reset (For MFC Models)

This function resets the following settings:

- Address Book
(Shortcut / Speed Dial / Setup Groups)
- Programmed fax jobs in the memory
- Station ID
(name and number)
- Coverpage Message
- Remote Fax Options
(Remote Access Code, Fax Storage, Fax Forwarding, and PC-Fax Receive (Windows only))
- Report
(Transmission Verification Report/ Tel Index List/Fax Journal)
- Setting Lock password

4. All Settings Reset

You can reset all the machine's settings back to the settings that were set at the factory.

All Settings Reset takes less time than Factory Reset.

5. Factory Reset

Use the Settings Reset function to reset all of the machine's settings to the settings originally set at the factory.

Factory Reset takes more time than All Settings Reset.

We strongly recommend you perform this operation when you dispose of the machine.

1. Machine Reset

You can reset all the machine's settings that you have changed, such as Date and Time and Ring Delay. The Address Book, fax reports, and Call history will remain. (For MFC Models)

2. Network Settings Reset (For Network Models)

Reset the print server to its default factory settings (including all IP Address information except the administrator password).

3. Address Book and Fax Settings Reset (For MFC Models)

This function resets the following settings:

- Address Book
(Addresses and Groups)
- Programmed fax jobs in the memory
- Station ID
(name and number)
- Coverpage Message
- Remote Fax Options
(Remote Access Code, Fax Storage, Fax Forwarding, and PC-Fax Receive (Windows only))
- Report
(Transmission Verification Report/ Tel Index List/Fax Journal)
- Setting Lock password

4. All Settings Reset

You can reset all the machine's settings back to the settings that were set at the factory.

All Settings Reset takes less time than Factory Reset.

5. Factory Reset

Use the Settings Reset function to reset all of the machine's settings to the settings originally set at the factory.

Factory Reset takes more time than All Settings Reset.

We strongly recommend you perform this operation when you dispose of the machine.

Replace Supplies

You must replace supplies when the machine indicates that the life of the supply is over.

The toner cartridge and drum unit are two separate supplies. Make sure both are installed as an assembly. The order number of supplies may vary depending on the country.

NOTE

- Be sure to seal the used supplies tightly in a bag so that toner powder does not spill out of the cartridge.
- Brother is committed to minimizing the environmental impact due to waste. For more information on recycling options, contact your local recycling office or visit:
- We recommend placing both the new and the used supplies on a piece of paper to prevent accidentally spilling or scattering the contents.
- Using paper that is not a direct equivalent for a recommended print media may reduce the life of supplies and machine parts.
- The projected life for each of the toner cartridges is based on ISO/IEC 19752. Frequency of replacement will vary depending on the print volume, percentage of coverage, types of media used, and powering on/off the machine.
- Frequency of replacing supplies except toner cartridges will vary depending on the print volume, types of media used, and powering on/off the machine.
- Handle the toner cartridge carefully. If toner scatters on your hands or clothes, immediately wipe or wash it off with cold water.

IMPORTANT

To avoid print quality problems, DO NOT touch the shaded parts shown in the illustrations.

Replace the Toner Cartridge

1. Make sure the machine is turned on.
2. Open the front cover.

3. Remove the toner cartridge and drum unit assembly from the machine.

4. Push down the green lock lever and take the toner cartridge out of the drum unit.

5. Unpack the new toner cartridge.
6. Remove the protective cover.

-
7. Hold the toner cartridge by the handle and shake it from left to right several times, as shown. Then push it firmly into the drum unit until it locks into place.

Make sure you put the toner cartridge in correctly or it may separate from the drum unit.

8. Clean the corona wire inside the drum unit by gently sliding the green tab from left to right and right to left several times.

Be sure to return the tab to the Home position (▲). The arrow on the tab must be aligned with the arrow on the drum unit. If it is not, printed pages may have a vertical stripe.

9. Reinsert the toner cartridge and drum unit assembly back into the machine.

10. Close the front cover of the machine.

-
- After replacing a toner cartridge, **DO NOT** turn off the machine or open the front cover until the machine's display returns to Ready Mode.
 - The toner cartridge that comes with your Brother machine is a Starter toner cartridge.
 - It is a good idea to keep a new toner cartridge ready for use when you see the Toner Low warning.
 - **DO NOT** unpack the new toner cartridge until you are ready to install it.
 - If a toner cartridge is left unpacked for a long time, the toner life will be shortened.
 - We recommend using genuine Brother supplies to ensure stable print quality and performance. Although not all non-genuine supplies may cause quality issues, it is possible that some may adversely affect print quality or cause machine malfunction. Brother may charge for repairing your machine if it is proven that non-genuine supplies caused the damage, even if the machine is still covered by the warranty.

Replace the Drum Unit

1. Make sure the machine is turned on.
2. Open the front cover.

3. Remove the toner cartridge and drum unit assembly from the machine.

4. Push down the green lock lever and take the toner cartridge out of the drum unit.

5. Unpack the new drum unit.
6. Push the toner cartridge firmly into the new drum unit until it locks into place.

Make sure you put the toner cartridge in correctly or it may separate from the drum unit.

-
7. Reinsert the toner cartridge and drum unit assembly back into the machine.

8. Close the front cover of the machine.

After installing the new drum unit, you must reset the drum counter. See *Related Information: Reset the Drum Counter*.

NOTE

- Drum wear and tear occurs due to use and rotation of the drum and interaction with paper, toner, and other materials in the paper path. In designing this product, Brother decided to use the number of rotations of the drum as a reasonable determinant of the drum life. When a drum reaches the factory-established rotation limit corresponding to the rated page yield, the product's LCD will advise you to replace the drum. The product will continue to function; however, print quality may not be optimal.
- If an unpacked drum unit is placed in direct sunlight (or room light for long periods of time), the unit may be damaged.
- There are many factors that determine the actual drum life, such as the temperature, humidity, type of paper, type of toner used and so on. Under ideal conditions, the average drum life is estimated at approximately 15,000 pages based on one page per job (A4/Letter single-sided pages). The number of pages may be affected by a variety of factors including, but not limited to, media type and media size.
Because we have no control over the many factors that determine the actual drum life, we cannot guarantee a minimum number of pages that will be printed by your drum.
- The machine should be used only in a clean, dust-free environment with adequate ventilation.
We recommend using genuine Brother supplies to ensure stable print quality and performance. Although not all non-genuine supplies may cause quality issues, it is possible that some may adversely affect print quality or cause machine malfunction. Brother may charge for repairing your machine if it is proven that non-genuine supplies caused the damage, even if the machine is still covered by the warranty.

Clean the Machine

Clean the outside and inside of the machine regularly with a dry, lint-free cloth.

When you replace the toner cartridge or the drum unit, make sure you clean the inside of the machine. If printed pages are stained with toner, clean the inside of the machine with a dry, lint-free cloth.

WARNING

DO NOT use flammable substances, any type of spray, or an organic solvent/liquid containing alcohol or ammonia to clean the inside or outside of the product. Doing so could cause a fire. Instead, use only a dry, lint-free cloth.

IMPORTANT

- DO NOT use isopropyl alcohol to remove dirt from the control panel. It may crack the panel.
- To avoid print quality problems, DO NOT touch the shaded parts shown in the illustrations.

Toner cartridge

Drum unit

(For certain models) The toner cartridge features an IC chip. DO NOT touch this surface. Touching the IC chip may cause contamination or damage, and may interfere with the machine's ability to detect this component.

Pack and Ship Your Machine

WARNING

When you move the machine, carry the machine as shown in the illustration.

- If for any reason you must ship your machine, carefully repack the machine in the original packaging to avoid any damage during transit. The machine should be adequately insured with the carrier.
- Unless you are returning the machine as part of the Brother Exchange Service, leave the toner cartridge and drum unit inside the machine when you pack and ship it.

1. Press and hold  to turn off the machine. Leave the machine off for at least 10 minutes to cool down.
2. Disconnect all the cables, and then unplug the power cord from the AC power outlet.

Some models are equipped with a non-detachable AC power cord. If your cord is not detachable, fold it loosely and rest it on top of the machine so it packs easily.

3. Put the machine into the bag it originally came in.
4. Pack the machine, the printed materials, and the AC power cord (if applicable) in the original carton with the original packing material as shown. (The original packing material may differ depending on your country.) If

you are returning your machine to Brother as part of the Exchange Service, pack only the machine. The illustrations may differ from the actual packing materials. The materials vary depending on your model.

5. Close the carton and tape it shut.

Set the Continue Mode

The Continue Mode forces the machine to continue printing after the control panel displays "Replace Toner".

The machine will continue printing until the LCD displays "Toner Ended".

The factory setting is "Stop".

- When the control panel indicates an error, you cannot change the mode.
- If you continue printing in the Continue Mode, we cannot guarantee the print quality.
- While using Continue Mode the print may appear faint.
- After replacing the toner cartridge with a new one, the Continue Mode will go back to the factory setting ("Stop").

Learn About Receiving Faxes in Continue Mode

Related Models: MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

The machine can store received faxes in the memory if you choose the Continue Mode when the LCD displays Replace Toner.

When received faxes are printed in Continue Mode the LCD will ask if the print quality of the fax is OK.

If the quality is not good, choose No. The machine will keep the faxes stored in the memory so you can reprint them after you replace the toner cartridge with a new one. If the print quality is good, choose Yes. The LCD will ask if you want to delete the printed faxes from the memory.

If you choose not to delete them, you will be asked again after you replace the toner cartridge with a new one.

- (MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL)
The machine can store up to 400 faxes in memory.
- (MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW)
The machine can store up to 500 faxes in memory.
- (MFC-L2760DW)
If you turn off the power switch faxes in memory will be lost.
- The machine will keep faxes stored in Continue Mode even if you change the Continue setting to Stop.
- If you install a new toner cartridge when the LCD displays Toner Ended, the machine will ask if you want to print the stored faxes. Choose Print to print stored faxes.

Toner End in Continue Mode

When the LCD displays Toner Ended, the machine will stop printing. If the memory is full and you want to continue receiving faxes, you must install a new toner cartridge.

Add Shortcuts

Related Models: HL-L2480DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2900DW/MFC-L2900DWXL/MFC-L2980DW

You can add the Fax, Copy, Scan, Web Connect and Apps settings you use most frequently by saving them as your Shortcuts. Later you can press the Shortcut to apply these settings instead of manually re-entering them.

Some Shortcut menus are not available depending on your model.

These instructions describe how to add a Copy Shortcut. The steps for adding a Fax, Scan, Web Connect, or Apps Shortcut are very similar.

1. Press  Shortcuts ([Shortcuts]).
2. Press the button where you have not added a Shortcut.
3. Press ▲ or ▼ to display [Copy], and then press [Copy].
4. Press the copy preset you want.
5. Press  ([Options]).
6. Press ▲ or ▼ to display the available settings, and then press the setting you want to change.
7. Press ▲ or ▼ to display the available options for the setting, and then press the option you want.
Repeat these two steps until you have selected all the settings and options you want, and then press [OK].
8. When you have finished changing settings, press [OK].
9. Read and confirm the displayed list of settings you have selected, and then press [OK].
10. Enter a name for the Shortcut using the LCD, and then press [OK].

- [Print a Report](#)

Reports

The following reports are available:

Transmission (For models with facsimile function)

The Transmission report prints a Transmission Verification Report of your last transmission.

Address Book (For models with facsimile function)

The Address Book report prints a list of names and numbers stored in the Address Book memory.

Fax Journal (For models with facsimile function)

The Fax Journal prints a list of information about your last 200 incoming and outgoing faxes. (TX means Transmit, RX means Receive.)

User Settings

The User Settings report prints a list of your current settings.

Printer Settings

The Printer Settings report prints a list of your current printer settings.

Network Configuration (Models with network functionality)

The Network Configuration report prints a list of your current network settings.

Print File List

The Print File List prints a list of the fonts and print macro/stream setting stored in the machine.

Drum Dot Print

The Drum Dot Print prints the drum dot sheet, which helps when it is time to clean the drum unit.

WLAN Report (Models with wireless network functionality)

The WLAN Report prints the wireless LAN connectivity diagnosis.

Caller ID History (For models with facsimile function)

The Caller ID History report prints a list of the available Caller ID information for the last 30 received faxes and telephone calls.

[General Setup]

[General Setup]

Level 3	Level 4	Level 5	Descriptions
Default Mode	-	-	Select the default mode.
Mode Timer	-	-	Set the idle time before the machine returns to the default mode.
Tray Setting	Paper Type	-	Set the type of paper in the paper tray.
	Paper Size	-	Set the paper size in the paper tray.
	Print Position	X Offset	Move the print start position (at the upper left corner of pages) horizontally from -500 (left) to +500 (right) dots in 300 dpi.
		Y Offset	Move the print start position (at the upper left corner of pages) vertically from -500 (up) to +500 (down) dots in 300 dpi.
Check Paper	-	Select whether to display a message telling you to check that the size and type of the paper in the machine and the machine's Paper Size and Paper Type settings match.	
Volume	Ring	-	Adjust the ring volume.
	Beep	-	Adjust the beeper volume.
	Speaker	-	Adjust the speaker volume.
Ecology	Eco Mode	-	Turn on the following machine settings at the same time: <ul style="list-style-type: none"> 2-sided Print:Long Edge ¹(available for certain models) Sleep Time:0Min Quiet Mode:On ¹ Toner Save:On ¹
	Toner Save	-	Increase the page yield of the toner cartridge.
	Sleep Time	-	Set the number of minutes before the machine enters Sleep mode.
	Quiet Mode	-	Decrease printing noise.
	Auto Power Off	-	Set the number of hours that the machine will remain in Deep Sleep mode before going into Power Off mode.
LCD Contrast	-	-	Adjust the LCD contrast.
Security	TX Lock	-	Prohibit most operations except receiving faxes.
	Setting Lock	-	Restrict unauthorized users from changing the machine's settings.
Replace Toner	-	-	Set the machine to continue printing after the LCD displays Replace Toner.

1 Changing this setting is possible only after you change certain machine settings in Web Based Management.

[Fax]

[Fax]

Level 3	Level 4	Level 5	Descriptions
Setup Receive	Receive Mode	-	Select the receive mode that best suits your needs.
	Ring Delay	-	Set the number of rings before the machine answers in Fax or Fax/Tel mode.
	F/T Ring Time	-	Set the length of the pseudo/double-ring time in Fax/Tel mode.
	Easy Receive	-	Receive fax messages automatically when you answer a call and hear fax tones.
	Remote Codes	-	Answer calls at an extension or external telephone and use codes to turn on or off the Remote Codes. You can personalize the codes.
	Auto Reduction	-	Reduce the size of incoming faxes.
	Fax Rx Stamp	-	Print the received time and date on the top of incoming faxes.
	2-sided	-	Print incoming faxes on both sides of the paper.
Setup Send	Fax Resolution	-	Set the default resolution for outgoing faxes.
	Contrast	-	Change the lightness or darkness of faxes you send.
	Glass ScanSize	-	Adjust the scan area of the scanner glass to the size of the document.
	Real Time TX	-	Send a fax without using the memory.
	Overseas Mode	-	If you are having difficulty sending faxes overseas, set this to On.
	Coverpage Msg	5.	Set up your own comments for the fax cover page.
		6.	
	Auto Redial	-	Set the machine to redial the last fax number after five minutes, if the fax did not go through because the line was busy.
Destination	-	Set the machine to display the destination information on the LCD during fax dialing.	
Block List	Register	-	Register specific fax numbers to the blocked list to avoid receiving faxes from the numbers.
	Delete	-	Delete the number from the blocked list.
	Print report	-	Print a list of registered fax numbers in the blocked list.
Report Setting	Transmission	-	Select the initial setup for the Transmission Verification Report.
	Journal Period	-	Set the interval for automatic printing of the Fax Journal. If you select an option other than Off and Every 50 Faxes, you can set the time for the option. If you select Every 7 Days, you can set the day of the week.
Memory Receive	Forward/Store	-	Set the machine to forward fax messages or to store incoming faxes in the memory (so you can retrieve them while you are away from your machine).
	PC Fax Receive	-	Set the machine to send faxes to your PC.

Level 3	Level 4	Level 5	Descriptions
Memory Receive	Remote Access	-	Set your own code for Remote Retrieval.
	Print Fax	-	Print incoming faxes stored in the machine's memory.
Dial Restrict.	Dial Pad	-	Restrict the dialing when using the dial pad.
	Shortcut	-	Set the machine to restrict the dialing of Shortcut numbers.
	Speed Dial	-	Set the machine to restrict the dialing of Speed Dial numbers.
Remaining Jobs	-	-	Check which scheduled jobs are in the machine's memory and cancel selected jobs.
Miscellaneous	Distinctive (US and Canada only)	Distinctive	Turn on the telephone company's Distinctive Ring subscriber service to register your new ring pattern on the machine.
		Ring Pattern	Register your new ring pattern on the machine.
	Caller ID (Available only for certain countries)	-	Enable or disable displaying the number (or name) of the party calling you. Before you use this function, confirm that the Caller ID setting is set to On.

[Copy]

[Copy]

Level 3	Level 4	Descriptions
Density	-	Adjust the density.
Quality	-	Choose the Copy resolution for your type of document.
Contrast	-	Adjust the contrast for copies.
ID Copy	Density	Adjust the density.
	Quality	Choose the Copy resolution for your type of document.
	Contrast	Adjust the contrast for copies.
	2in1/1in1	Make 2 in 1 ID copies.

[Printer]

[Printer]

Level 3	Level 4	Descriptions
Resolution	-	Select a print resolution.
Density	-	Increase or decrease the print density.
Test Print	-	Print a test page.
2-sided (For automatic 2-sided printing models)	2-sided Print	Turn 2-sided printing off or on and select flip on long edge or short edge.
	Single Image	For a print job where the last page is a 1-sided image, select the 1-sided Feed option to reduce printing time.
Auto Continue	-	Select this setting if you want the machine to clear paper size errors, and to use the paper in the tray.
PrintPosition	-	Access the Print Position setting menus.
Reset Printer	-	Restore the machine settings to the factory settings.

[Network] (For Models with Network Functionality)

[Network]

Level 3	Level 4	Level 5	Level 6	Descriptions
WLAN (Wi-Fi) (For wireless models)	Find Network	-	-	Configure your wireless network settings manually.
	TCP/IP	Boot Method	-	Select the Boot method that best suits your needs.
		IP Address	-	Enter the IP address.
		Subnet Mask	-	Enter the Subnet mask.
		Gateway	-	Enter the Gateway address.
		Node Name	-	Enter the Node name. (Up to 32 characters)
		WINS Config	-	Select the WINS configuration mode.
		WINS Server	Primary	Specify the IP address of the primary WINS server.
			Secondary	Specify the IP address of the secondary WINS server.
		DNS Server	Primary	Specify the IP address of the primary DNS server.
			Secondary	Specify the IP address of the secondary DNS server.
	APIPA	-	Set the machine to allocate the IP address from the link-local address range automatically.	
	IPv6	-	Turn the IPv6 protocol on or off.	
	WPS/PushButton	-	-	Configure your wireless network settings using the one-button push method.
	WPS/PIN Code	-	-	Configure your wireless network settings using WPS with a PIN.
	Recover WLAN	-	-	Reset and restart your wireless network.
	WLAN Status	Status	-	View the current wireless network status.
		Signal	-	View the current wireless network signal strength.
		Channel	-	View the current wireless network channel.
		Speed	-	View the current wireless network speed.
		SSID	-	View the current SSID.
		Comm. Mode	-	View the current Communication mode.
	MAC Address	-	-	View the machine's MAC address.
WLAN Enable	-	-	Turn the WLAN on or off manually.	
Wi-Fi Direct (For wireless models)	Manual	-	-	Configure your Wi-Fi Direct network settings manually.
	Group Owner	-	-	Set your machine as the Group Owner.
	Push Button	-	-	Configure your Wi-Fi Direct network settings using the one-button push method.

Level 3	Level 4	Level 5	Level 6	Descriptions
Wi-Fi Direct (For wireless models)	PIN Code	-	-	Configure your Wi-Fi Direct network settings using WPS with a PIN code.
	Device Info.	Device Name	-	View your machine's device name.
		SSID	-	View the Group Owner's SSID. When the machine is not connected, the LCD displays Not Connected.
		IP Address	-	View your machine's current IP Address.
	Status Info.	Status	-	View the current Wi-Fi Direct network status.
		Signal	-	View the current Wi-Fi Direct network signal strength. When your machine acts as Group Owner, the LCD always indicates a strong signal.
		Channel	-	View the current Wi-Fi Direct network channel.
		Speed	-	View the current Wi-Fi Direct network speed.
	I/F Enable	-	-	Turn the Wi-Fi Direct connection on or off.
	Web Based Mgmt	-	-	-
Global Detect	Allow Detect	-	-	Enable or disable Global Detect, a function that detects and notifies the user when the user unintentionally connects to a global network.
	Reject Access	-	-	Disable connections to the global network.
Network Reset	-	-	-	Restore all network settings back to the factory settings.

[Print Reports]

[Print Reports]

Level 3	Level 4	Descriptions
Transmission	View on LCD	Display a Transmission Verification Report of your last transmission.
	Print report	Print a Transmission Verification Report of your last transmission.
Address Book	Numeric	Print a list of names and numbers stored in the Address Book, in numerical order.
	Alphabetic	Print a list of names and numbers stored in the Address Book, in alphabetical order.
Fax Journal	-	Print a list of information about your last 200 incoming and outgoing faxes. (TX means Transmit. RX means Receive.)
User Settings	-	Print a list of your User settings.
Print Settings	-	Print a list of your Printer settings.
Network Config	-	Print a list of your Network settings.
Drum Dot Print	-	Print the Drum Dot Check Sheet.
WLAN Report (For wireless models)	-	Print the wireless LAN connection results.

Level 3	Level 4	Descriptions
Caller ID (Available only for some countries.)	-	Print a list of the Caller ID History.

[Machine Info.]

[Machine Info.]

Level 3	Level 4	Descriptions
Serial No.	-	Check your machine's serial number.
Version	Main Version	Check your machine's firmware version.
	Security Ver.	
Page Counter	Total	Check the total number of pages the machine has printed during its life.
	Fax	
	Copy	
	Print	
	Other	
Parts Life	Toner	View the approximate remaining toner life.
	Drum	You can check the percentage of Drum life that remains available.

[Initial Setup]

[Initial Setup]

Level 3	Level 4	Descriptions
Date & Time	Date & Time	Add the date and time on the screen and in the headings of the faxes you send.
	Auto Daylight	Set the machine to change automatically for Daylight Saving Time.
	Time Zone	Set your time zone.
Station ID	-	Enter your name and fax number so it appears on each page you fax.
Tone/Pulse	-	Select the dialing mode.
Dial Tone	-	Shorten the dial tone detection pause.
Dial Prefix	-	Set a prefix number to be added before the fax number every time you dial.
Compatibility	-	Adjust the equalization for transmission difficulties. VoIP service providers offer fax support using various standards. If you regularly experience fax transmission errors, select Basic (for VoIP).
Reset	Machine Reset	Restore all the machine settings that you have changed.
	Network Reset (For models with network functionality)	Restore all network settings back to the factory settings.
	Address & Fax	Erase all stored phone numbers and fax settings.
	All Settings	Restore all the machine's settings back to the factory settings.
	Factory Reset	Restore all the machine's settings to the factory defaults. Perform this operation when you dispose of your machine.

Level 3	Level 4	Descriptions
Local Language (available for certain models)	-	Change your LCD language.

Tray Setting	Paper Type	-	Set the type of paper in the paper tray.
	Paper Size	-	Set the paper size in the paper tray.
	Print Position	X Offset	Move the print start position (at the upper left corner of pages) horizontally from -500 (left) to +500 (right) dots in 300 dpi.
		Y Offset	Move the print start position (at the upper left corner of pages) vertically from -500 (up) to +500 (down) dots in 300 dpi.

Level 3	Level 4	Level 5	Descriptions
Tray Setting	Check Paper	-	Select whether to display a message telling you to check that the size and type of the paper in the machine and the machine's Paper Size and Paper Type settings match.
Volume	Ring	-	Adjust the ring volume.
	Beep	-	Adjust the beeper volume.
	Speaker	-	Adjust the speaker volume.
LCD Settings	Backlight	-	Adjust the brightness of the LCD backlight.
	Dim Timer	-	Set how long the LCD backlight stays on after returning to the Home screen.
Screen Settings	Home Screen	-	Set the Main Home screen.
	Scan Screen	-	Set the default Scan screen settings.
	Display Information	IP Address	Select whether or not to display your machine's IP Address on the Home screens.
Ecology	Eco Mode	-	Turn on the following machine settings at the same time: <ul style="list-style-type: none"> • 2-sided Print:Long Edge ¹ (available for certain models) • Sleep Time:0 Min (available for certain models) • Dim Timer:10 Secs • Quiet Mode:On ¹ • Toner Save:On ¹
	Toner Save	-	Increase the page yield of the toner cartridge.
	Sleep Time (available for certain models)	-	Set the number of minutes before the machine enters Sleep mode.
	Quiet Mode	-	Decrease printing noise.
	Auto Power Off	-	Set the number of minutes or hours before the machine enters Power Off mode. Choose <i>Off</i> if you do not want the machine to go into Power Off mode.
Setting Lock	-	-	Restrict unauthorized users from changing the machine's settings.
Replace Toner	-	-	Set the machine to continue printing after the LCD displays <i>Replace Toner</i> .

¹ Changing this setting is possible only after you change certain machine settings in Web Based Management.

[Shortcut Settings]

[All Settings] > [Shortcut Settings]

Level 3	Level 4	Descriptions
(Select shortcut button.)	Rename	Change the shortcut name.
	Edit	Change the shortcut settings.
	Delete	Delete the shortcut.
	Register Card/NFC (available for certain models)	Assign a shortcut to an ID card.
	Delete Card/NFC (available for certain models)	Remove a shortcut from an ID card.

[Fax]

[All Settings] > [Fax]

Level 3	Level 4	Level 5	Descriptions	
Setup Receive	Ring Delay	-	Set the number of rings before the machine answers in Fax or Fax/Tel mode.	
	Receive Mode	-	Select the Receive Mode that best suits your needs.	
	F/T Ring Time	-	Set the length of the pseudo/double-ring time in Fax/Tel mode.	
	Fax Preview	-	View received faxes on the LCD.	
	Easy Receive	-	Receive fax messages automatically when you answer a call and hear fax tones.	
	Remote Codes	Remote Codes	-	Answer calls at an extension or external telephone and use codes to turn on or off the Remote Codes. You can personalize the codes.
		Fax Receive Code		
		Tel Answer		
	Auto Reduction	-	Reduce the size of incoming faxes.	
	PC Fax Receive	-	Set the machine to send faxes to your computer. You can turn on the Backup Print safety feature.	
	Memory Receive	Off	-	-
		Fax Forward	-	Set the machine to forward fax messages or to store incoming faxes in the memory (so you can retrieve them while you are away from your machine). If you select Fax Forward or Fax Storage, you can turn on the Backup Print safety feature.
		Fax Storage		
		Forward to Cloud	-	Forward incoming faxes to the online service.
Forward to Network (available for certain models)		-	Forward incoming faxes to a network destination.	
Fax Rx Stamp	-	Print the received time and date on the top of incoming faxes.		
2-sided	-	Print incoming faxes on both sides of the paper.		
Setup Send	Coverpage Message	5.	Set up your own comments for the fax cover page.	
		6.		
	Auto Redial	-	Set the machine to redial the last fax number after five minutes, if the fax did not go through because the line was busy.	
Destination	-	Set the machine to display the destination information on the LCD during fax dialing.		
Incoming limit	Limit method	-	Select a method for incoming fax restriction.	
Report Setting	Transmission	-	Select the initial setup for the Transmission Verification Report.	
	Journal Period	Journal Period	Set the interval for automatic printing of the Fax Journal.	
		Time	If you select an option other than Off and Every 50 Faxes, you can set the time for the option.	

Level 3	Level 4	Level 5	Descriptions
Report Setting	Journal Period	Day	If you select Every 7 Days, you can set the day of the week.
Print Fax	-	-	Print incoming faxes stored in the machine's memory.
Remote Access	-	-	Set your own code for Remote Retrieval.
Dial Restriction	Dial Pad	-	Restrict the dialing when using the dial pad.
	Address Book	-	Restrict the dialing when using the Address Book.
	Shortcuts	-	Restrict the dialing when using a Shortcut.
Remaining Jobs	-	-	Check which scheduled jobs are in the machine's memory and cancel selected jobs.
Miscellaneous	Distinctive	Distinctive	Turn on the telephone company's Distinctive Ring subscriber service to register your new ring pattern on the machine.
		Ring Pattern	Register your new ring pattern on the machine.
	Caller ID (Available only for some countries.)	-	Enable or disable displaying the number (or name) of the party calling you. Before you use this function, confirm that the Caller ID setting is set to On.

[Printer]

[All Settings] > [Printer]

For Printer Emulation Supported models

Level 3	Level 4	Level 5	Descriptions
Emulation	-	-	Select the emulation mode.
Resolution	-	-	Select a print resolution.
Density	-	-	Increase or decrease the print density.
Print Settings	-	-	Set your print settings to Text or Graphics.
Print Options	Font List	HP LaserJet	Print a list of the machine's internal fonts.
		BR-Script 3	
	Test Print	-	Print a test page.
2-sided	2-sided Print	-	Enable or disable 2-sided printing and choose long edge or short edge.
	Single Image	-	For a print job where the last page is a 1-sided image, select the 1-sided Feed option to reduce printing time.
Auto Continue	-	-	Select this setting if you want the machine to clear paper size errors, and to use the paper in the tray.
Paper Type	-	-	Set the paper type.
Paper Size	-	-	Set the paper size.
Copies	-	-	Set the number of printed pages.
Orientation	-	-	Set pages to print in either portrait or landscape orientation.
Print Position	X Offset	-	Access the Print Position setting menus.
	Y Offset	-	
Auto FF	-	-	Allow the machine to print any remaining data automatically.
HP LaserJet	Font No.	Font No.	Set the font number.

Level 3	Level 4	Level 5	Descriptions
HP LaserJet	Font No.	Soft Font No.	Set the soft font number. This menu appears if a soft font is installed on your Brother machine.
	Font Pitch	-	Set the font pitch. (Available only for certain fonts.)
	Font Point	-	Set the font size. (Available only for certain fonts.)
	Symbol Set	-	Select the symbol or character set.
	Table Print	-	Print the code table.
	Auto LF	-	ON: CR -> CR+LF, OFF: CR -> CR
	Auto CR	-	ON: LF -> LF+CR, FF -> FF+CR, or VT -> VT+CR OFF: LF -> LF, FF -> FF, or VT -> VT
	Auto WRAP	-	Select whether you want a line feed and carriage return when the carriage position reaches the right margin.
	Auto SKIP	-	Select whether you want a line feed and carriage return when the carriage position reaches the bottom margin.
	Left Margin	-	Set the left margin at column 0 to 70 columns at 1 cpi.
	Right Margin	-	Set the right margin at column 10 to 80 columns at 1 cpi.
	Top Margin	-	Set the top margin distance from the top edge of the paper.
	Bottom Margin	-	Set the bottom margin distance from the bottom edge of the paper.
	Lines	-	Set the number of lines on each page.
Tray Command	-	Select this setting if a tray mismatch appears when you use the HP drivers.	
BR-Script 3	Error Print	-	Choose whether the machine prints the error information when errors occur.
PDF	Multiple Page	-	Set the page layout when printing multiple pages.
	PDF Print Options	-	Set the PDF Print setting to print either comments (Markup) or stamps in the PDF file, along with the text.
	PDF Fit to Page	-	Select if the machine scales or resizes the pages in the PDF file to fit the selected paper size.
Reset Printer	-	-	Restore the machine settings to the factory settings.

For the Other models

Level 3	Level 4	Descriptions
Resolution	-	Select a print resolution.
Density	-	Increase or decrease the print density.
Test Print	-	Print a test page.
2-sided (For automatic 2-sided printing models)	2-sided Print	Turn 2-sided printing off or on and select flip on long edge or short edge.
	Single Image	For a print job where the last page is a 1-sided image, select the 1-sided Feed option to reduce printing time.
Auto Continue	-	Select this setting if you want the machine to clear paper size errors, and to use the paper in the tray.
Print Position	X Offset	Access the Print Position setting menus.
	Y Offset	
Reset Printer	-	Restore the machine settings to the factory settings.

[Network]

[All Settings] > [Network]

Level 3	Level 4	Level 5	Level 6	Descriptions
Wired LAN	TCP/IP	Boot Method	-	Select the Boot method that best suits your needs.
		IP Address	-	Enter the IP address.
		Subnet Mask	-	Enter the Subnet mask.
		Gateway	-	Enter the Gateway address.
		Node Name	-	Enter the Node name. (up to 32 characters)
		WINS Configuration	-	Select the WINS configuration mode.
		WINS Server	Primary	Specify the IP address of the primary WINS server.
			Secondary	Specify the IP address of the secondary WINS server.
		DNS Server	Primary	Specify the IP address of the primary DNS server.
			Secondary	Specify the IP address of the secondary DNS server.
	APIPA	-	Set the machine to allocate the IP address from the link-local address range automatically.	
	IPv6	-	Turn the IPv6 protocol on or off.	
	Ethernet	-	-	Select the Ethernet link mode.
	Wired Status	-	-	View the current wired status.
	MAC Address	-	-	View the machine's MAC address.
Set to Default	-	-	Restore the wired network settings to the factory settings.	
Wired Enable	-	-	Turn the Wired LAN interface on or off manually.	
WLAN (Wi-Fi)	Find Wi-Fi Network	-	-	Configure your wireless network settings manually.
	TCP/IP	Boot Method	-	Select the Boot method that best suits your needs.
		IP Address	-	Enter the IP address.
		Subnet Mask	-	Enter the Subnet mask.
		Gateway	-	Enter the Gateway address.
		Node Name	-	Enter the Node name. (up to 32 characters)
		WINS Configuration	-	Select the WINS configuration mode.
		WINS Server	Primary	Specify the IP address of the primary WINS server.
	Secondary		Specify the IP address of the secondary WINS server.	

Level 3	Level 4	Level 5	Level 6	Descriptions
WLAN (Wi-Fi)	TCP/IP	DNS Server	Primary	Specify the IP address of the primary DNS server.
			Secondary	Specify the IP address of the secondary DNS server.
		APIPA	-	Set the machine to allocate the IP address from the link-local address range automatically.
		IPv6	-	Turn the IPv6 protocol on or off.
	WPS/Push Button	-	-	Configure your wireless network settings using the one-button push method.
	WPS/PIN Code	-	-	Configure your wireless network settings using WPS with a PIN.
	Recover WLAN	-	-	Reset and restart your wireless network.
	WLAN Status	Status	-	View the current wireless network status.
		Signal	-	View the current wireless network signal strength.
		SSID	-	View the current SSID.
		Comm. Mode	-	View the current Communication mode.
	MAC Address	-	-	View the machine's MAC address.
	Set to Default	-	-	Restore the wireless network settings to the factory settings.
	WLAN Enable	-	-	Turn the wireless network connection On.
Wi-Fi Direct	Manual	-	-	Configure your Wi-Fi Direct network settings manually.
	Group Owner	-	-	Set your machine as the Group Owner.
	Push Button	-	-	Configure your Wi-Fi Direct network settings using the one-button push method.
	PIN Code	-	-	Configure your Wi-Fi Direct network settings using WPS with a PIN code.
	Device Information	Device Name	-	View your machine's device name.
		SSID	-	View the Group Owner's SSID. When the machine is not connected, the LCD displays Not Connected.
		IP Address	-	View your machine's current IP Address.
	Status Information	Status	-	View the current Wi-Fi Direct network status.
		Signal	-	View the current Wi-Fi Direct network signal strength.

Level 3	Level 4	Level 5	Level 6	Descriptions
Wi-Fi Direct	Status Information			When your machine acts as Group Owner, the LCD always indicates a strong signal.
	I/F Enable	-	-	Turn the Wi-Fi Direct connection on or off.
NFC (available for certain models)	-	-	-	Turn the NFC function on or off.
E-mail/IFAX (available for certain models)	Mail Address	-	-	Enter the email address. (Up to 255 characters)
	Setup Server	SMTP	Server	Enter the SMTP server name and address.
			Port	Enter the SMTP port number.
			Auth. for SMTP	Select the Security method for email notification.
			SSL/TLS	Send or receive an email via an email server that requires secure SSL/TLS communication.
			Verify Cert.	Verify the SMTP Server Certificate automatically.
		POP3/IMAP4	Protocol	Select the protocol for receiving an email from the server.
			Server	Enter the server name and address.
			Port	Enter the port number.
			Mailbox Name	Enter the mailbox name. (Up to 255 characters)
			Mailbox Password	Enter the password to log into the server. (Up to 128 characters)
			Select Folder	Select the specified folder in the mailbox using the IMAP4 protocol.
			SSL/TLS	Send or receive an email via an email server that requires secure SSL/TLS communication.
			Verify Cert.	Verify the Server Certificate automatically.
		Auth. for POP3/IMAP4	Select the Security method for email notification.	
		Setup Mail RX	Auto Polling	Auto Polling
Poll Frequency	Set the interval for checking for new messages on the server.			
Header	-		Select the contents of the email header to be printed.	
Del/Read Error Mail	-		The POP3 server deletes error emails automatically. The IMAP4 server deletes error emails	

Level 3	Level 4	Level 5	Level 6	Descriptions
E-mail/IFAX (available for certain models)	Setup Mail RX			automatically after you read them.
		Notification	-	Receive notification messages.
	Setup Mail TX	Sender Subject	-	View the subject.
		Size Limit	Size Limit	Limit the size of email documents.
			Maximum Size (MB)	
		Notification	-	Send notification messages.
	Setup Relay	Relay Broadcast	-	Relay a document to another fax machine.
		Relay Domain	Relay ##	Register the Domain name.
		Relay Report	-	Print the relay Broadcast Report.
	Report Setting	E-mail	Transmission	Select the initial setup for the Transmission Verification Report.
		IFAX	Transmission	
Manual Receive	-	-	Manually check the POP3 or IMAP4 server for new messages.	
Web Connect Settings	Proxy Settings	Proxy Connection	-	Change the Web connection settings.
		Address	-	
		Port	-	
		User Name	-	
		Password	-	
Web Based Mgmt	-	-	-	Enable or disable Web Based Management. If you enable this function, make sure you specify the connection method to use Web Based Management.
Fax to Server (available for certain models)	Fax to Server	-	-	Select the network connection type.
	Prefix	-	-	
	Suffix	-	-	
IPsec (available for certain models)	-	-	-	IPsec is an optional security feature of the IP protocol that provides authentication and encryption services. We recommend contacting your network administrator before changing this setting.
Global Detect	Allow Detect	-	-	Enable or disable Global Detect, a function that detects and notifies the user when the user unintentionally connects to a global network.
	Reject Access	-	-	Disable connections to the global network.
Network Reset	-	-	-	Restore all network settings back to the factory settings.

[Print Reports]

[All Settings] > [Print Reports]

Level 3	Level 4	Descriptions
Transmission	View on LCD	Display a Transmission Verification Report that lists sent faxes.
	Print Report	Print a Transmission Verification Report of your last transmission.
Address Book	-	Print a list of names and numbers stored in the Address Book.
Fax Journal	-	Print a list of information about your last 200 incoming and outgoing faxes. (TX means Transmit. RX means Receive.)
User Settings	-	Print a list of your User settings.
Printer Settings	-	Print a list of your Printer settings.
Network Configuration	-	Print a list of your Network settings.
Print File List (available for certain models)	-	Print a list of data saved in the machine's memory.
Drum Dot Print	-	Print the Drum Dot Check Sheet.
WLAN Report (For models with wireless network functionality)	-	Print the wireless LAN connection results.
Caller ID History (Available only for some countries.)	-	Print a list of the Caller ID History.

[Machine Info.]

[All Settings] > [Machine Info.]

Level 3	Level 4	Descriptions
Serial No.	-	Check your machine's serial number.
Firmware Version	Main Version	Check your machine's firmware version.
	Sub1 Version (available for certain models)	
	Security Version	
Firmware Update	-	Update your machine to the latest firmware.
Firmware Auto Check	-	View firmware information on the Home screen.
Page Counter	Total	Check the total number of pages the machine has printed.
	Fax	
	Copy	
	Print	
	Other	
Parts Life	Drum	Check the percentage of the supplies' life that remains available.

[Initial Setup]

[All Settings] > [Initial Setup]

Level 3	Level 4	Descriptions
Date & Time	Date	Add the date and time on the screen and in the headings of the faxes you send.
	Time	
	Clock Type	Select the time format (12-hour or 24-hour).
	Auto Daylight	Set the machine to change automatically for Daylight Saving Time.
	Time Zone	Set your time zone.
Station ID	Fax	Enter your name and fax number so it appears on each page you fax.
	Tel	
	Name	
Tone/Pulse	-	Select the dialing mode.
Dial Tone	-	Shorten the dial tone detection pause.
Dial Prefix	-	Set a prefix number to be added before the fax number every time you dial.
Compatibility	-	Adjust the equalization for transmission difficulties. VoIP service providers offer fax support using various standards. If you regularly experience fax transmission errors, select Basic (for VoIP).
Reset	Machine Reset	Restore all the machine settings that you have changed.
	Network Reset	Restore all network settings back to the factory settings.
	Address Book & Fax	Erase all stored phone numbers and fax settings.
	All Settings	Restore all the machine's settings back to the factory settings.
	Factory Reset	Restore all settings back to the factory settings.
Local Language (Available only for some countries.)	-	Change your LCD language.

Change Machine Settings Using Web Based Management

Web Based Management is a utility that uses a standard web browser to manage your machine using the Hyper Text Transfer Protocol (HTTP) or Hyper Text Transfer Protocol over Secure Socket Layer (HTTPS).

- [What is Web Based Management?](#)
- [Access Web Based Management](#)
- [Change the Login Password Using Web Based Management](#)
- [Set Up Your Machine's Address Book Using Web Based Management](#)

What is Web Based Management?

Web Based Management is a utility that uses a standard web browser to manage your machine using the Hyper Text Transfer Protocol (HTTP) or Hyper Text Transfer Protocol over Secure Socket Layer (HTTPS).

- We recommend using the latest version of the following web browsers:
 - Microsoft Edge, Firefox, and Google Chrome™ for Windows
 - Safari, Firefox, and Google Chrome™ for Mac
 - Google Chrome™ for Android™
 - Safari and Google Chrome™ for iOS
- Ensure that JavaScript and Cookies are always enabled, regardless of which browser you use.
- Make sure your machine is On and connected to the same network as your computer, and that your network supports the TCP/IP protocol.

The screenshot displays the Brother Web Based Management interface. On the right side, the 'Status' section shows 'Device Status' as 'Ready' with a green bar. Below this, 'Automatic Refresh' is set to 'Off'. The 'Toner Level' section shows a bar for 'BK' (Black) toner. The 'Web Language' is set to 'Auto'. The 'Device Location' section has fields for 'Contact' and 'Location'. On the left, a dark sidebar contains a 'Logout' button and a menu with options: Home, Status (highlighted), Auto Refresh Interval, General, Address Book, Fax, Copy, Print, Scan, Administrator, Online Functions, and Network. The Brother logo is in the top right corner.

The actual screen may differ from the screen shown above.

Related Information

- [Change Machine Settings Using Web Based Management](#)
-

Access Web Based Management

- We recommend using the latest version of the following web browsers:
 - Microsoft Edge, Firefox, and Google Chrome™ for Windows
 - Safari, Firefox, and Google Chrome™ for Mac
 - Google Chrome™ for Android™
 - Safari and Google Chrome™ for iOS
- Ensure that JavaScript and Cookies are always enabled, regardless of which browser you use.
- We recommend using the HTTPS security protocol when configuring settings using Web Based Management. If you use HTTP when configuring settings using Web Based Management, follow the screen prompts to switch to a secure HTTPS connection.
- When you use HTTPS for Web Based Management configuration, your browser will display a warning dialog box. To avoid displaying the warning dialog box, you can install a self-signed certificate to use SSL/TLS communication. For more information, see *Related Information*.
- The default password to manage this machine's settings is located on the back of the machine and marked "**Pwd**". Change the default password by following the on-screen instructions when you first log in. We recommend immediately changing the default password to protect your machine from unauthorized access.

You can also find the default password in the Network Configuration Report.

- >> [Access Web Based Management from your Web Browser](#)
- >> [Access Web Based Management from Brother iPrint&Scan \(Windows/Mac\)](#)
- >> [Access Web Based Management from Brother Utilities \(Windows\)](#)

Access Web Based Management from your Web Browser

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

For example: https://SharedPrinter

- If you enable a NetBIOS name, you can also use the node name.

For example: https://brn123456abcdef

- The NetBIOS name can be found in the Network Configuration Report.

3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "**Pwd**". Change the default password by following the on-screen instructions when you first log in.

4. If you want to pin the navigation bar to the left side of the screen, click ☰ and then click 📌.

You can now change the machine's settings.

If the machine is idle for a specified amount of time, the user is automatically logged out. Change the logout settings in the **Logout Time** menu.

Access Web Based Management from Brother iPrint&Scan (Windows/Mac)

1. Start Brother iPrint&Scan.
 - Windows
Launch  (Brother iPrint&Scan).
 - Mac
In the **Finder** menu bar, click **Go > Applications**, and then double-click the iPrint&Scan icon.
The Brother iPrint&Scan screen appears.
2. If your Brother machine is not selected, click the **Select your Machine** button, and then select your model name from the list. Click **OK**.
3. Click  (**Supplies/Machine Settings**).
4. Click **All Settings**.
The Web Based Management page appears.
5. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

6. If you want to pin the navigation bar to the left side of the screen, click  and then click .

You can now change the machine's settings.

You can also access Web Based Management from Brother Mobile Connect for mobile devices.

Access Web Based Management from Brother Utilities (Windows)

1. Launch  (**Brother Utilities**), and then click the drop-down list and select your model name (if not already selected).
2. Click **Tools** in the left navigation bar, and then click **Machine Settings**.
The Web Based Management page appears.
3. If required, type the password in the **Login** field, and then click **Login**.

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in.

4. If you want to pin the navigation bar to the left side of the screen, click  and then click .

You can now change the machine's settings.

If you change the protocol settings, you must restart the machine after clicking **Submit** to activate the configuration.

After configuring the settings, click **Logout**.

Change the Login Password Using Web Based Management

The default password to manage this machine's settings is located on the back of the machine and marked "Pwd". Change the default password by following the on-screen instructions when you first log in. We recommend immediately changing the default password to protect your machine from unauthorized access.

1. Start your web browser.
2. Type "https://machine's IP address" in your browser's address bar (where "machine's IP address" is your machine's IP address).

For example:

https://192.168.1.2

- If you are using a Domain Name System or enable a NetBIOS name, you can type another name, such as "SharedPrinter" instead of the IP address.

For example: https://SharedPrinter

- If you enable a NetBIOS name, you can also use the node name.

For example: https://brn123456abcdef

- The NetBIOS name can be found in the Network Configuration Report.

3. Do one of the following:
 - If you have previously set your own password, type it, and then click **Login**.
 - If you have not previously set your own password, type the default login password, and then click **Login**.
4. In the left navigation bar, click **Administrator > Login Password**.

- The default password to manage this machine's settings is located on the back of the machine and marked "Pwd".

- If the left navigation bar is not visible, start navigating from ☰.

5. To change the password, type your current password in the **Enter Old Password** field.
6. Following the on-screen **Login Password** guidelines, type your new password in the **Enter New Password** field.
7. Retype the new password in the **Confirm New Password** field.
8. Click **Submit**.

You can also change the lockout settings in the **Login Password** menu.

¹ Measured diagonally.

² Measured when the machine is connected with the same network connection as the ENERGY STAR Ver. 3.1 test method.

³ Measured according to IEC 62301 Edition 2.0.

⁴ Power consumption varies slightly depending on the usage environment.

⁵ Measured in accordance with the method described in ISO 7779.

Document Size Specification

Document Size	ADF Width ¹	4.1 in. to 8.5 in. (105 mm to 215.9 mm)
	ADF Length ¹	5.8 in. to 14.0 in. (147.3 mm to 355.6 mm)
	Scanner Glass Width	Maximum 8.5 in. (215.9 mm)
	Scanner Glass Length	Maximum 11.8 in. (300 mm)

¹ ADF models only

Print Media Specifications

Paper Input	Paper Tray (Standard)	Paper Type	Plain Paper, Thin Paper, Recycled Paper, Thick Paper
		Paper Size	A4, Letter, B5 (JIS), B5 (ISO), A5, A5 (Long Edge), B6 (JIS), A6, Executive, Legal, Mexico Legal, India Legal, Folio, 16K (195x270 mm), A4 Short (270mm Paper)
		Paper Weight	16 to 43 lb (60 to 163 g/m ²) ¹
		Maximum Paper Capacity	Up to 250 sheets of 20 lb (80 g/m ²) Plain Paper
	Manual Feed Slot	Paper Type	Plain Paper, Thin Paper, Thick Paper, Thicker Paper, Recycled Paper, Bond, Label, Envelope, Env.Thin, Env.Thick
		Paper Size	<ul style="list-style-type: none"> • Width: 3 to 8.5 in. (76.2 to 215.9 mm) • Length: 5 to 14 in. (127 to 355.6 mm) • Envelope: COM-10, DL, C5, Monarch
		Paper Weight	16 to 61 lb (60 to 230 g/m ²)
		Maximum Paper Capacity	One sheet at a time
Paper Output ²	Face Down Output Tray		Up to 100 Sheets of 20 lb (80 g/m ²) Plain Paper (face down delivery to the face down output paper tray)
	Face Up Output Tray		One sheet (face up delivery to the face up output tray)
2-sided	Automatic 2-sided Printing	Paper Type	Plain Paper, Thin Paper, Recycled Paper
		Paper Size	Letter, Legal, Folio, Mexico Legal, India Legal
		Paper Weight	16 to 28 lb (60 to 105 g/m ²)

- 1 For paper of 28 lb (105 g/m²) and above, open the back cover to use the face up output tray.
- 2 For labels, we recommend removing the printed sheets from the output paper tray immediately after they exit the machine to avoid the possibility of smudging.

Fax Specifications

NOTE

This feature is available for MFC models.

- 1 Your machine has a USB 2.0 Hi-Speed interface. The machine can also be connected to a computer that has a USB 1.1 interface.
- 2 Third party USB hub devices are not supported.
- 3 Use a straight-through Category 5 (or greater) twisted-pair cable.

Supported Protocols and Security Features

Supported protocols and security features may differ depending the models.

Ethernet

10Base-T/100Base-TX

Wireless LAN (2.4GHz)

IEEE 802.11b/g/n (Infrastructure Mode), IEEE 802.11g/n (Wi-Fi Direct)

Wireless LAN (5GHz)

IEEE 802.11a/n (Infrastructure Mode), IEEE 802.11a/n (Wi-Fi Direct)

Protocols (IPv4)

ARP, RARP, BOOTP, DHCP, APIPA(Auto IP), WINS/NetBIOS name resolution, DNS Resolver, mDNS, LLMNR responder, LPR/LPD, Custom Raw Port/Port9100, POP3, SMTP Client, IPP/IPPS, FTP Client and

Server, CIFS Client, SNMPv1/v2c/v3, HTTP/HTTPS server, TFTP client and server, ICMP, Web Services (Print/Scan), Syslog, SMTP Client, IMAP4, LDAP/LDAPS

Protocols (IPv6)

NDP, RA, DNS resolver, mDNS, LLMNR responder, LPR/LPD, Custom Raw Port/Port9100, IPP/IPPS, POP3, SMTP Client, FTP Client and Server, CIFS Client, SNMPv1/v2c/v3, HTTP/HTTPS server, TFTP client and server, ICMPv6, Web Services (Print/Scan), Syslog, SMTP Client, IMAP4, LDAP/LDAPS

Network Security (Wired)

APOP*, SMTP-AUTH, SSL/TLS (SMTP, HTTP, IPP, POP3*, IMAP4*, FTP), SNMP v3, 802.1x (EAP-MD5, EAP-FAST, PEAP, EAP-TLS, EAP-TTLS), OAuth(SMTP, POP3, IMAP4), Kerberos, IPsec

*When Internet FAX is downloaded.

Network Security (Wireless)

APOP*, SMTP-AUTH, SSL/TLS (SMTP, HTTP, IPP, POP3*, IMAP4*, FTP), SNMP v3, 802.1x (EAP-FAST, PEAP, EAP-TLS, EAP-TTLS), OAuth(SMTP, POP3, IMAP4), Kerberos, IPsec

*When Internet FAX is downloaded.

Wireless Network Security

WEP 64/128 bit, WPA-PSK (TKIP/AES), WPA2-PSK (TKIP/AES), WPA3-SAE (AES) (Wi-Fi Direct supports WPA2-PSK (AES) only)

Wireless Certification

Wi-Fi Certification Mark License (WPA3™ - Enterprise, Personal), Wi-Fi Protected Setup™ (WPS) Identifier Mark License, Wi-Fi CERTIFIED™ Wi-Fi Direct

Computer Requirements Specifications

Supported Operating Systems And Software Functions

For the latest supported OS, go to your model's **Supported OS** page at support.brother.com/os.

Computer Platform & Operating System Version	PC Interface			Processor	Hard Disk Space to Install ¹	
	USB ²	Wired LAN	Wireless LAN		For Drivers	For Applications (including Drivers)

Supplies

When the time comes to replace supplies, such as the toner cartridge or drum unit, an error message will appear on your machine's control panel or in the Status Monitor. For more information about the supplies for your machine, visit go.brother/original or contact your local Brother dealer.

The Supply Order Number (No.) varies depending on your country and region.

Toner Cartridge

Supply Order No.	Approximate Life (Page Yield)	Applicable Models
Standard Toner: TN830	Approximately 1,200 pages ^{1 2}	HL-L2465DW/DCP-L2640DW/ HL-L2480DW/MFC-L2760DW/ MFC-L2807DW/MFC-L2820DW/ MFC-L2820DWXL/MFC-L2900DW/ MFC-L2900DWXL/MFC-L2980DW
High Yield Toner: TN830XL	Approximately 3,000 pages ^{1 2}	HL-L2465DW/DCP-L2640DW/ HL-L2480DW/MFC-L2760DW/ MFC-L2807DW/MFC-L2820DW/ MFC-L2820DWXL/MFC-L2900DW/ MFC-L2900DWXL/MFC-L2980DW
Super High Yield Toner: TN835	Approximately 5,000 pages ^{1 2}	MFC-L2980DW
Value High Yield Toner: TN830V (For USA)	Approximately 3,300 pages ^{1 2}	HL-L2465DW/DCP-L2640DW/ HL-L2480DW/MFC-L2760DW/ MFC-L2807DW/MFC-L2820DW/ MFC-L2820DWXL/MFC-L2900DW/ MFC-L2900DWXL
Starter Toner: (Supplied with your machine)	Approximately 700 pages ^{1 2}	HL-L2465DW/DCP-L2640DW/ HL-L2480DW/MFC-L2760DW/ MFC-L2820DW/MFC-L2900DW
	Approximately 1,200 pages ^{1 2}	MFC-L2807DW/MFC-L2980DW
	Approximately 4,200 pages ^{1 2} (Standard Toner + High Yield Toner replacement included in the carton)	MFC-L2820DWXL/MFC-L2900DWXL

¹ The approximate cartridge yield is declared in accordance with ISO/IEC 19752.

² A4/Letter single-sided pages

Drum Unit

Drum Unit:		
Supply Order No.	Approximate Life (Page Yield)	Applicable Models
DR830	Approximately 15,000 pages ¹	HL-L2465DW/DCP-L2640DW/ HL-L2480DW/MFC-L2760DW/ MFC-L2807DW/MFC-L2820DW/ MFC-L2820DWXL/MFC-L2900DW/ MFC-L2900DWXL/MFC-L2980DW

¹ Approximately 15,000 pages based on one page per job (A4/Letter single-sided pages). The number of pages may be affected due to a variety of factors including but not limited to media type and media size.

Ordering Accessories and Supplies

We recommend Genuine Brother supplies, which are available at most Brother retailers. If you cannot find the supplies you need and have a Visa, MasterCard, Discover, American Express credit card, or PayPal account, you can order directly from Brother. Visit us online for a complete selection of the Brother accessories and supplies that are available for purchase.

NOTE

In Canada, only Visa and MasterCard are accepted.
